(2026)

Foreword

This publication incorporates all NAFO Conservation and Enforcement Measures presently in force as adopted by the Commission in accordance with provisions of Articles VI, XIII and XIV of the Convention on Cooperation in the Northwest Atlantic Fisheries.

Every year, the NAFO Conservation and Enforcement Measures (CEM) are revised by the Commission. The amendments for 2026, which were adopted at the 47th Annual Meeting in September 2025, are listed on the following pages, along with the reference documents. This revision incorporates the update to Annex I.A “*Annex I.A – Annual Quota Table*” to reflect the quota for cod in Division 3L for 2026/2027. The NAFO CEM is subject to changes throughout the year, so please check the NAFO website for the latest version.

All NAFO publications, including the NAFO Conservation and Enforcement Measures, are available from the NAFO Website: www.nafo.int

Article 1 – Definitions

1. "Bottom fishing activities" means bottom fishing activities where the fishing gear is likely to contact the seafloor during the normal course of fishing operations;
2. "CEM" refers to these Conservation and Enforcement Measures;
3. "Convention" means the 1979 *Convention on Cooperation in the Northwest Atlantic Fisheries*, as amended from time to time;
4. "Electronic Monitoring System (EMS)" means a system onboard a fishing vessel that acquires, stores and, as appropriate, transmits data from sensors and video camera footage that can be reviewed and analyzed by a human reviewer, data analysis software, or edge based automation;
5. "FMC" means a land-based fisheries monitoring centre of the flag State Contracting Party;
6. "Fishing activities" means harvesting or processing fishery resources, landing or transshipping of fishery resources or products derived from fishery resources, or any other activity in preparation for, in support of, or related to the harvesting of fisheries resources in the Regulatory Area, including:
 - (a) the actual or attempted searching for, catching or taking of fishery resources;
 - (b) any activity that can reasonably be expected to result in locating, catching, taking, or harvesting of fishery resources for any purpose; and
 - (c) any operation at-sea in support of, or in preparation for, any activity described in this definition,but does not include any operations related to emergencies involving the health and safety of the crew members or the safety of a vessel;
7. "Fishing day" means any calendar day or any fraction of a calendar day in which a fishing vessel is present in any Division in the Regulatory Area;
8. "Fishing trip" for a fishing vessel includes the time from its entry into until its departure from the Regulatory Area and continues until all catch on board from the Regulatory Area has been landed or transhipped;
9. "Fishing vessel" means any vessel equipped for, intended for, or engaged in fishing activities, including fish processing, transshipment or any other activity in preparation for or related to fishing activities, including experimental or exploratory fishing activities;
10. "IMO Number" means a 7-digit number, which is assigned under the authority of the International Maritime Organization by IHS-Maritime;

11. "Inspector", unless otherwise specified, means an inspector of the fishery control services of a Contracting Party assigned to the Joint Inspection and Surveillance Scheme;
12. "IUU fishing" means activities as defined in paragraph 3 of the *FAO International Plan of Action to Prevent, Deter and Eliminate Illegal, Unreported and Unregulated Fishing*;
13. "IUU Vessel List" means the list, established in accordance with Articles 52 and 53;
14. "MCS Website" means the NAFO Monitoring, Control and Surveillance Website that contains information relevant for at-sea and in-port inspections. The procedure for granting access to this website to individuals within Contracting Parties is outlined in Annex II.H;
15. "Non-Contracting Party vessel" means a vessel entitled to fly the flag of a State that is not a Contracting Party or a vessel suspected to be without nationality;
16. "Observer" means a person who is authorized and certified by a Contracting Party to observe, monitor and collect information aboard fishing vessels;
17. "Port" includes offshore terminals and other installations for landing, transshipping, packaging, processing, refuelling or resupplying;
18. "Processed fish" means any marine organism that has been physically altered since capture, including fish that has been filleted, gutted, packaged, canned, frozen, smoked, salted, cooked, pickled, dried or prepared for market in any other manner;
19. "Research vessel" means a vessel permanently used for research or a vessel normally used for fishing activities or fisheries support activity that is for the time being used for fisheries research;
20. "Transshipment" means transfer, over the side, from one fishing vessel to another, of fisheries resources or products.

Article 2 – Scope

1. The CEM shall, unless otherwise provided, apply to all fishing vessels used or intended for use for the purposes of commercial fishing activities conducted on fisheries resources in the Regulatory Area.
2. Unless otherwise provided, research vessels shall not be restricted by conservation and management measures pertaining to the taking of fish, in particular, concerning mesh size, size limits, closed areas and seasons.

Article 3 – Duties of the Contracting Parties

1. Each Contracting Party shall ensure that every fishing vessel entitled to fly its flag operating in the Regulatory Area complies with the relevant provisions of the CEM; and
2. Each fishing vessel operating in the Regulatory Area shall perform the relevant duties set out in the CEM and comply with the relevant provisions of the CEM.

CHAPTER I CONSERVATION AND MANAGEMENT MEASURES

Article 4 – Research Vessels

1. Unless otherwise provided, research vessels shall not be restricted by conservation and management measures pertaining to the taking of fish in the Regulatory Area, in particular, mesh size, size limits, closed areas and seasons.
2. A research vessel shall not:
 - (a) conduct fishing activities inconsistent with its research plan;
 - (b) take 3L shrimp in excess of the allocation of the flag State Contracting Party.
 - (c) take 3M cod in excess of 15 tonnes. Should a research vessel's catch exceed this amount, the excess shall be counted against the allocation to the vessel's flag State Contracting Party. Furthermore, if the allocation to the Contracting Party for 3M cod is exhausted, it shall not authorize its vessels to undertake further research activities. Any research activities underway must be stopped as soon as 15 tonnes have been caught; or,
 - (d) take 3M shrimp in excess of 10 tonnes. A Contracting Party must stop research activities on 3M shrimp once 10 tonnes have been caught.
3. The flag State Contracting Party shall:
 - (a) by electronic transmission in the format prescribed in Annex II.C and prior to the commencement of the research, notify the Executive Secretary of all research vessels entitled to fly its flag it has authorized to conduct research activities in the Regulatory Area;
 - (b) provide to the Executive Secretary a Research Plan for all vessels it has authorized to conduct research.
 - (c) provide the Research Plan and any changes thereof no less than thirty days in advance of the opening of the Scientific Council's June meeting for new non-recurrent surveys and research activities or if any catches retained on board during research activities will be marketed. Otherwise, the Research Plan shall be provided no less than seven days prior to the commencement of the research. The Research Plan shall contain at a minimum the following information:
 - (i) vessel identification,
 - (ii) purpose,
 - (iii) summary of scientific methods or procedures,
 - (iv) location and dates of the research activity,

- (v) the name of the principal investigator,
 - (vi) whether any catches retained on board will be marketed,
 - (vii) total estimated research catch of the survey target species and whether an observer with sufficient scientific expertise will be on board,
 - (viii) information on when the research results will be presented to the Scientific Council,
 - (ix) where relevant, any requests to derogate from the provisions in paragraph 3(c), and
 - (x) where relevant, indication that the activity constitutes a non-recurrent new survey or research.
- (d) unless otherwise supported by the opinion of the Scientific Council pursuant to paragraph 5, ensure that its research vessels retaining on board catches obtained during research activities with the purpose of marketing these catches:
- (i) comply with the recording and reporting requirements in Chapter IV,
 - (ii) have an observer with sufficient expertise on board,
 - (iii) count these catches against the Contracting Party's quota and fishing effort limitations set out in Annex I;
- (e) notify the Executive Secretary immediately upon the commencement and termination of research activities of vessels temporarily employed in research, including during fishing trips in which both commercial and research activities take place; and
- (f) ensure that its research vessels:
- (i) keep on board a copy of the Research Plan and any changes thereof in the English language at all times; and
 - (ii) stow catches taken in research activities separately with netting, plywood, boxes or other means from all other catches taken in fishing trips in which both commercial and research activities are carried out. The location of the catches taken in research activities shall be indicated in the stowage plan.
4. The measures in paragraph 3(c), (d) and (f)(ii) shall only apply to surveys conducted in the NAFO Regulatory Area targeting stocks included in Annex I.A and Annex I.B of the NAFO CEM.

Duties of the Scientific Council

5. The Scientific Council will provide its written opinion on the research plans in the cases referred to in paragraph 3(c)(ix) and (x).

Duties of the Executive Secretary

6. The Executive Secretary:
 - (a) following notifications in accordance with paragraph 3, without delay:
 - (i) posts the names of all research vessels in the vessel registry to the NAFO website and includes in such posting any supporting documents provided by the flag State Contracting Party, including the Research Plan,
 - (ii) submits to the Scientific Council the Research Plan and any changes thereof;
 - (b) promptly informs the Contracting Parties and posts on the NAFO Website the opinion provided by the Scientific Council pursuant to paragraph 5.
7. NAFO will review these measures in 2026.

Article 5 – Catch and Effort Limitations

Quotas

1. Each Contracting Party shall ensure that:
 - (a) all vessels, including vessels chartered in accordance with Article 26, are subject to the catch and effort limitations specified in this Article;
 - (b) all catch and effort limitations shall apply to stocks identified in Annex I.A and I.B; and
 - (c) unless otherwise stated, all quotas shall be expressed as live weight, in tonnes.
2. For any one haul, the species which comprises the largest percentage, by weight, of the total catch in the haul shall be considered as being taken in a directed fishery for the stock concerned.

Quotas and Effort

3. For stocks identified in Annex I.A or I.B caught within the Regulatory Area by vessels entitled to fly its flag, each Contracting Party shall:
 - (a) limit the catch by its vessels so that the quota allocated to that Contracting Party in accordance with Annex I.A is not exceeded;

- (b) ensure that all catch from stocks listed in Annex I.A caught by its vessels are counted against the quota allocated to that Contracting Party, including the bycatch of 3M redfish taken between the estimated date when 50% of the 3M redfish TAC is taken, as notified in accordance with paragraph 15 of this Article, and 1 July;
 - (c) ensure that no more 3M redfish is retained onboard its vessels after the estimated date when 100% of the 3M redfish TAC is taken, as notified in accordance with paragraph 15 of this Article;
 - (d) be permitted to fish for stocks in which it has not been allocated a quota in accordance with Annex I.A, hereafter referred to as "Others" quota, if such quota exists and notification of closure has not been given by the Executive Secretary in accordance with paragraph 15(d)(ii) of this Article;
 - (e) notify the Executive Secretary of the names of vessels that intend to fish the "Others" quota at least 48 hours in advance of each entry, and after a minimum of 48 hours of absence from the Regulatory Area. This notification shall, if possible, be accompanied with an estimate of the projected catch;
 - (f) limit its fishing activities for shrimps in Division 3M in accordance with the fishing effort in Annex I.B; and
 - (g) if also a Contracting Party of NEAFC, deduct Subarea 2 and Divisions 1F+3K redfish catch taken in the NAFO Convention Area from any corresponding quota it has been allocated in the NEAFC Convention Area.
4. When no agreement can be reached by the Commission on a NAFO managed stock, through either consensus or vote, the Commission shall maintain the existing relative percentage quota shares for that stock, as reflected in Annex I.A and I.B. This shall be deemed to be a proposal of the Commission in accordance with Articles VI and XIV of the Convention for the succeeding calendar year.

Closure of Fisheries for Stocks Listed in Annex I.A and I.B Subject to Quota or Fishing Effort

5. Each Contracting Party shall:
- (a) close its fishery for stocks listed in Annex I.A in the Regulatory Area on the date on which the available data indicates that the total quota allocated to that Contracting Party for the stocks concerned will be taken, including the estimated quantity to be taken prior to the closure of the fishery, discards, and estimated unreported catch by all vessels entitled to fly the flag of that Contracting Party;
 - (b) ensure its vessels immediately cease fishing activities that may result in catch when notified by the Executive Secretary in accordance with paragraph 15(b) of this Article that the quota allocated to that Contracting Party has been fully taken. If the Contracting Party can demonstrate that it

still has quota available for that stock in accordance with paragraph 6 of this Article, the vessels of that Contracting Party may resume fishing on that stock;

- (c) close its shrimp fishery in Division 3M when the number of fishing days allocated to that Contracting Party is reached. The number of fishing days in respect of each vessel shall be determined using VMS positional data within Division 3M, with any part of a day being considered a full day;
- (d) close its directed fishery for 3M redfish between 23:59 UTC of the day the accumulated reported catch is estimated to reach 50% of the 3M redfish TAC, as notified in accordance with paragraph 15 (d)(i) of this Article, and 1 July;
- (e) close its redfish fishery in Division 3M at 23:59 UTC of the day the accumulated reported catch is estimated to reach 100% of the 3M redfish TAC, as notified in accordance with paragraph 15 (e) of this Article;
- (f) promptly notify the Executive Secretary of the date of closure under paragraphs 5(a), (b), (c), (d) and (e) of this Article;
- (g) ensure that no vessel entitled to fly its flag continues a directed fishery in the Regulatory Area for a particular stock under an “Others” quota beyond 5 days of notification by the Executive Secretary that that particular “Others” quota is projected to be taken, in accordance with paragraph 15 of this Article;
- (h) ensure that no vessel entitled to fly its flag commences a directed fishery in the Regulatory Area for a particular stock under an “Others” quota following notification by the Executive Secretary that that particular Others quota is projected to be taken, in accordance with paragraph 15 of this Article;
- (i) ensure that, after a closure of its fishery in accordance with this paragraph, no more fish of the stock concerned is retained on board the vessels entitled to fly its flag unless otherwise authorized by the CEM;
- (j) close its directed fishery for cod in Division 3M between 00:01 UTC 1 January 2026 and 23:59 UTC 31 March 2026. During this period, all Contracting Parties shall ensure that its vessels limit the catches retained on board and in any one haul of this stock in line with Article 6.3(a) and observe the move-on provisions in Article 6.6(b);
- (k) close its directed fishery for cod in Division 3L between 00:01 UTC 15 April 2026 and 23:59 UTC 30 June, 2026. During this period, all Contracting Parties shall ensure that their vessels limit the catches retained on board and in any one haul of this stock in line with Article 6.3.(a) and observe the move-on provisions in Article 6.6(b); and
- (l) as appropriate, deny the landing or transshipment, including at sea, of catches of shallow or deep pelagic beaked redfish, or other port services to

vessels with catches of shallow or deep pelagic beaked redfish onboard that have been taken in a directed fishery in Subarea 2 and Divisions 1F + 3K when the TAC in these areas is set at zero in Annex I.A, except in the case of force majeure, distress, for the purposes of inspection, or for taking appropriate enforcement action.

Re-opening of a Closed Fishery

6. A fishery that has been closed according to paragraph 5 of this Article may be re-opened within 15 days of notification by the Executive Secretary in accordance with paragraph 15 of this Article:
 - (a) if the Executive Secretary confirms that a Contracting Party has demonstrated that there is remaining quota available from its original allocation; or
 - (b) if a quota transfer from another Contracting Party, in accordance with paragraph 9 of this Article, results in additional quota for the particular stock subject to closure.

Quota Adjustments

7. Catch in excess of a quota allocated to a Contracting Party may result in a deduction of allocations of that stock during a future quota period, if so decided by the Commission. Such a deduction:
 - (a) shall be considered independently from any quota adjustment that may be decided by the Commission;
 - (b) shall not increase the quota allocated for that stock to any other Contracting Party, unless the Commission determines that the increase will not cause further harm to the stock; and
 - (c) shall not affect the allocation of any other quota to that Contracting Party.
8. Catch in excess of an "Others" quota may result in temporary or permanent adjustments to fishing opportunities of the relevant Contracting Party, if so decided by the Commission, as appropriate measures to compensate for damage caused to the stock when a Contracting Party has:
 - (a) allowed vessels entitled to fly its flag to harvest stocks allocated to "Others" quota without reporting its intention to fish on that quota to the Executive Secretary in accordance with paragraph 3(e) of this Article;
 - (b) failed to report catches taken under such a quota by vessels entitled to fly its flag; or
 - (c) permitted vessels entitled to fly its flag to continue a directed fishery under such quota after this fishery had been closed following notification by the Executive Secretary, in accordance with paragraph 15 of this Article.

Transfer of Quotas

9. A Contracting Party may partly or fully transfer its allocated quota under Annex I.A to another Contracting Party, subject:
 - (a) to the consent of the receiving Contracting Party; and
 - (b) to prior notification of the transfer to the Executive Secretary, which shall state the date of the transfer's entry into force.
10. Transfers are not permitted for stocks under the "Others" quota.
11. Fishing days allocated under Annex I.B for shrimps in Division 3M are not transferable between Contracting Parties.
12. Any quota listed for squid may be increased by a transfer from any "coastal State" as defined in Article I, paragraph C of the Convention, provided that the TAC for squid is not exceeded.

Adjustment to the 3NO White Hake Quota

13. If a Contracting Party experiences a catch per unit of effort (CPUE) of 3NO white hake that is equal to or higher than that observed in 2002 and 2003 and concludes that there is a shift to high availability of white hake during the fishing season, the Contracting Party shall:
 - (a) notify the Executive Secretary of the higher CPUE observed; and
 - (b) submit a summary of evidence for its conclusion (higher than normal CPUE and any other additional relevant information) to the Executive Secretary within one month.
14. When the Executive Secretary provides the evidence submitted in accordance with paragraph 13(b) of this section to the Commission for a mail vote as to whether an exceptional increase in the availability of white hake is occurring, the 3NO TAC for white hake for the remainder of the year shall:
 - (a) increase to 2 000 tonnes in the case of a positive vote; or
 - (b) remain at 1 000 tonnes in the case of a negative vote.

Duties of the Executive Secretary

15. The Executive Secretary:
 - (a) promptly informs all other Contracting Parties of the date of closure of an allocated quota upon notification by a Contracting Party;
 - (b) informs a Contracting Party within one working day that there is data available indicating that its allocated quota of a particular stock has been taken;

- (c) counts the bycatch of 3M redfish taken by vessels of Contracting Parties that are not allocated 3M redfish in accordance with Annex I.A between the estimated date when 50% of the 3M redfish TAC is taken and 1 July against the “Others” quota;
- (d) notifies all Contracting Parties by electronic means 5 calendar days in advance of the date on which the available data indicates that total reported catch, including discards, is projected to:
 - (i) reach 50% of the TAC, for redfish in Division 3M and in Subarea 2 and Divisions 1F + 3K;
 - (ii) reach 100% of an “Others” quota, when such quota exists in accordance with Annex I.A;
- (e) establishes and notifies all Contracting Parties, by electronic means, 96 hours in advance, of the date of closure of the fishery for redfish in Division 3M and in Subarea 2 and Divisions 1F + 3K. The date shall be determined on the basis of projections derived from reported catches, including discards, and correspond to the date on which those catches are projected to reach 100% of the TAC;
- (f) reports without delay to the Commission when the Contracting Party referred to under paragraph 5(d) of this Article failed to either:
 - (i) cease fishing on that stock or
 - (ii) demonstrate that the quota has not been taken within 15 days in accordance with Article 5.6;
- (g) promptly informs all Contracting Parties of notifications of quota transfers received; and
- (h) when notified in accordance with paragraph 13 of this section of a higher CPUE for 3NO white hake, provides the evidence submitted in accordance with paragraph 13(b) to the Commission for a mail vote as to whether an exceptional increase in the availability of white hake is occurring; and
- (i) posts without delay the information provided in accordance with subparagraph 5.3(e) to the NAFO MCS Website and ensures that is made available to all Contracting Parties.

Implementation

16. STACTIC will revise paragraph 5(l) in 2027.

Article 6 – Bycatch Retention on Board of Stocks Identified in Annex I.A as Bycatch When No Directed Fishery is Permitted

1. To the extent possible, each Contracting Party shall ensure that its vessels, including vessels chartered in accordance with Article 26, minimize bycatch of species from stocks identified in Annex I.A while operating in the Regulatory Area.
2. A species listed in Annex I.A shall be classified as bycatch when it is taken in a Division where any of the following situations exist:
 - (a) no quota has been allocated to that Contracting Party for that stock in that Division, in accordance with Annex I.A;
 - (b) a ban on fishing for a particular stock is in force (moratoria); or
 - (c) the "Others" quota for a particular stock has been closed, following notification by the Executive Secretary in accordance with Article 5.

Limits for Species Listed in Annex I.A Retained on Board as Bycatch

3. Each Contracting Party shall ensure that its vessels, including vessels chartered in accordance with Article 26, shall limit the retention of on board species classified as bycatch to the maxima specified below:
 - (a) for cod in Divisions 3L and 3M, redfish in 3LN and witch flounder in 3NO: 1 250 kg or 5%, whichever is the greater;
 - (b) for cod in Divisions 3NO: 1 000 kg or 4%, whichever is the greater;
 - (c) for all other stocks listed in Annex I.A where no specific quota has been allocated to the flag State Contracting Party: 2 500 kg or 10%, whichever is the greater;
 - (d) where a ban on fishing applies (moratorium): 1 250 kg or 5%, whichever is the greater;
 - (e) when the "Others" quota opened for that stock has been closed: 1 250 kg or 5%, whichever is the greater, for those Contracting Parties that notified the use of the "Others" quota in accordance with Article 5;
 - (f) once the directed fishery for redfish in Division 3M is closed in accordance with Article 5.5(d): 1 250 kg or 5%, whichever is the greater; and
 - (g) while conducting a directed fishery for yellowtail in Divisions 3LNO: 15% of American plaice; otherwise bycatch provisions in Article 6.3(d) apply. Until December 31, 2026, if a vessel is conducting a directed fishery for yellowtail in Divisions 3LNO, and is carrying an observer:
 - (i) this maxima shall be 2 900 kg or 15% of American plaice, whichever the greater;

- (ii) a vessel may exceed the maxima referred to in Article 6.3(g)(i) for bycatch of American plaice retained on board during the first 9 fishing days in the Regulatory Area provided that American plaice bycatch represents 15% or less by the end of that period or when the vessel leaves the Regulatory Area, whichever occurs first.
 - (iii) each Contracting Party shall inspect 100% of landings of fishing vessels that have conducted directed fishery for yellowtail in Divisions 3LNO.
4. The limits and percentages in paragraph 3 of this Article are calculated by Division as the percentage, by weight, for each stock of the total catch of stocks listed in Annex I.A retained on board for that Division at the time of inspection, on the basis of the fishing logbook figures.
 5. By derogation, the calculation of groundfish bycatch levels in paragraph 3 of this Article shall not include the catches of shrimp in the total catch on board.

Exceeding Bycatch Limits in Any One Haul

6. Each Contracting Party shall ensure that its vessels:
 - (a) do not conduct directed fisheries for species referred to in paragraph 2 of this Article;
 - (b) observe the following, where the weight of any species subject to the bycatch limits exceeds the greater of the limits specified in paragraph 3 of this Article in any one haul:
 - (i) immediately move a minimum of 10 nautical miles from any position of the previous tow/set throughout the subsequent tow/set;
 - (ii) leave the Division and not return for at least 60 hours if the bycatch limits specified in paragraph 3 of this Article are again exceeded following the first tow/set after moving in accordance with paragraph 6(b)(i) of this Article;
 - (iii) undertake a trial tow for a maximum duration of 3 hours before starting a new fishery following an absence of at least 60 hours. If the stocks subjected to bycatch limits form the largest percentage, by weight, of the total resultant catch in the haul, this should not be considered as a directed fishery for those stocks, and the vessel must immediately change position in accordance with provisions of paragraph 6(b)(i) and (ii); and
 - (iv) identify any trial tow conducted in accordance with paragraph 6(b) and record in the fishing logbook the coordinates pertaining to the start and end locations of any trial tow conducted.

7. In a directed fishery for shrimp, the move referred to in paragraph 6 shall apply when, for any one haul, the quantity of the total groundfish stock listed in Annex I.A exceeds 5% in Division 3M or 2.5% in Division 3L.
8. When a vessel is conducting a directed fishery for skate with a legal mesh size appropriate for that fishery, the first time that catches of stocks for which bycatch limits apply, as specified in paragraph 2, comprise the largest percentage by weight of the total catch in a haul, they shall be considered as incidental catch, but the vessel shall immediately move as specified in paragraph 6.
9. Until December 31, 2026, where a vessel is carrying an observer and is conducting a directed fishery for yellowtail with a legal mesh size appropriate for that fishery:
 - (a) The first two times on a fishing trip that catches of American plaice comprise the largest percentage by weight of the total catch in a haul, they shall be considered as incidental catch, but the vessel shall immediately move as specified in paragraph 6.
 - (b) By way of derogation from Article 6.6.b(ii), if the American plaice bycatch limits are exceeded again, instead of leaving the Division for at least 60 hours, the vessel may move a minimum of 10 nautical miles from any position of the previous tows in up to three consecutive hauls in which the American plaice bycatch limit is exceeded. If the bycatch limits are exceeded again, the vessel shall leave the Division and not return for at least 60 hours, in accordance with Article 6.6.b(ii).
10. Where a vessel is carrying an observer and is conducting a directed fishery for cod in Division 3M with a legal mesh size appropriate for that fishery:
 - (a) The first two times on a fishing trip that catches of redfish comprise the largest percentage by weight of the total catch in a tow/set, they shall be considered as incidental catch, but the vessel shall immediately move as specified in paragraph 6.
 - (b) By way of derogation from Article 6.6.b(ii), if the 3M redfish bycatch limits are exceeded again, instead of leaving the Division for at least 60 hours, the vessel may again move a minimum of 10 nautical miles from any position of the previous tows/sets in up to two consecutive hauls in which the redfish bycatch limit is exceeded. If the bycatch limits are exceeded again, the vessel shall leave the Division and not return for at least 60 hours, in accordance with Article 6.6.b(ii).
11. The percentage of bycatch in any one haul is calculated as the percentage, by weight, for each stock listed in Annex I.A of the total catch from that haul.
12. Upon its first entrance into a Division on a fishing trip, a vessel may undertake one trial tow for up to a maximum duration of 3 hours. If the stocks subjected to bycatch limits form the largest percentage, by weight, of the total resultant catch in the haul, this shall not be considered as a directed fishery for those stocks, and

the vessel must immediately change position in accordance with provisions of paragraph 6(b). Vessels must identify any trial tow conducted in accordance with this paragraph and record in the fishing logbook the coordinates pertaining to the start and end locations of any trial tow conducted.

Implementation

13. The measures referred to in paragraph 10 shall apply during 2026 and be reviewed by STACTIC in 2026, to assess whether the provisions led to an increase in 3M redfish bycatches or directed fishery.
14. In 2026, STACTIC shall:
 - (a) assess if the provisions in paragraphs 6.3(g) and 9(a) led to an increase on American plaice bycatches or directed fishery on American plaice; and
 - (b) review paragraphs 6.3(g) and 9(a).

Article 7 – Cod

Divisions 2J3KL

1. The Commission shall obtain annually the decision of Canada on the limit it has established for catches by Canadian fishers. Canada will endeavour to inform the Secretariat of its decision by 15 June of each year. This limit shall be 95% of the TAC for this stock. If no limit is established by Canada for the following fishing season, no directed fishing for the stock shall be permitted in the Regulatory Area.
2. Within two business days after obtaining the decision of Canada referred to in paragraph 1, the Executive Secretary will update Annex I.A. in accordance with the distribution key set out in that annex and notify the Contracting Parties accordingly. These quota limits shall become binding on each Contracting Party on July 1 of the current year and shall remain in effect until June 30 of the following year.
3. The total of the catch limits set in accordance with paragraphs 1 and 2 shall constitute the TAC for 2J3KL cod.

Division 3M Control Measures

4. Each Contracting Party shall apply the following control measures for vessels with more than 1 250 kg of 3M cod catches on board¹:
 - (a) prohibit its vessels from landing or transshipping 3M cod catches in ports other than those designated in accordance with Article 43.

¹ Each Contracting Party shall inspect vessels with less than 1 250 kg of 3M cod on board on a risk-based approach.

- (b) require that at least 48 hours before its estimated time of arrival in port, a vessel or its representative on its behalf, advises the competent port authority of its estimated time of arrival, the estimated quantity of 3M cod retained on board, and information on the division or divisions where any other cod catches retained on board were taken.
- (c) inspect landings or transhipments of 3M cod in its ports and prepare an inspection report in the format prescribed in Annex IV.C, which it submits to the Executive Secretary within 14 working days from the date on which the inspection was completed. The PSC3 report shall identify and provide details of any infringement to the CEM detected during the port inspection. It shall include all relevant information available in reference to infringements detected at sea during the current trip of the inspected fishing vessel. Inspections of landings or transhipments shall be conducted at a rate of:
 - (i) at least 50% when the TAC for cod in Division 3M in Annex I.A is under 6 000 tonnes, and
 - (ii) at least 25% when the TAC for cod in Division 3M in Annex I.A is between 6 000 and 12 000 tonnes.

Duties of the Executive Secretary

5. The Executive Secretary posts without delay the port inspection report submitted in accordance with paragraph 4(c) to the NAFO MCS Website and ensures that it is made available to all Contracting Parties.

Divisions 3NO – Interim Cod Conservation Plan and Rebuilding Strategy

6. Objective(s):
 - (a) **Long-term Objective:** The long-term objective of this Conservation Plan and Rebuilding Strategy is to achieve and to maintain the 3NO Cod Spawning Stock Biomass (SSB) in the ‘safe zone’, as defined by the NAFO Precautionary Approach framework, and at or near B_{msy} .
 - (b) **Interim Milestone:** As an interim milestone, increase the 3NO Cod Spawning Stock Biomass (SSB) to a level above the Limit Reference Point (B_{lim}). It may reasonably be expected that B_{lim} will not be reached until after 2015.
7. Reference Points:
 - (a) Limit reference point for spawning stock biomass (B_{lim}) – 60 000 tonnes²

² The Commission shall request the Scientific Council to review in detail the limit reference point when the Spawning Stock Biomass has reached 30 000 tonnes.

- (b) An intermediate stock reference point or security margin B_{isr}^3 – [120 000 tonnes]
- (c) Limit reference point for fishing mortality ($F_{lim} = F_{msy}$) – 0.30
- (d) Interim B_{target} – 185 000 tonnes and interim F_{target} of $F_{0.1}$ – 0.19⁴

8. Re-opening to Directed Fishing:

- (a) A re-opening of a directed fishery should only occur when the estimated SSB, in the year projected for opening the fishery, has a very low⁵ probability of actually being below B_{lim} .
- (b) An annual TAC should be established at a level which is projected to result in:
 - (i) continued growth in SSB
 - (ii) low⁶ probability of SSB declining below B_{lim} throughout the subsequent 3-year period, and
 - (iii) fishing mortality $< F_{0.1}$

9. Harvest Control Rules:

Noting the desire for relative TAC stability, the projections referred to in items (a) through (d) below should consider the effect of maintaining the proposed annual TAC over 3 years. Further, in its application of the Harvest Control Rules, Commission may, based on Scientific Council analysis, consider scenarios which either mitigate decline in SSB or limit increases in TACs as a means to balance stability and growth objectives.

- (a) When SSB is below B_{lim} :
 - (i) no directed fishing, and
 - (ii) bycatch should be restricted to unavoidable bycatch in fisheries directing for other species.

³ A 'buffer zone' (B_{buf}) is not required under the NAFO PA given the availability of risk analysis related to current and projected biomass values; however, SC has advised that an additional zone(s) between B_{lim} and B_{msy} could be considered. An intermediate stock reference point (B_{isr}) is proposed to delineate this zone. The proposed value is set at a level equivalent to twice B_{lim} . Should the SC review of the limit reference point (B_{lim}) result in a change to that value then the intermediate stock reference point (B_{isr}) should also be re-evaluated.

⁴ B_{target} is a proxy of B_{msy} . The level of F has very low probability of being higher than F_{lim} . The B_{target} is the equilibrium SSB that results from F_{target} . These are interim targets until more stock recruitment and productivity regime information is available to better estimate MSY-based reference points.

⁵ 'very low' means 10% or less

⁶ 'low' means 20% or less

Before SSB increases above B_{lim} , additional or alternative harvest control rules should be developed, following the Precautionary Approach, to ensure the long-term objective is met, such as:

- (b) When SSB is between B_{lim} and B_{isr} :
 - (i) TACs should be set at a level(s) to allow for continued growth in SSB consistent with established rebuilding objective(s)
 - (ii) TACs should result in a low probability of SSB declining below B_{lim} throughout the subsequent 3-year period, and
 - (iii) Biomass projections should apply a low risk tolerance.
- (c) When SSB is above B_{isr} :
 - (i) TACs should be set at a level(s) to allow for growth in SSB consistent with the long term objective, and
 - (ii) Biomass projections should apply a risk neutral approach (i.e. mean probabilities).
- (d) When SSB is above B_{target} :
 - (i) TACs should be set at a level of F that has a low probability of exceeding F_{msy} , and
 - (ii) Biomass projections should apply a risk neutral approach (i.e., mean probabilities).

10. Ecosystem Considerations:

Considering the importance of capelin as a food source, consistent with the ecosystem approach, the moratorium on 3NO capelin will continue until at least 31 December 2026.

11. Bycatch Provisions:

The bycatch provisions in the CEM for 3NO cod should be reviewed periodically, to coincide with scheduled assessments of the stock by Scientific Council, and adjusted to reflect the overall trend in spawning stock biomass.

Article 8 – American plaice

Interim 3LNO American Plaice Conservation Plan and Rebuilding Strategy

1. Objective(s):

- (a) **Long-term Objective:** The long-term objective of this Conservation Plan and Rebuilding Strategy is to achieve and to maintain the 3LNO American plaice Spawning Stock Biomass (SSB) in the ‘safe zone’, as defined by the NAFO Precautionary Approach framework, and at or near B_{msy} .
- (b) **Interim Milestone:** As an interim milestone, increase the 3LNO American plaice Spawning Stock Biomass (SSB) to a level above the Limit Reference Point (B_{lim}). It may reasonably be expected that B_{lim} will not be reached until after 2014.

2. Reference Points:

- (a) Limit reference point for spawning stock biomass (B_{lim}) – 50 000 tonnes
- (b) An intermediate stock reference point or security margin B_{isr} ⁷ – [100 000 tonnes]
- (c) Limit reference point for fishing mortality ($F_{lim} = F_{msy}$) – 0.31
- (d) B_{msy} – [242 000 tonnes]

3. Re-opening to Directed Fishing:

- (a) A re-opening of a directed fishery should only occur when the estimated SSB, in the year projected for opening the fishery, has a very low⁸ probability of actually being below B_{lim} .
- (b) An annual TAC should be established at a level which is projected to result in:
 - (i) continued growth in SSB,
 - (ii) low⁹ probability of SSB declining below B_{lim} throughout the subsequent 3-year period, and
 - (iii) fishing mortality < $F_{0.1}$.

⁷ A ‘buffer zone’ (B_{buf}) is not required under the NAFO PA given the availability of risk analysis related to current and projected biomass values; however, SC has advised that an additional zone(s) between B_{lim} and B_{msy} could be considered. An intermediate stock reference point (B_{isr}) is proposed to delineate this zone. The proposed value is equivalent to twice B_{lim} .

⁸ ‘very low’ means 10% or less

⁹ ‘low’ means 20% or less

4. Harvest Control Rules:

Noting the desire for relative TAC stability, the projections referred to in items (a) through (d) below should consider the effect of maintaining the proposed annual TAC over 3 years. Further, in its application of the Harvest Control Rules, Commission may, based on Scientific Council analysis, consider scenarios which either mitigate decline in SSB or limit increases in TACs as a means to balance stability and growth objectives.

- (a) When SSB is below B_{lim} :
 - (i) no directed fishing, and
 - (ii) bycatch should be restricted to unavoidable bycatch in fisheries directing for other species
- (b) When SSB is between B_{lim} and B_{isr} :
 - (i) TACs should be set at a level(s) to allow for continued growth in SSB consistent with established rebuilding objective(s)
 - (ii) TACs should result in a low probability of SSB declining below B_{lim} throughout the subsequent 3-year period, and
 - (iii) Biomass projections should apply a low risk tolerance
- (c) When SSB is above B_{isr} :
 - (i) TACs should be set at a level(s) to allow for growth in SSB consistent with the long term objective, and
 - (ii) Biomass projections should apply a risk neutral approach (i.e., mean probabilities)
- (d) When SSB is above B_{msy} :
 - (i) TACs should be set at a level of F that has a low probability of exceeding F_{msy} , and
 - (ii) Biomass projections should apply a risk neutral approach (i.e., mean probabilities)

Article 9 – Shrimp

Shrimp in Division 3M

- For the purpose of this measure, Division 3M includes that portion of Division 3L enclosed by lines joining the points described below in Table 1 and depicted in Figure 1(1):

Table 1. Boundary points delineating the portion of Division 3L that is included in Division 3M for the management of shrimp in accordance with Annex I.B.

Coordinate No.	Latitude	Longitude
1	47°20'0 N	46°40'0 W
2	47°20'0 N	46°30'0 W
3	46°00'0 N	46°30'0 W
4	46°00'0 N	46°40'0 W

- Subject to allocations set out in Annex I.B as amended from time to time, each Contracting Party that conducted a shrimp fishery in Division 3M in the period beginning 1 January 1993 and ending 31 August 1995 is permitted a minimum of 400 fishing days per year. A Contracting Party without such track record may authorize only one vessel to fish shrimp in Division 3M for a maximum of 100 fishing days per year.
- Each Contracting Party shall:
 - ensure that it receives from its vessels fishing for shrimp and other species on the same trip a notification signalling the change of fishery and indicating date and time in UTC of the change of fishery.
 - transmit the notification to the Executive Secretary without delay.

The number of fishing days shall be calculated accordingly.
- Fishing days allocated under Annex I.B to one Contracting Party may be utilized by a vessel entitled to fly the flag of another Contracting Party only in accordance with Article 26.
- No vessel shall fish for shrimp in Division 3M between 00:01 UTC on 1 June and 23:59 UTC on 31 December in the following area as described in Table 2 and depicted in Figure 1(2):

Table 2. Boundary points delineating the shrimp closure area referred to in Article 9.5.

Coordinate No.	Latitude	Longitude
1 (same as no. 7)	47°55'0 N	45°00'0 W
2	47°30'0 N	44°15'0 W
3	46°55'0 N	44°15'0 W
4	46°35'0 N	44°30'0 W
5	46°35'0 N	45°40'0 W
6	47°30'0 N	45°40'0 W
7 (same as no. 1)	47°55'0 N	45°00'0 W

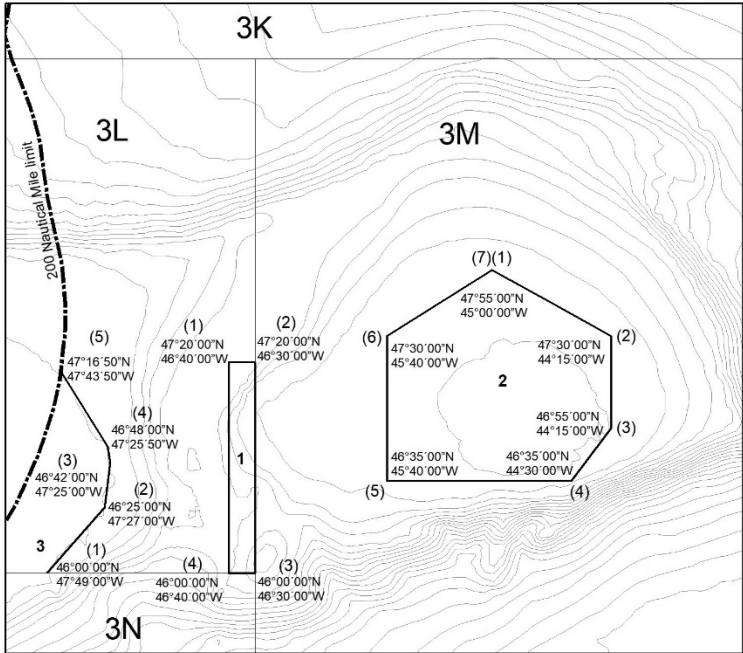

Figure 1. 3L 200 meter depth restriction line, portion of 3L considered 3M, and 3M closed area.

Shrimp in Division 3L

- 6. All fishing for shrimp in Division 3L shall take place in depths greater than 200 m. Fishing in the Regulatory Area shall be restricted to an area east of a line bound by the following coordinates described in Table 3 and depicted in Figure 1(3):

Table 3. Boundary points delineating 200 m bathymetric curve referred to in Article 9.6

Coordinate No.	Latitude	Longitude
1	46°00'00" N	47°49'00" W
2	46°25'00" N	47°27'00" W
3	46°42'00" N	47°25'00" W
4	46°48'00" N	47°25'50" W
5	47°16'50" N	47°43'50" W

7. Each vessel that has fished for shrimp in Division 3L, or its representatives on its behalf, shall provide to the competent port authority at least 24 hours prior notice of its estimated time of arrival and the estimated quantities on board of shrimp by Division.

Duties of the Executive Secretary

8. The Executive Secretary posts the report referred to in paragraph 3 to the NAFO MCS Website.

Article 10 – Greenland Halibut

Rebuilding Program

1. The current Management Strategy (MS) for Greenland halibut stock in Subarea 2 + Divisions 3KLMNO adopted by NAFO in 2024 shall be in force from 2025 to 2034 inclusive, or until such a time that the Commission adopts a revision.
2. The total allowable catch (TAC) shall be adjusted annually according to the harvest control rule (HCR) specified in Annex I.F.
3. The Exceptional Circumstances Protocol (Annex I.G) shall be invoked in response to an event or observation by Scientific Council which is outside of the range of possibilities considered within the MSE.

Control Measures

4. The following measures apply to vessels 24 meters or greater in overall length engaged in the Greenland halibut fishery in Subarea 2 and Divisions 3KLMNO:
 - (a) Each Contracting Party shall allocate its quota for Greenland halibut among its authorized vessels.
 - (b) An authorized vessel shall land its Greenland halibut catch only in a designated port. To this end, each Contracting Party shall designate one or more ports in its territory where authorized vessels may land Greenland halibut.
 - (c) Each Contracting Party shall notify the Executive Secretary the name of every port it has so designated. Any subsequent changes to the list shall be

provided in replacement of the previous one no less than fifteen days before the change comes into effect.

- (d) At least 48 hours before its estimated time of arrival in port, an authorized vessel or its representative on its behalf, shall advise the competent port authority of its estimated time of arrival, the estimated quantity of Greenland halibut retained onboard, and information on the division or divisions where the catches were taken.
 - (e) Each Contracting Party shall inspect each landing of Greenland halibut, if the quantity of this stock on board represents either more than 5% of the total catch or more than 2 500 kg, in its ports and prepare an inspection report in the format prescribed in Annex IV.C, which it submits to the Executive Secretary within 14 working days from the date on which the inspection was completed. The PSC3 report shall identify and provide details of any infringement to the CEM detected during the port inspection. It shall include all relevant information available in reference to infringements detected at sea during the current trip of the inspected fishing vessel.
5. The following procedures apply with respect to authorized vessels with more than 50 tonnes live weight total catch on board taken outside the Regulatory Area entering the Regulatory Area to fish for Greenland halibut:
- (a) The master shall notify the Executive Secretary by e-mail or fax, at the latest 72 hours prior to the vessel's entry into the Regulatory Area, of the amount of catch on board, the position by latitude and longitude where the master intends to commence fishing, the estimated time of arrival at the position, and contact information for the fishing vessel (e.g., radio, satellite phone or email).
 - (b) An inspection vessel that intends to inspect a fishing vessel before it begins fishing for Greenland halibut shall notify that fishing vessel and the Executive Secretary of the coordinates of a designated inspection point that is no more than 60 nautical miles from the position where the master estimates that the vessel will commence fishing and shall inform other inspection vessels that may be operating in the Regulatory Area accordingly.
 - (c) A fishing vessel notified in accordance with paragraph (b) shall:
 - (i) proceed to the designated inspection point, and
 - (ii) ensure the stowage plan for catch on board on entry to the NAFO RA meets the requirements of Article 28 paragraph 5 and is made available to inspectors upon request.
 - (d) Until inspected in accordance with this Article, a fishing vessel may not begin fishing unless:
 - (i) it receives no confirmation within 72 hours of the notification it has transmitted in accordance with subparagraph 5(a); or

- (ii) within 3 hours of its arrival at the designated inspection point, the inspection vessel has not begun the intended inspection.
6. The Contracting Parties shall prohibit landings of Greenland halibut from non-Contracting Party vessels that have engaged in fishing activities in the Regulatory Area.

Duties of the Executive Secretary

7. The Executive Secretary:
- (a) places on the agenda of the Commission in the context of reviewing the implementation of this rebuilding plan, the issue of deciding on additional measures to ensure the effective attainment of its objective;
 - (b) posts without delay the list of designated ports provided by the Contracting Parties for the purpose of this Article as well as any subsequent changes to the NAFO MCS Website and ensures that it is made available to all Contracting Parties;
 - (c) posts without delay the port inspection report submitted in accordance with subparagraph 4(e) to the NAFO MCS Website and ensures that it is made available to all Contracting Parties; and
 - (d) transmits the information received in accordance with subparagraph 5(a) to all inspection vessels in the Regulatory Area.
8. If the Executive Secretary does not receive a notification from an inspection vessel within 24 hours of the notification transmitted in accordance with subparagraph 5(b) of this Article, the Executive Secretary immediately advises the fishing vessel that it may begin fishing and notifies inspection vessels and the flag State FMC accordingly.

Restoration of the “Others” quota

9. When the TAC exceeds 30 000 tonnes the next 1 300 tonnes beyond 30 000 tonnes will be allocated to the “Others” quota. In deciding the relevant contributions of Contracting Parties to the 1 300 tonnes “Others” quota, the Commission will take into account the benefit that some Contracting Parties received from the assignment of the “Others” quota that occurred when the Greenland Halibut Rebuilding Plan was adopted.

Article 11 – Squid

Squid Closure

1. No vessel may fish for squid between 00:01 UTC on 1 January to 23:59 UTC on 30 June in Subareas 3 and 4.

Temporal exemption on catch composition rules in squid fisheries

2. A vessel may notify their intent to engage in the squid fishery in Sub-areas 3 and 4 under paragraph 3 when carrying an observer on board and using a mesh size no smaller than 60mm.

Duties of the Master

3. The master shall notify the flag state Contracting Party no later than 3 days before the start of the specified period. The following information shall be included in the notification:
 - (a) the name and call sign of the vessel;
 - (b) the period between 1 July and 31 December when it will conduct hauls targeting squid, including the start and end dates and times in UTC;
 - (c) the Division in which hauls targeting squid will be conducted; and
 - (d) the minimum mesh size to be used.
4. The period specified in 3(b) shall be limited to two weeks at maximum.
5. During the period notified in paragraph 3(b), if any Annex I.A species other than squid comprises the largest percentage, by weight, of the total catch in the haul, it shall not be considered as being taken in a directed fishery for the stock concerned per Article 5.2, or as fishing with a mesh size smaller than prescribed by Article 13.2 and 13.4.

In such scenario, the vessel shall immediately move a minimum 10 nautical miles from any position of that tow/set and not return to any such position for targeting squid for the remainder of the calendar year, and the master of the vessel and the observer onboard shall immediately report the following information to the flag State Contracting Party:

- (a) the date and time (UTC) of the start and end of the haul;
 - (b) the depth at the start and end of the haul;
 - (c) the position at the start and end of the haul; and
 - (d) the catch composition of the haul by weight.
6. If a directed fisheries haul described in paragraph 5 occurs three times during the notified period, the vessel shall cease fishing for squid for the remainder of the calendar year.

Duties of the flag State Contracting Party

7. The flag State Contracting Party shall:
 - (a) transmit without delay the notification and the information referred to in paragraphs 3 and 5 to the Executive Secretary; and
 - (b) ensure that no exemption is granted to its vessels before the notification referred to in paragraph (a) is submitted to the Executive Secretary.

Duty of the Executive Secretary

8. The Executive Secretary posts without delay the notification and information provided in accordance with paragraph 7 to the NAFO MCS website.

Implementation

9. The exemption referred to in paragraphs 2 to 8 shall apply during 2025 and 2026 and be reviewed by STACTIC.

Article 12 – Conservation and Management of Sharks

Duties of the Contracting Party

1. Each Contracting Party shall:
 - (a) report all catches of sharks, including available historical data, in accordance with the data reporting procedures set out in Article 28.
 - (b) prohibit the removal of shark fins on-board vessels.
 - (c) prohibit the retention on-board, transshipment and landing of shark fins fully detached from a carcass.
 - (d) prohibit fishing vessels flying its flag from conducting a directed fishery for, retaining, transshipping, or landing part or whole of a Greenland shark (*Somniosus microcephalus*) in the Regulatory Area.
 - (d bis) Notwithstanding the provisions in paragraph (d), a flag State Contracting Party may allow the retention on board and landing of dead, incidental catches of Greenland sharks provided that this is consistent with its domestic law mandating a general discard ban or that dead fish be landed. Contracting Parties shall ensure that fishing vessels are prohibited from drawing any commercial value from such fish. Contracting Parties that fall under the criteria of this derogation shall inform the Secretariat that the derogation is in accordance with its domestic law.
 - (e) require every vessel entitled to fly its flag to undertake all reasonable efforts to minimize incidental catch and mortality, and where alive, release Greenland sharks in a manner that causes the least possible harm.

General Provisions

2. Without prejudice to paragraph 1, in order to facilitate on-board storage, shark fins may be partially sliced through and folded against the carcass.
3. No fishing vessel shall retain on board, tranship or land any fins harvested in contravention of these provisions.
4. In fisheries that are not directed at sharks, each Contracting Party shall encourage every vessel entitled to fly its flag to release sharks alive, and especially juveniles, that are not intended for use as food or subsistence.

Research

5. Contracting Parties shall, where possible:
 - (a) undertake research to identify ways to make fishing gear more selective for the protection of sharks.
 - (b) conduct research on key biological and ecological parameters, life-history, behavioural traits and migration patterns, as well as on the identification of potential mapping, pupping and nursery grounds of key shark species.
6. Contracting Parties shall provide the results of such research to the Executive Secretary.

Duties of the Executive Secretary

7. The Executive Secretary posts the above information received in accordance with paragraph 1(d bis) by the Contracting Parties to the NAFO MCS Website and the public part of the NAFO Website.

Article 13 – Gear Requirements

Mesh Sizes

1. For the purpose of this Article, mesh size is measured in accordance with Annex III.A.
2. No vessel shall fish with a net having a mesh size smaller than prescribed for each of the following species:
 - (a) 40 mm for shrimps, including prawns (PRA);
 - (b) 60 mm for short finned squid (SQI);
 - (c) 280 mm in the codend and 220 mm in all other parts of the trawl for skate (SKA);
 - (d) 130mm when using the sorting grid referred to in Article 13.9 or 155mm for cod in Divisions 3L and 3M;

- (e) 130 mm for all other groundfish, as defined in Annex I.C.;
 - (f) 100 mm for pelagic *Sebastes mentella* (REB) in Subarea 2 and Divisions 1F and 3K; and
 - (g) 90 mm for redfish (RED) in the fishery using mid-water trawls in Divisions 3O, 3M and 3LN. Within this fishery mid-water trawl means trawl gear that is designed to fish for pelagic species, no portion of which is designed to be or is operated in contact with the bottom at any time. The gear shall not include discs, bobbins or rollers on its footrope or any other attachments designed to make contact with the bottom. The trawl may have chafing gear attached.
3. A vessel conducting a fishery for a species referred to in paragraph 2 that has on board nets having a mesh size smaller than that specified in that paragraph, shall ensure such nets are securely lashed and stowed and are not available for immediate use during that fishery.
 4. A vessel conducting a directed fishery for species other than those identified in paragraph 2 is, however, permitted to take regulated species with nets having a mesh size less than specified in paragraph 2, provided that the bycatch requirements in Article 6, paragraph 3 are complied with.

Use of Attachments

5. Strengthening ropes, splitting straps and codend floats may be used on trawls, as long as these attachments do not in any way restrict the authorized mesh or obstruct the mesh opening.
6. No vessel shall use any means or device that obstructs or diminishes the size of the meshes. However, vessels may attach devices described in Annex III.B to the upper side of the codend in a manner that does not obstruct the meshes of the codend including any lengthener(s). Canvas, netting or other material may be attached to the underside of the codend of a net only to the extent required to prevent or minimize damage to the codend.
7. Vessels fishing for shrimp in Divisions 3L or 3M shall use sorting grids or grates with a maximum bar spacing of 22 mm. Vessels fishing for shrimp in Division 3L shall also be equipped with toggle chains with a minimum length of 72 cm as measured in accordance with Annex III.B.
8. When fishing in the seamount closures defined in Article 17(1), only gear that is designed to fish for pelagic species, no portion of which is designed to be or is operated in contact with the bottom at any time, is allowed. The gear shall not include discs, bobbins or rollers on its footrope or any other attachments designed to make contact with the bottom. The trawl may have chafing gear attached.
9. Each Contracting Party shall ensure that its trawl vessels conducting a directed fishery for cod in Division 3M, use a sorting grid for the purpose of reducing the

catches of smaller individuals of cod. The minimum bar spacing of the sorting grid shall be 55 mm. The sorting grid must be placed in the top-side panel of the trawl preceding the codend.

Marking of Gear

10. No fishing vessel shall:

- (a) use gear that is not marked in accordance with generally accepted international standards, in particular, the *Convention on Conduct of Fishing Operations in the North Atlantic*; or
- (b) deploy any marker buoy or similar object floating on the surface and intended to indicate the location of fixed fishing gear without displaying the vessel's registration number.

Lost or Abandoned Fishing Gears

Retrieval of fishing gears

11. Each Contracting Party shall ensure that:

- (a) vessels fishing in the NRA entitled to fly its flag have equipment on board to retrieve lost gear;
- (b) the master of a vessel that has lost gear or part of it shall make every reasonable attempt to retrieve it as soon as possible; and
- (c) no master shall deliberately abandon or discard fishing gear, except for safety reasons.

12. If the lost gear cannot be retrieved, the master of the vessel shall notify the flag State Contracting Party within 24 hours of the following:

- (a) the name and call sign of the vessel;
- (b) the type of lost gear;
- (c) the quantity of gear lost;
- (d) the time when the gear was lost;
- (e) the position where the gear was lost; and
- (f) the measures taken by the vessel to retrieve the lost gear.

13. Following retrieval of lost gear, the master of the vessel shall notify the flag State Contracting Party within 24 hours of the following:

- (a) the name and call sign of the vessel that has retrieved the gear;
- (b) the name and call sign of the vessel that lost the gear (if known);

- (c) the type of gear retrieved;
 - (d) the quantity of gear retrieved;
 - (e) the time when the gear was retrieved; and
 - (f) the position where the gear was retrieved.
14. The flag State Contracting Party shall without delay notify the Executive Secretary of the information referred to in paragraphs 12 and 13 of this Article.

Duties of the Executive Secretary

15. The Executive Secretary posts without delay the information provided by Contracting Parties in accordance with paragraph 14 of this Article to the secure part of the NAFO website as well as an anonymized version of the information to the NAFO public website. The anonymized version shall remove all identifying information, including but not limited to the vessel name and call sign.

Article 14 – Minimum Fish Size Requirements

1. No vessel shall retain on board any fish smaller than the minimum size established in accordance with Annex I.D, which it shall immediately return to the sea.
2. Processed fish which is below a length equivalent prescribed for that species in Annex I.D is considered to derive from fish that is smaller than the minimum fish size prescribed for that species.
3. Where the number of undersized fish in a single haul exceeds 10% of the total by number of fish in that haul, the vessel shall for its next tow maintain a minimum distance of 5 nautical miles from any position of the previous tow.

CHAPTER II

PROTECTION OF VULNERABLE MARINE ECOSYSTEMS (VMES) IN THE REGULATORY AREA FROM BOTTOM FISHING ACTIVITIES

Article 15 – Definitions

Definitions

In addition to the definitions listed in Article 1, the following definitions apply to this Chapter.

1. The term "Encounter" means catch of a VME indicator species above threshold levels as set out in Article 22.1. Any encounter with a VME indicator species or merely detecting its presence is not sufficient to identify a VME. That identification should be made on a case-by-case basis through assessment by relevant bodies;
2. "Exploratory bottom fishing activities" means bottom fishing activities conducted outside the footprint, or within the footprint with significant changes to the conduct or in the technology used in the fishery;
3. "Footprint", otherwise known as "Existing bottom fishing areas", means that portion of the Regulatory Area where bottom fishing has historically occurred, and is defined by the coordinates shown in Table 4 and illustrated in Figure 2;
4. "Significant adverse impacts" refers to paragraphs 17 to 20 of the *FAO International Guidelines for the Management of Deep Sea Fisheries in the High Seas*;
5. "Vulnerable marine ecosystems (VMEs)" refers to paragraphs 42 and 43 of the *FAO International Guidelines for the Management of Deep-Sea Fisheries in the High Seas*;
6. "VME indicator element" refers to topographical, hydrophysical or geological features which potentially support VMEs, as specified in Part VII of Annex I.E;
7. "VME indicator species" refers to species that signal the occurrence of vulnerable marine ecosystems, as specified in Part VI of Annex I.E.

Article 16 – Map of Footprint (Existing Bottom Fishing Areas)

The map of existing bottom fishing areas in the NAFO Regulatory Area illustrated in Figure 2 is delimited on the western side by the Canadian EEZ boundary and the eastern side by the coordinates shown in Table 4. The map shall be revised regularly to incorporate any new relevant information. Contracting Parties may propose revising the map on the basis of any information available, in particular on the haul by haul catch data.

Table 4. Boundary Points Delineating the Eastern Side of the Footprint.

Vulnerable Marine Ecosystem Area Closures

- Until 31 December 2026, no vessel shall engage in bottom fishing activities in areas 1-14b illustrated in Figure 5 and defined by connecting the coordinates specified in Table 7 in numerical order and back to coordinate 1.

Table 7. Boundary Points Delineating the Vulnerable Marine Ecosystem Area Closures in the NAFO Regulatory Area Referenced in Article 17.3.

	Description	Coordinate No.	Latitude	Longitude
1	Tail of the Bank	1.1	44° 02' 53.88" N	48° 49' 09.48" W
		1.2	44° 21' 31.32" N	48° 46' 48.00" W

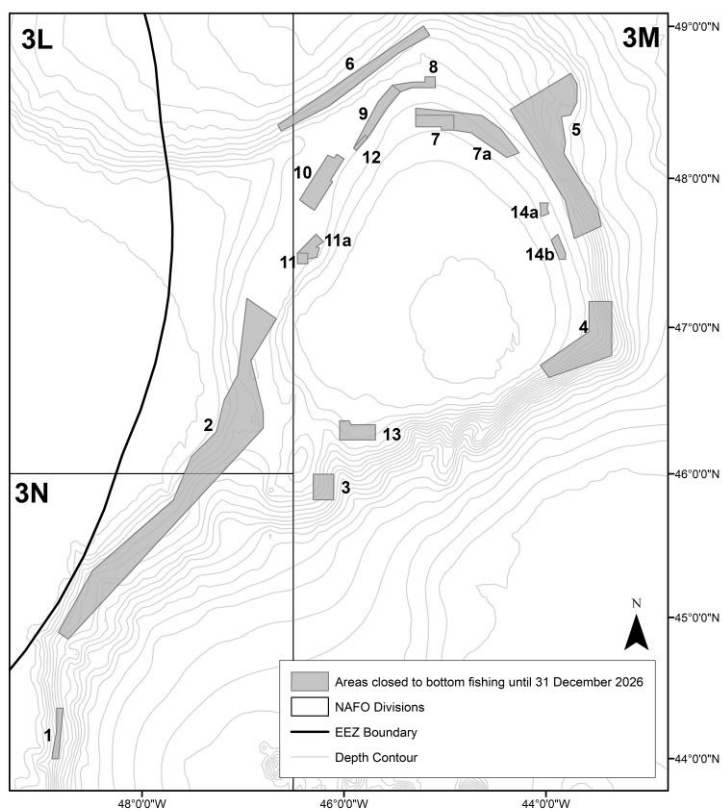

Figure 5. Polygons Delineating Vulnerable Marine Ecosystem Area Closures Referenced in Article 17.3.

4. Contracting Parties are encouraged to the extent possible to record all VME indicator species catch in their annual government and/or industry research programs and to consider non-destructive means for the long-term monitoring of VME in the closed areas.

Article 18 – Exploratory Bottom Fishing Activities

1. Exploratory bottom fishing activities shall be subject to a prior exploration conducted in accordance with the exploratory protocol set out in Annex I.E.
2. Contracting Parties whose vessels wish to engage in exploratory bottom fishing activities shall, for the purpose of the evaluation referred to in Article 20:

- (a) communicate to the Executive Secretary the ‘Notice of Intent to Undertake Exploratory Bottom Fishing’ in accordance with Annex I.E together with the assessment required under Article 19.1;
- (b) require vessels entitled to fly their flag to start exploratory bottom fishing activities only after they have been authorized in accordance with Article 20;
- (c) have an observer with sufficient scientific expertise on board for the duration of the exploratory bottom fishing activity; and
- (d) provide to the Executive Secretary an “Exploratory Bottom Fishing Trip Report” in accordance with Annex I.E. within 3 months of the completion of the exploratory bottom fishing activities.

Duties of the Executive Secretary

3. The Executive Secretary:

- (a) promptly forward the documents referred to in paragraph 2(a) of this Article to the Scientific Council and to the Commission; and
- (b) circulates the “Exploratory Bottom Fishing Trip Reports” to the Scientific Council and to all Contracting Parties.

Article 19 – Preliminary Assessment of Proposed Exploratory Bottom Fishing Activities

1. Any Contracting Party proposing to participate in exploratory bottom fishing activities shall submit, in support of their proposal, a preliminary assessment of the known and anticipated impacts of the bottom fishing activity, which will be exercised by the vessels entitled to fly its flag, on VMEs.
2. The preliminary assessment referred to in paragraph 1 of this Article shall:
 - (a) be sent to the Executive Secretary no less than two weeks in advance of the opening of the June meeting of the Scientific Council;
 - (b) be in accordance with guidance developed by the Scientific Council, or, in the absence of such guidance, to the best ability of the Contracting Party; and
 - (c) address the elements in accordance with Annex I.E.
3. The Commission will request the Scientific Council to:
 - (a) undertake an analysis of the preliminary assessment submitted in accordance with Article 19.1 at its meeting immediately following the submission by the Contracting Parties, according to procedures and standards it develops, and taking into account the risks of significant adverse impacts on VMEs;

- (b) consider any available additional information, including information from other fisheries in the region or similar fisheries elsewhere; and
 - (c) in line with the precautionary approach, provide advice to the Commission on possible adverse impacts on VMEs and on the mitigation measures to prevent them.
4. The Joint Commission-Scientific Council Working Group on Ecosystem Approach Framework to Fisheries Management shall:
- (a) examine the advice of the Scientific Council delivered in accordance with Article 19.3; and
 - (b) make recommendations to the Commission in accordance with its mandate.

Article 20 – Management of Exploratory Bottom Fishing Activities

1. The Commission shall adopt conservation and management measures to prevent significant adverse impacts of the exploratory fishing activities on VMEs, taking account of advice and recommendations provided by the Scientific Council and the Joint Commission-Scientific Council Working Group on Ecosystem Approach Framework to Fisheries Management, including data and information arising from reports pursuant to Article 22. These measures may include:
- (a) allowing, prohibiting or restricting bottom fishing activities;
 - (b) requiring specific mitigation measures for bottom fishing activities;
 - (c) allowing, prohibiting or restricting bottom fishing with certain gear types, or changes in gear design and/or deployment; and
 - (d) any other relevant requirements or restrictions to prevent significant adverse impacts to vulnerable marine ecosystems.

Article 21 – Evaluation of Exploratory Bottom Fishing Activities

1. The Commission will request the Scientific Council to:
- (a) evaluate the exploratory bottom fishing activities at its meeting immediately following the reception of the “Exploratory Bottom Fishing Trip Report” circulated in accordance with Article 18.2; and
 - (b) in line with the precautionary approach, provide advice to the Commission on the decision to be taken in accordance with Article 21.3, taking account the risks of significant adverse impacts on VMEs.
2. The Joint Commission-Scientific Council Working Group on Ecosystem Approach Framework to Fisheries Management shall examine the advice of the Scientific Council delivered in accordance with Article 21.1 and shall make recommendations to the Commission in accordance with its mandate.

3. The Commission shall, taking account of advice and recommendations provided by the Scientific Council and the Joint Commission-Scientific Council Working Group on Ecosystem Approach Framework to Fisheries Management either to:
 - (a) authorize the bottom fishing activity for part or all of the area in which exploratory bottom fishing was carried out and include this area in the footprint, or
 - (b) discontinue the exploratory bottom fishing activity and, if necessary, close part or all of the area where which exploratory bottom fishing was carried out, or
 - (c) authorize the continued conduct of exploratory bottom fishing activity, in line with Article 18 with a view to gather more information.

Article 22 – Provisions in Case of Encounter

Encounter Threshold

1. An encounter with VME indicator species is defined as catch per set (e.g. trawl tow, longline set, or gill net set) of more than 7 kg of sea pens and/or 60 kg of other live coral and/or 300 kg of sponges.

Duties of the Master

2. Each Contracting Party shall:
 - (a) require that masters of vessels entitled to fly its flag and conducting bottom fishing activities in the NAFO Regulatory Area abide by the following rules, where evidence of VME indicator species, in accordance with Annex I.E, are encountered during the course of fishing operations:
 - (i) quantify the catch of VME indicator species; and
 - (ii) if the quantity of VME indicator species caught in a fishing operation (such as trawl tow or set of a gill net or longline) is beyond the threshold defined in paragraph 1 of this Article:
 - (1) report the encounter without delay to the flag State Contracting Party including the position that is provided by the vessel, either the end point of the tow or set or another position that is closest to the exact encounter location, the VME indicator species encountered, the quantity (kg) of VME indicator species encountered; and
 - (2) cease fishing and move away at least 2 nautical miles from the endpoint of the tow/set in the direction least likely to result in further encounters. The captain shall use his best judgment based on all available sources of information.

Duties of the observer

- (b) require that an observer with sufficient scientific expertise deployed in accordance with Article 18.2(c) for the areas outside the footprint:
 - (i) identifies corals, sponges and other organisms to the lowest possible taxonomical level, using the “Exploratory Fishery Data Collection Form” in accordance with Annex I.E (templates); and
 - (ii) delivers the results of such identification to the master of the vessel to facilitate quantification referenced in paragraph 2(a)(i) of this Article;

Duties of the Contracting Party

- (c) forward, without delay, the encounter information reported by the master to the Executive Secretary if the quantity of the VME indicator species caught in a fishing operation (such as trawl, tow, set, of a gill net or longline) is beyond the threshold defined in paragraph 1 of this Article. The Contracting Party may allow the master of their vessels to also report the encounter directly to the Executive Secretary;
- (d) issue an immediate alert of the encounter to all fishing vessels entitled to fly its flag; and
- (e) consider temporarily closing a two mile radius around any reported VME encounter location outside of footprint upon notification by the Executive Secretary in accordance with Article 22.3(c). Contracting Parties may reopen temporarily closed areas upon notification from the Executive Secretary in accordance with Article 22.3(e).

Duties of the Executive Secretary

3. The Executive Secretary:

- (a) archives the information on incident information reported by masters and without delay transmits it to all Contracting Parties;
- (b) makes an annual report to the Scientific Council on single and multiple encounters in discrete areas within the footprint. This report should also include reports from the exploratory bottom fishing activities conducted in the last year;
- (c) requests all Contracting Parties to implement a temporary closure of a two mile radius around the reporting position of an encounter with VME indicator species outside the footprint, as identified in accordance with paragraph 2(c) of this Article. The reporting position is that provided by the master;
- (d) requests Contracting Parties to maintain the temporary closure until such time that the Commission has adopted conservation and management

measures in accordance with paragraph 5 of this Article if the Scientific Council concludes that the area covered by a temporary closure consists of a VME;

- (e) informs the Contracting Parties that they may reopen the area to their vessels if the Scientific Council does not conclude that the area covered by a temporary closure consists of a VME; and
- (f) makes an annual report to the Scientific Council on archived reports from encounters in areas outside the footprint. This report shall also include reports from the exploratory bottom fishing activities that were conducted in the last year.

Duties of the Scientific Council

- 4. The Scientific Council will be requested by the Commission to:
 - (a) analyze the information received from the Executive Secretary pursuant to paragraph 3(b) and (f) of this Article;
 - (b) examine any temporary closures implemented in accordance with paragraph 3(c) of this Article at the meeting immediately following the implementation of such closures; and
 - (c) provide advice to the Commission on whether a VME exists following encounters with VME indicator species on a case-by-case basis and on the appropriateness of the temporary closures or other measures. The advice shall be based on annually updated assessments of the accumulated information on encounters as well as other scientific information. The Scientific Council's advice on the need for action, using FAO guidelines as a basis. In determining the appropriateness of the temporary closures or other measures, the Scientific Council should describe how these measures respond to the relevant provisions of the FAO guidelines, in particular the six criteria defining a significant adverse impact on an identified VME, consistent with the best available scientific information and the precautionary approach.

Duties of the Commission

- 5. The Commission shall:
 - (a) consider the advice provided by the Scientific Council pursuant to paragraph 4(c) of this Article; and
 - (b) adopt conservation and management measures in accordance with Article 20.

Article 23 – Reassessment of Bottom Fishing Activities

1. The Commission will request the Scientific Council to:
 - (a) identify VMEs, on the basis of best available scientific information and with the co-operation of Contracting Parties;
 - (b) map sites where these VMEs are known to occur or likely to occur; and
 - (c) provide such data and information to the Executive Secretary for circulation to all Contracting Parties;
 - (d) an assessment of Significant Adverse Impacts (SAI) as defined by the FAO guidelines for deep-sea fisheries; and
 - (e) conduct a risk assessment based on the outcome of these assessments.
2. The Commission shall:
 - (a) conduct a reassessment of bottom fishing activities in 2021 and every 5 years thereafter, or when there is new scientific information indicating a VME in a given area, other new scientific information becomes available, or there is significant change in the fishery, in collaboration with the Scientific Council and the Joint Commission-Scientific Council Working Group on Ecosystem Approach Framework to Fisheries Management; and
 - (b) take the necessary actions to protect VMEs, including potential adjustment of closed areas, following the reassessment specified in paragraph 2(a) of this Article.

Article 24 – Review

The provisions of this Chapter shall be reviewed by the Commission at its Annual Meeting in the year following the reassessments set out in Article 23, paragraph 2(a).

CHAPTER III VESSEL REQUIREMENTS AND CHARTERING

Article 25 – Vessel Requirements

Notification of Fishing Vessels

1. Each Contracting Party shall notify the Executive Secretary of the following by electronic means:
 - (a) a list of its vessels entitled to fly its flag which it may authorize to conduct fishing activities, in the Regulatory Area, hereinafter referred to as a “notified vessel”, in the format prescribed in Annex II.C1 (NOT message);
 - (b) from time to time, any deletion from the list of notified vessels, without delay, in the format prescribed in Annex II.C2 (WIT message).
2. No fishing vessel shall conduct fishing activities in the Regulatory Area unless:
 - (a) it is listed as a notified vessel; and
 - (b) eligible vessels have been issued an IMO number.

Authorization to Conduct Fishing Activities

3. No Contracting Party shall:
 - (a) permit a vessel entitled to fly its flag to conduct fishing activities in the Regulatory Area unless it has authorized it to do so; or
 - (b) authorize a fishing vessel entitled to fly its flag to conduct fishing activities in the Regulatory Area unless it is able to exercise effectively its flag State duties in respect of such vessel.
4. Each Contracting Party shall manage the number of authorized fishing vessels and their fishing effort in a manner that takes due account of the fishing opportunities available to that Contracting Party in the Regulatory Area.
5. Each Contracting Party shall transmit to the Executive Secretary by electronic means:
 - (a) the individual authorization (AUT message) for each vessel from the list of notified vessels it has authorized to conduct fishing activities in the Regulatory Area, hereinafter referred to as an “authorized vessel”, in the format prescribed in Annex II.C3 and no later than 5 days before the start of the fishing activities for the calendar year.

Each authorization shall in particular identify the start and end dates of validity and, the species for which directed fishery is allowed, unless exempted in Annex II.C.3. If the vessel intends to fish for regulated species

referred to in Annexes I.A or I.B, the identification shall refer to the stock, where the regulated species is associated to the area concerned;

- (b) the suspension of the authorization, in the format prescribed in Annex II.C4, without delay, in case of removal of the authorization concerned or of any modification to its content, where the removal or the modification occurs during the period of validity (SUS message);
 - (c) in case of resuming a suspended authorization, the new authorization, transmitted in accordance with the procedure described in sub-paragraph (a) above.
6. Each Contracting Party shall ensure that the period of validity of the authorization matches with the certification period concerning the certification of the capacity plan referred to in paragraphs 10 and 11 below.

Vessel Markings

7. Every fishing vessel shall bear markings that are readily identified in accordance with internationally accepted standards, such as the *FAO Standard Specifications for the Marking and Identification of Fishing Vessels*.

Vessel Documents to be Carried on Board

8. No fishing vessel shall operate in the Regulatory Area without carrying on board current valid documents issued by the competent authority of the flag State at a minimum establishing the following particulars concerning the vessel:
- (a) its name, if any;
 - (b) the letter(s) of the port or district in which it is registered, if any;
 - (c) the number(s) under which it is registered;
 - (d) the IMO number;
 - (e) its international radio call sign, if any;
 - (f) the names and addresses of the owner(s) and, where applicable, the charterers;
 - (g) its length overall;
 - (h) its engine power;
 - (i) the capacity plan referred to in paragraph 10; and
 - (j) estimation of freezing capacity or, if possible, certification of refrigeration system.

Capacity Plan

9. No fishing vessel shall conduct fishing activities in the Regulatory Area without carrying on board an accurate up-to-date capacity plan, the capacity plan must be certified by a competent authority or recognized by its flag State.
10. The capacity plan shall:
 - (a) take the form of a drawing or description, of its fish storage place, including the storage capacity of each fish storage place in cubic meters. The drawing must consist of longitudinal section of the vessel, including a plan for each deck on which a fish storage place is located and the locations of freezers;
 - (b) show in particular the positions of any door, hatch and any other access to each fish storage place, with reference to the bulkheads;
 - (c) indicate the main dimensions of the fish storage tanks (refrigerated sea water tanks) and, for each one, indicating the calibration in cubic meters at intervals of 10 cm; and
 - (d) have the true scale clearly indicated on the drawing.
11. Each Contracting Party shall ensure that, every two years, the capacity plan of its authorized vessels is certified correct by the competent authority.

Duties of the Executive Secretary

12. The Executive Secretary
 - (a) maintains a register of all fishing vessels notified in accordance with paragraph 1(a);
 - (b) identifies in the register the authorized vessels, including chartered vessels; and
 - (c) amends the register and any element related to the authorizations following notification by a Contracting Party of any modification.
13. Subject to the appropriate confidentiality requirements, the Executive Secretary:
 - (a) posts the register referred to in paragraph 12, to the NAFO MCS Website and ensures that it is made available to all Contracting Parties;
 - (b) posts in the public part of the NAFO Website:
 - (i) the register referred to in paragraph 12 except for the information referred to in paragraph 8(f); and
 - (ii) for fishing vessels with an active notification referred to in Article 5.3(e), the vessel identification, authorization date and relevant stock; and

- (c) deletes from the register any vessel that has not conducted fishing activities in the Regulatory Area for a period of two consecutive years, or that has been classified as IUU.

Article 26 – Chartering Arrangements

1. For the purpose of this Article "chartering Contracting Party" refers to the Contracting Party that holds an allocation as indicated in Annexes I.A and I.B, and "flag State Contracting Party" refers to the Contracting Party in which the chartered vessel is registered.
2. A Contracting Party may authorize all or part of its allocation to be harvested using a chartered authorized vessel entitled to fly the flag of another Contracting Party, subject to the following conditions:
 - (a) the flag State Contracting Party has consented in writing to the chartering arrangement;
 - (b) the chartering arrangement is limited to one fishing vessel per flag State Contracting Party in any calendar year;
 - (c) the duration of the fishing operations under the chartering arrangement does not exceed six months cumulatively in any calendar year; and
 - (d) the authorized vessel is not a vessel that has previously been identified as having engaged in IUU fishing.
3. Without prejudice to the duties of the chartering Contracting Party, flag State Contracting Party shall ensure that the vessel complies with the CEM. This does not nullify the obligations under the CEM of the chartering Contracting Party to which the quota and fishing days have been allocated originally.
4. All catch and bycatch taken by the chartered vessel according to the chartering arrangement shall be attributed to the chartering Contracting Party.
5. The flag State Contracting Party shall not authorize the chartered vessel, when conducting fishing operations under the chartering arrangement, to fish any of the flag State Contracting Party's allocations or under another charter at the same time.
6. No transshipment at-sea may be carried out without the prior authorization of the chartering Contracting Party, which shall ensure that it is carried out under the supervision of an observer on board.
7. The chartering Contracting Party shall, before the date the chartering arrangement is effective, provide the following information in writing to the Executive Secretary:
 - (a) the name, flag State registration, IMO number and flag State of the vessel;
 - (b) previous name(s) and flag State(s) of the vessel, if any;

- (c) the name and address of the owner(s) and operators of the vessel;
 - (d) a copy of the chartering arrangement and any fishing authorization or licence it has issued to the vessel; and
 - (e) the allocation assigned to the vessel.
8. The flag State Contracting Party shall notify the Executive Secretary in writing prior to the start of the chartering arrangement of its consent to the chartering arrangement and provide to the chartered vessel a copy of the notice sent by the Executive Secretary in accordance with paragraph 14.
 9. The chartering Contracting Party and the flag State Contracting Party shall both notify the Executive Secretary immediately upon the occurrence of the following events:
 - (a) start of fishing operations under the chartering arrangement;
 - (b) suspension of fishing operations under the chartering arrangement;
 - (c) resumption of fishing operations under a chartering arrangement that has been suspended;
 - (d) end of fishing operations under the chartering arrangement.
 10. The flag State Contracting Party shall maintain a separate record of catch and bycatch data from fishing operations in accordance with every charter of a vessel entitled to fly its flag and report them to the chartering Contracting Party and the Executive Secretary.
 11. Each chartering Contracting Party shall report to the Executive Secretary by 1 March each year, all relevant information concerning the implementation of chartering arrangements for the previous calendar year notified under this Article, including information on the catch, fishing effort and bycatch of each vessel it has chartered in accordance with this Article.
 12. The chartered vessel shall at all times carry a copy of the documentation referred to in paragraph 7.

Duties of the Executive Secretary

13. Upon receipt of the information specified in paragraphs 7 and 8, the Executive Secretary verifies whether the chartering arrangement complies with this Article, and without delay so notifies the Contracting Parties concerned indicating the date on which the chartering arrangement becomes effective.
14. The Executive Secretary circulates without delay to all Contracting Parties and posts to the NAFO MCS Website the information notified in accordance with paragraph 9 and ensures that the catch and bycatch notified in accordance with paragraph 11 is attributed to the chartering Contracting Party.

15. By 15 August each year, the Executive Secretary submits a report to the Commission detailing the chartering arrangements for the preceding calendar year to ensure that the Commission has an opportunity to review compliance with the provisions of this Article at each Annual Meeting.

CHAPTER IV MONITORING OF FISHERIES

Article 27 – Product Labelling Requirements

1. When processed, all species harvested in the Regulatory Area shall be labelled in such a way that each species and product category is identifiable. All species must be labelled using respectively the following data:
 - (a) the name of the capture vessel;
 - (b) the 3-Alpha Code for each species as listed in Annex I.C;
 - (c) in the case of shrimps the date of capture;
 - (d) the Regulatory Area and Division of fishing; and
 - (e) the product form presentation code as listed in Annex II.K.
2. Labels shall be securely affixed, stamped or written on packaging at the time of stowage and be of a size that can be read by inspectors in the normal course of their duties.
3. Labels shall be marked in ink on a contrasting background.
4. Each package shall contain only:
 - (a) one product form category;
 - (b) one division of capture;
 - (c) one date of capture (in the case of shrimps); and
 - (d) one species.

Article 28 – Monitoring of Catch

Recording of Catch and Stowage

1. For the purposes of monitoring catch, each fishing vessel shall utilize a fishing logbook, a production logbook and a stowage plan as defined below, to record fishing activities in the Regulatory Area:

Fishing Logbook

2. Each fishing vessel shall maintain a fishing logbook consistent with Annex II. A that:
 - (a) accurately records catch of each tow/set by Division;
 - (b) indicates the disposition of the catch of each tow/set, including the amount (in kg, live weight) of each stock that is retained on board, discarded, offloaded, or transhipped during the current fishing trip; and

- (c) is retained on board for at least 12 months.

Production Logbook

- 3. Each fishing vessel shall:

- (a) maintain a production logbook that:

- (i) accurately records the daily cumulative production for each species and product type in kg for the preceding day from 00:01 UTC until 23:59 UTC;
- (ii) relates the production of each species and product type by Division;
- (iii) lists the conversion factors used to convert production weight of each product type into live weight when recorded in the fishing logbook;
- (iv) records each entry in accordance with Article 27; and
- (v) is retained on board for at least 12 months.

- (b) and, when production has occurred on the day of an inspection, make the information related to any catch processed for that day available to an inspector upon request.

Stowage of Catch

- 4. Each vessel shall, with due regard for safety and navigational responsibilities of the master, stow all catch taken in the NAFO Regulatory Area separately from all catch taken outside the NAFO Regulatory Area, and ensure that such separation is clearly demarcated using plastic, plywood or netting.

- 5. Each fishing vessel shall:

- (a) maintain a stowage plan that:

- (i) clearly shows:

- (1) the location and quantity, expressed as product weight in kg, of each species within each fish hold;
- (2) the location in each hold of shrimp taken in Division 3L and in Division 3M that includes the quantity of shrimp in kg, by Division;
- (3) the top view of product within each fish hold;

- (ii) is updated daily for the preceding day from 00:01 to 23:59 UTC; and
- (iii) is retained on board for each day fished until the vessel has been unloaded completely.

- (b) and, when stowage has occurred on the day of an inspection, make the information related to any catch stowed for that day available to an inspector upon request.

Catch Reporting

6. Every fishing vessel shall transmit electronically to its FMC the following reports in accordance with the format and the content prescribed for each type of report in Annex II.D and Annex II.F:
- (a) catch on entry (COE): quantity of catch on board by species upon entry into the Regulatory Area, transmitted at least six (6) hours in advance of the vessel's entry;
 - (b) catch on exit (COX): quantity of catch onboard by species upon exit from the Regulatory Area transmitted at least six (6) hours in advance of the vessel's exit;
 - (c) catch report (CAT):
 - (i) quantity of catch retained and quantity discarded by species for the day preceding the report, by Division, including nil catch returns, sent daily before 12:00 UTC.
 - (ii) quantity of catch retained and quantity discarded by species for the day in which the fishing vessel exits the Regulatory Area, by Division, including nil catch returns, sent before the COX report.
- Nil catch retained and nil discards of all species shall be reported using the 3 alpha code MZZ (marine species not specified) and quantity as "0" as the following examples demonstrate (//CA/MZZ 0// and //RJ/MZZ 0//);
- (d) catch on board (COB): for any vessel fishing shrimp in Division 3L, prior to entry or exit from Division 3L, transmitted one hour prior to crossing the boundary of Division 3L;
 - (e) transshipment (TRA):
 - (i) by donor vessel, transmitted at least twenty-four (24) hours in advance of the transshipment; and
 - (ii) by receiving vessel, no later than one (1) hour after the transshipment.
 - (f) port of landing (POR): by a vessel that has received a transshipment at least twenty-four (24) hours in advance of any landing;
 - (g) catch shall be reported at the species level under their corresponding 3-alpha code presented in Annex I.C or if not contained in Annex I.C the FAO ASFIS List of Species for Fishery Statistics. The estimated weight of sharks caught per haul or set shall also be recorded.

These reports may be cancelled using the format specified in Annex II.F(8). If any of these reports is subject to correction, a new report must be sent without delay after Cancel report within time limits set out in this paragraph.

In case the flag State FMC accepts the cancellation of a report from its vessels it shall communicate it to the Executive Secretary without delay.

7. Each Contracting Party shall ensure that its FMC, immediately upon receipt, transmits electronically the reports referred to in paragraph 6 to the Executive Secretary in the format prescribed in Annex II.D.

Catch and Fishing Effort Reporting by Contracting Parties

8. Each Contracting Party shall:
 - (a) unless the derogation under paragraph 8.b applies, report its provisional monthly catches by species and stock area, and its provisional monthly fishing days for the 3M shrimp fishery, whether or not it has quota or effort allocations for the relevant stocks. It shall transmit these reports to the Executive Secretary within 30 days of the end of the calendar month in which the catch was taken.
 - (b) By way of derogation, paragraph 8.a does not apply if all catches have been reported in accordance with paragraph 6.
 - (c) ensure that logbook information is submitted in either Extensible Markup Language (XML) or in a Microsoft Excel file format, to the Executive Secretary containing at a minimum the information outlined in Annex II.N within 60 days following the completion of each fishing trip.

Duties of the Executive Secretary

9. The Executive Secretary:
 - (a) assigns sequential numbers to the reports of each Contracting Party listed in paragraph 6, including any cancellation reports, then posts them to the NAFO MCS Website and ensures that they are made available to all Contracting Parties;
 - (b) ensures that each port of landing report (POR) posted to the NAFO MCS Website is automatically transmitted to the flag State Contracting Party of the receiving vessel;
 - (c) upon request, confirms receipt of all electronic reports (RET);
 - (d) no later than 10 days after the end of each calendar month, collates the information received via reports submitted in accordance with paragraph 6 of this Article and provisional monthly catch reports submitted in accordance with paragraph 8(a) and circulates it together with aggregate catch statistics by stock area to all Contracting Parties;

- (e) makes the catch reporting data specified in Article 28.6(c) available to the Scientific Council and Scientific Council/ Commission Working Groups upon their request, without the vessel's and flag State identification, in line with the data confidentiality rules as specified in Annex II.B and for data transmitted to the NAFO Secretariat after 1 January 2013. In case the request includes VMS data under Article 29.10(d) a vessel codification should permit the cross analysis of both catch and VMS data by vessel and this way allow the Scientific Council and Scientific Council/ Commission Working Groups to carry out their mandated responsibilities. Data made available shall be used only for the purpose of research within the functions of the Scientific Council or Scientific Council/ Commission Working Groups and publication of scientific results should be in an aggregated format without any detailed information regarding individual vessels or flag States;
- (f) makes the logbook data specified in Article 28.8(c) available to Scientific Council upon their request, without the vessel's and flag State identification, in line with the data confidentiality rules as specified in Annex II.B. If the request includes VMS data under Article 29.10(d), a vessel codification should permit the cross analysis of both catch and VMS data by vessel and this way allow the Scientific Council to carry out their mandated responsibilities. Data made available shall be used only for the purpose of research within the functions of the Scientific Council and publication of scientific results should be in an aggregated format without any detailed information regarding individual vessels or flag States.

Article 29 – Vessel Monitoring System (VMS)

VMS Position Data and Costs

1. Every fishing vessel operating in the Regulatory Area shall be equipped with a satellite monitoring device capable of continuous automatic transmission of position to its land-based Fisheries Monitoring Centre (FMC), no less frequently than once an hour, the following VMS data:
 - (a) vessel identification;
 - (b) most recent vessel position, by latitude and longitude, having an error tolerance margin no greater than 500 metres and a confidence interval of 99%;
 - (c) UTC date and time of the fixing of the position; and
 - (d) vessel course/heading and speed.
2. The flag State Contracting Party shall ensure that its FMC:
 - (a) receives the position data referred to in paragraph 1 and records them using the following 3 letter codes:

- (i) "ENT", first VMS position transmitted by each vessel upon entering the Regulatory Area;
 - (ii) "POS", every subsequent VMS position transmitted by each vessel from within the Regulatory Area; and
 - (iii) "EXI", first VMS position transmitted by each vessel upon exiting the Regulatory Area.
 - (b) is equipped with computer hardware and software for automatic data processing and electronic data transmission and applies back-up and recovery procedures and records the data received from fishing vessels in computer readable form that it maintains for no less than three years; and
 - (c) notifies the Executive Secretary of the name, address, telephone, telex, e-mail or facsimile numbers of its FMC and any subsequent changes without delay.
3. Each Contracting Party shall assume all costs associated with its own Vessel Monitoring System.

Failure of a Device

4. Where an inspector observes a fishing vessel in the Regulatory Area and has not received data in accordance with paragraph 1, 2 or 8 the inspector shall inform the master of the vessel and the Executive Secretary.
5. The flag State Contracting Party shall ensure that the master or the owner of a fishing vessel entitled to fly its flag or its representative is informed when the vessel's satellite monitoring device appears to be defective or non-functioning.
6. Where the satellite monitoring device fails, the master shall ensure it is repaired or replaced within one month following such failure, or, where a fishing trip lasts more than one month, the repair or the replacement is completed upon the vessel's next entry into port.
7. No fishing vessel may commence a fishing trip with a defective satellite monitoring device.
8. Every fishing vessel operating with a defective satellite monitoring device, shall transmit, at least once every 4 hours, the VMS position data to its flag State FMC by other available means of communication, in particular, satellite, email, radio, facsimile or telex.

Transmission of VMS Position Data from the FMC to the Executive Secretary

9. The flag State Contracting Parties shall ensure that:
 - (a) its FMC transmits VMS position data to the Executive Secretary as soon as possible, but no later than 24 hours after it receives them and may authorize fishing vessels entitled to fly its flag to transmit VMS position data by satellite, email, radio, facsimile or telex, direct to the Executive Secretary; and
 - (b) the VMS position data transmitted to the Executive Secretary are in conformity with the data exchange format set out in Annex II.E and further described in Annex II.D.

Duties of the Executive Secretary

10. The Executive Secretary:
 - (a) upon request, confirms receipt of electronic reports using a return message coded "RET";
 - (b) posts as soon as possible the VMS position data listed in paragraph 2(a) to the NAFO MCS Website and ensures that they are made available to all Contracting Parties;
 - (c) treats all VMS position data in conformity with Annex II.B;
 - (d) makes VMS data available in a summary form, that does not include the vessel's identification, to the Scientific Council and other NAFO constituent bodies to allow them to carry out their mandated responsibilities;
 - (e) upon determining that a vessel has failed to transmit two consecutive VMS position data reports as specified in paragraph 1, so notifies the FMC of the flag State Contracting Party without delay;
 - (f) upon being informed by an inspector that data has not been received for a fishing vessel in the Regulatory Area in accordance with paragraph 1 and 8, immediately informs the flag State Contracting Party of the vessel; and
 - (g) upon request, provides the NAFO VMS data:
 - (i) for Search and Rescue and maritime safety purposes as required; and
 - (ii) to a Contracting Party, in a monthly aggregated and anonymized form limited to the most recent five-year period, for purposes identified in request, made in accordance with paragraph 12.a. Upon receiving a request, the Executive Secretary shall immediately forward it to all Contracting Parties. The data shall only be provided to the requesting Contracting Party in the absence of an objection received from another

Contracting Party in accordance with paragraph 12.b. The Executive Secretary shall immediately forward any objection received to all Contracting Parties.

Use of VMS Data for Search and Rescue

11. Any Contracting Party may use NAFO VMS data for search and rescue or for the purpose of maritime safety.

Use of VMS Data for Other Purposes

12. (a) A Contracting Party may request access to VMS data for other purposes. Such requests shall be made in writing to the Executive Secretary, and shall identify the purposes for which the VMS data will be used and the entities to which the data will be given. Upon receiving the VMS data the Contracting Party shall only provide them to the entities defined in the request on the condition that it is for their own use only and that the data is not the subject of further distribution.
- (b) A Contracting Party who objects to a request for VMS data made by another Contracting Party shall send the objection in writing to the Executive Secretary within thirty days of the communication of the request by the Executive Secretary in accordance with paragraph 10.g(ii).

CHAPTER V OBSERVER SCHEME

Article 30 – Observer Program

General provisions

1. The purpose of this observer program is to collect reliable, independent information and data on activities in the NAFO Regulatory Area. The information and data collected through the observer program shall be made available to any NAFO body requesting it.
2. This program shall apply to all Contracting Parties' fishing vessels operating in the Regulatory Area.
- 2 bis. All observers' data, electronic reports and the data collected under the electronic observation program under this Chapter and supporting documentation shall be treated as confidential.

Duties of the flag State Contracting Party

3. Each flag State Contracting Party shall:
 - (a) adopt appropriate measures and set up all administrative, legal, and technical structures necessary to:
 - (i) effectively and fully implement the NAFO observer program;
 - (ii) utilize the data originating from the observer program for control, inspection, enforcement, and as appropriate scientific purposes;
 - (iii) take appropriate action with respect to its vessels to ensure safe working conditions, and the protection, security, and welfare of observers in the performance of their duties, consistent with international standards and guidelines; and
 - (iv) establish corrective measures regarding observers, observer providers, vessel masters and owners, where necessary, in order to ensure that the program meets the requirements specified in this Article.
 - (b) take all necessary steps to ensure that an observer is removed from a fishing vessel flying its flag if, during deployment, it is determined that a serious risk to the observer exists, unless and until the risk is addressed;
 - (c) ensure that its observers:
 - (i) have no financial or beneficial interest in, and are paid in a manner that demonstrates financial independence from the fishing vessel being monitored;

- (ii) execute their duties and functions in an unbiased manner regardless of nationality and of which flag the vessel is flying;
- (iii) are free from undue influence or benefit linked to the fishing activity of the vessel;
- (iv) are independent and impartial;
- (v) treat all data and information related to the fishing operations collected during their deployment, including images and videos taken, in a confidential manner;
- (vi) have the training, knowledge, skills and abilities to perform all of the duties, functions and requirements as specified in this Article;
- (vii) can always establish direct and confidential communication with the flag State FMC when deployed by:
 - (1) ensuring the observer is provided with an independent satellite two-way communication device at sea, and/or
 - (2) ensuring the observer is provided with a communication device and ensuring that the observer is provided by the vessel master with unhindered independent data and voice internet access on board at all times; and
 - (3) ensuring that protocols are put in place for the observer to safely and directly contact the flag State FMC to report safety concerns.
- (d) establish ongoing list of observers that it intends to deploy to vessels entitled to fly its flag operating in the Regulatory Area;
- (e) require its vessels to carry an observer from the list it submitted to the Executive Secretary;
- (f) to the extent practicable, ensure that individual observers are not deployed on consecutive fishing trips on the same vessel;
- (g) ensure that the masters of its vessel cannot refuse an observer deployment nor be involved in the process to select the observer to be deployed;
- (h) upon receipt of a report from its observers on potential non-compliance with the CEM or an incident, including any instances of obstruction, intimidation, interference with, or otherwise prevention of the observer from performing their duties:
 - (i) treat the report with the utmost sensitivity and discretion, in a confidential manner;
 - (ii) assess the reported potential non-compliance and conduct any follow-up action deemed appropriate;

- (iii) use the information for risk assessment for inspection, control and surveillance at sea and in port; and
- (iv) create a report on follow-up actions;
- (i) unless otherwise agreed with another Contracting Party, bear the costs of remunerating every observer it has deployed;
- (j) submit to the Executive Secretary:
 - (i) the list of observers referred to in paragraph 3(d) and any changes thereof without delay and before the deployment of an observer on its vessels;
 - (ii) without delay and in advance of the fishing trip, a notification including the details of the circumstances preventing a 100% observer coverage referred to in paragraph 4(a);
 - (iii) without delay, all documents and data relating to its vessels subject to electronic observation program in accordance with paragraph 4(b);
 - (iv) without delay, the PSC-3 report referred to in paragraph 5;
 - (v) without delay following its receipt, the daily OBR report referred to in paragraph 7(a);
 - (vi) without delay following its receipt, the observer trip report information referred to in paragraph 7(b);
 - (vii) by 1 March each year for the previous calendar year, a report on its compliance with the obligations outlined in this Article, including:
 - (1) the follow-up actions referred to in paragraph 3(h)(iv); and
 - (2) a report containing a comparison of all relevant catch and fishing activities showing the difference between the fishing trips where the vessel had an observer on board and those where the observer was withdrawn;
- (k) subject to the exception in paragraph 4, ensure that every fishing vessel flying its flag:
 - (i) carries at all times at least one observer in accordance with the provisions of this program while conducting fishing activities in the Regulatory Area; and
 - (ii) does not carry out fishing activities until an observer is deployed on the vessel.

Partial withdrawal of observers

4. By way of derogation from paragraph 3(k), a flag State Contracting Party may allow its vessels to carry an observer for less than 100%, but not less than 25% of the fishing trips conducted by its fleet or of the days the vessels are present in the Regulatory Area calculated for a prior period of one calendar year in the following cases:
 - (a) for vessels targeting species in areas where negligible bycatch of other species is expected to occur; or where the flag State Contracting Party has provided information on why a 100% coverage is not applied; or extraordinary and unforeseeable circumstances duly documented and justified by the flag State Contracting Party preventing 100% observer coverage; or
 - (b) where a vessel utilizes an electronic observation program compliant with the requirements established in paragraph 9.
5. For each fishing trip of its vessels without an observer on board pursuant to paragraph 4, the flag State Contracting Party shall physically inspect the landing of the vessel in its ports or otherwise evaluate as appropriate each landing in its ports, following risk assessment. Inspections shall be documented in the format prescribed in Annex IV.C (PSC 3).
6. Where an inspector issues a notice of an infringement to a fishing vessel that is not carrying an observer, in accordance with the derogation referred to in paragraph 4(a), at the time of the notice, the infringement shall be deemed a serious infringement for the purpose of Article 38.1 and, where the flag State Contracting Party does not require the fishing vessel to proceed immediately to port in accordance with Article 38.3, it shall deploy an observer to the fishing vessel without delay.

Duties of the Observers

7. Each flag State Contracting Party shall ensure that its observers perform, at a minimum, the duties listed below:
 - (a) transmit the OBR report as set out in Annex II.G to the flag State FMC daily before 12:00 UTC for the day preceding the report, by division, whether the vessel was fishing or not;
 - (i) report without delay to the flag State FMC any potential non-compliance with the CEM and any instances of obstruction, intimidation, interference with or otherwise prevention of the observer from performing their duties;
 - (b) complete the observer trip report as set out in Annex II.M, noting that data collection on Greenland sharks shall be carried out minimizing the damage to the sampled individuals;

- (c) monitor the vessel's product labelling, production logbook, and stowage plan against requirements in Articles 27 and 28, and record in the observer trip report any potential non-compliance identified;
 - (d) record any observed interruption or interference with VMS;
 - (e) submit the information in Annex II.M by electronic means to the flag State FMC and to the port State FMC as soon as possible after leaving the Regulatory Area and at the latest at the arrival of the vessel in port for landing;
 - (f) make themselves available to inspectors at sea, or in port upon arrival of the vessel, for the purposes of providing information related to the fishing activities of the vessel;
 - (g) maintain detailed records, including relevant images and video footage, of any circumstances and information related to any instances of potential non-compliance with the CEM, for transmission to the flag State FMC at the earliest opportunity, and at the latest upon the arrival of the vessel in port for landing.
8. A flag State Contracting Party may make use of the software developed by the Executive Secretary to transmit the information referred to in Annexes II.G and II.M in accordance with paragraphs 7(a) and (e).

Electronic Observation Program

9. Each Contracting Party making use of the derogation in paragraph 4(b) shall ensure that:
- (a) the EMS installation and components of each fishing vessel are approved by the competent authorities and correspond to an EMS Vessel Monitoring Plan (VMP);
 - (b) the VMP includes at a minimum the following information:
 - (i) the fishing vessel details and the identification of the owner;
 - (ii) pictures, the technical characteristics and specification and the location on board of the EMS components, including cameras, sensors, antenna and control box;
 - (iii) pictures and the measurement details of sorting and discard areas;
 - (iv) the obligations of the master of the fishing vessel relating to:
 - (1) the use of designated discard areas;
 - (2) the maintenance and cleaning of the EMS and its components;
 - (3) the testing and system diagnosis of the EMS; and

- (4) the fallback procedures to be followed in case of system or power failures.
- (c) the EMS includes cameras in all designated discard areas placed in such a way as to allow the identification and quantification of discarded catch, the main deck or the area where the catches are hauled on board and the processing area;
 - (d) the EMS includes, at a minimum, sensors providing information on the position, speed, winch or power block usage, and hold temperatures;
 - (e) the EMS has a minimum data storage capacity sufficient to store the EMS data until all catch onboard from the NAFO Regulatory Area has been landed;
 - (f) the footage and sensor data collected by the EMS follows a specified format allowing that all sensors and video footage data can be analysed using an EMS analyser software to identify and quantify the catch and discards from all fishing operations;
 - (g) a copy of the VMP and changes thereof are submitted to the NAFO Executive Secretary for any vessels not carrying an observer before the beginning of a fishing trip in which the vessel will be subject to the electronic observation program referred to in paragraph 4(b);
 - (h) the NAFO Executive Secretary is notified at least 72 hours in advance of the period during which a vessel will be subject to the electronic observation program referred to in paragraph 4(b);
 - (i) the EMS is turned on, recording, and fully operational as soon as the vessel enters the NAFO NRA and until the vessel offloads all of its catch from the NRA, barring use of any system failure contingency plan outlined in the VMP; and
 - (j) a fishing trip report based on the template of Annex II.M and fulfilled using the results of the EMS data analysis is sent to the NAFO Executive Secretary within 3 months after the end of the trip without human observer on board for at least 5% of the fishing trips subject to the electronic observation program.

Obligations of the Master

10. Each flag State Contracting Party shall ensure that masters of vessels entitled to fly their flag:
- (a) extend such co-operation and assistance as may be required to enable the observer to carry out his or her duties, including providing the observer with such access as may be required to the catch retained on board and discards and catch registration documents (e.g. fishing logbook, production logbook, stowage plan);

- (b) provide food and accommodations to the observer of a standard no less than that provided to the vessel's officers. If officers' accommodations are not available, the observer shall be provided accommodations of a standard as close to an officer as practicable but no less than that provided to the crew;
- (c) provide access to all operational areas of the vessel and equipment necessary to complete their duties, including the vessel's hold(s), production area(s), bridge, and navigation, communication, and garbage processing equipment;
- (d) do not, personally or through their agents, employees, or crewmembers, obstruct, intimidate, interfere with, influence, bribe or attempt to bribe or compromise the safety of an observer in the performance of his/her duties;
- (e) include the observer in all emergency drills conducted on board;
- (f) notify the observer when an inspection party has signaled their intent to board the vessel;
- (g) provide the observer with unhindered independent internet access on board at all times, unless the observer has available a fully operational two-way satellite communication device; and
- (h) comply with the obligations and conditions established in the VMP of a vessel subject to electronic observation program in accordance with paragraph 4(b).

Duties of the Executive Secretary

11. The Executive Secretary:

- (a) posts without delay the information received in accordance with paragraphs 3(j)(i)-(vi) to the NAFO MCS Website and ensures it is made available without delay to all Contracting Parties, solely for control and enforcement purposes;
- (b) makes available upon request the observer data, including the daily OBR report, to other NAFO bodies;
- (c) makes available to flag State Contracting Parties software (NAFO Observer App) enabling the transmission of the information referred to in Annexes II.G and II.M in accordance with paragraphs 7(a) and (e);
- (d) where the information referred to in Annex II.G has not been received for 2 consecutive days, notifies the flag State Contracting Party and any Contracting Party participating in the at-sea Inspection and Surveillance Scheme that an OBR has not been received;
- (e) submits to STACTIC a synthesis of the Contracting Parties reports referred to in paragraph 3(j)(vii);

- (f) where a Contracting Party has not provided the report required in paragraph 3(j)(vii) by the Executive Secretary by close of business on the specified deadline, submits a request for the report to the Contracting Party; and
- (g) posts without delay the information received in accordance with paragraph 9(g), (h) and (j) in this Article to the NAFO MCS Website.

Implementation

12. STACTIC will review the implementation of this observer program in 2027.
13. STACTIC will review the implementation of the Electronic Observation Program in 2026.

CHAPTER VI

AT-SEA INSPECTION AND SURVEILLANCE SCHEME

Article 31 – General Provisions

1. Inspection and surveillance shall be carried out by inspectors assigned by a Contracting Party to this At-sea Inspection and Surveillance Scheme (hereinafter, “Scheme”).
2. A Contracting Party may by mutual agreement deploy inspectors it has assigned to the Scheme to an inspection platform of another Contracting Party.
3. A Contracting Party with more than 15 fishing vessels operating at any one time in the Regulatory Area shall during that time:
 - (a) have an inspector or other competent authority present in the Regulatory Area; or
 - (b) have a competent authority present in the territory of a Contracting Party adjacent to the Convention Area; and
 - (c) respond without delay to every notice of infringement in the Regulatory Area by a fishing vessel entitled to fly its flag.
4. Each Contracting Party participating in the Scheme shall provide to each inspection platform, upon its entry into the Regulatory Area, a list of sightings and boarding it has conducted in the previous ten-day period including the date, coordinates and any other relevant information.
5. Each Contracting Party participating in the Scheme shall ensure that every inspection platform entitled to fly its flag operating in the Regulatory Area maintains secure contact, daily where possible, with every other inspection platform operating in the Regulatory Area, to exchange information necessary to co-ordinate their activities.
6. Inspectors visiting a research vessel shall note the status of the vessel, and shall limit inspection procedures to those necessary to ascertain that the vessel is conducting activities consistent with its Research Plan. Where the inspectors have reasonable grounds to suspect the vessel is conducting activities that are not consistent with its Research Plan, the CEM fully apply.
7. When participating in the Scheme, a Contracting Party shall ensure its inspectors treat vessels operating in the Regulatory Area on an equitable footing by avoiding a disproportionate number of inspections on vessels entitled to fly the flag of any one Contracting Party. Accordingly, in respect of any quarter-annual period, the number of inspections its inspectors conduct on vessels entitled to fly the flag of another Contracting Party shall, insofar as possible, reflect the proportion of the total fishing activity in the Regulatory Area by vessels entitled to fly the flag of that Contracting Party. This proportion includes, inter alia, the

level of catches and vessel days. In determining the frequency of inspections, inspectors may take into account the fishing patterns and compliance record of any fishing vessel.

8. When participating in the Scheme, a Contracting Party shall ensure that, except when inspecting a fishing vessel entitled to fly its own flag and in accordance with its domestic law, inspectors and inspector trainees it has assigned to this Scheme:
 - (a) remain under its operational control;
 - (b) apply the provisions of this Scheme;
 - (c) do not carry arms when boarding the vessel;
 - (d) refrain from enforcing laws and regulations related to its own exclusive economic zone;
 - (e) observe generally accepted international regulations, procedures and practices relating to the safety of the vessel being inspected and its crew;
 - (f) do not interfere with fishing activities or stowage of product and, to the extent practicable, avoid action which would adversely affect the quality of the catch on board; and
 - (g) open containers in a manner that facilitates their prompt resealing, repacking and eventual re-storage.
9. All inspection, surveillance and investigation reports referred to in this Chapter, and associated images or evidence shall be treated as confidential, in accordance with Annex II.B.

Article 32 – Notification Requirements

1. Each Contracting Party shall, no later than 1 December each year, notify the Executive Secretary of:
 - (a) the contact information of the competent authority which shall act as the contact point for the purpose of immediate notification of infringements in the Regulatory Area, and any subsequent changes to this information, no less than 15 days before the change comes into effect;
 - (b) the names of inspectors and inspector trainees and the name, radio call sign and communication contact information of each inspection platform it has assigned to the Scheme. It shall notify changes to the particulars so notified, whenever possible, no less than 60 days in advance;
2. When participating in the Scheme, a Contracting Party shall ensure that the Executive Secretary is notified in advance, of the date, start time and end of each patrol by the inspection platform it has so assigned.

Duties of the Executive Secretary

3. The Executive Secretary:
 - (a) posts without delay the information referred to in paragraph 1 to the NAFO MCS Website and ensures it is made available to all Contracting Parties;
 - (b) issues the NAFO documents of identity in accordance with Annex IV.D; and
 - (c) may make suggestions to Contracting Parties participating in the Scheme for the co-ordination of their deployment of resources.

Article 33 – Surveillance Procedures

1. The inspecting Contracting Party shall ensure that its inspectors record in a Sighting Report, for each sighting in the Regulatory Area of a fishing vessel entitled to fly the flag of a Contracting Party, the following information:
 - (a) inspecting Contracting Party and the inspector(s) identification;
 - (b) identification or call sign of the inspecting platform;
 - (c) flag State, name, and call sign of the sighted fishing vessel;
 - (d) sighted fishing vessel's activity in accordance with Annex II.I.B;
 - (e) date and time of the sighting;
 - (f) position of the fishing vessel at the time of the sighting; and
 - (g) if images or footage were recorded and any other relevant observations.
2. Where an inspector observes in the Regulatory Area a fishing vessel entitled to fly the flag of a Contracting Party for which there are reasons to suspect an apparent infringement of the CEM, and where an immediate inspection is not practicable, the inspector shall:
 - (a) fill out the Surveillance Report Form set out in Annex IV.A. If the inspector has made a volumetric or catch composition evaluation of the content of a haul, the Surveillance Report shall include all relevant information regarding the composition of the tow, and refer the method used for the volumetric evaluation;
 - (b) record images of the vessel and record the position, date and time the image was recorded; and
 - (c) without delay electronically transmit the Surveillance Report and images to their competent authority.

3. The inspecting Contracting Party shall:
 - (a) without delay and no later than 15 days after the end of the deployment, submit the Sightings Report to the Executive Secretary;
 - (b) upon request, transmit a copy of images and/or footage recorded and any other available information relating to a sighting referred to in paragraph 1 to the flag State Contracting Party; and
 - (c) without delay, in respect of the sighting referred to in paragraph 2:
 - (i) submit to the Executive Secretary the Surveillance Report for transmission to the flag State Contracting Party of the vessel;
 - (ii) transmit a copy of images recorded to the flag State Contracting Party of the vessel, and;
 - (iii) ensure security and continuity of the evidence for subsequent inspections.
4. Each flag State Contracting Party shall on receipt of a Surveillance Report referred to in paragraph 2, including any image recorded, concerning a vessel entitled to fly its flag:
 - (a) conduct such investigation as may be necessary to determine appropriate follow-up action; and
 - (b) submit without delay to the Executive Secretary the investigation report.

Duties of the Executive Secretary

5. The Executive Secretary posts without delay to the NAFO MCS Website:
 - (a) the Sightings Reports referred to in paragraph 1;
 - (b) the Surveillance Reports, including any image recorded, referred to in paragraph 2 and ensures that they are automatically transmitted to the flag State Contracting Party of the vessel concerned; and
 - (c) the investigation report referred to in paragraph 4 and ensures that it is transmitted to the Contracting Party that has generated the Surveillance Report.

Article 34 – Boarding and Inspection Procedures for Contracting Parties

1. Each Contracting Party that conducts an inspection under the Scheme shall ensure that its inspectors:
 - (a) prior to boarding, notify the fishing vessel by radio, using the International Code of Signals, of the name of the inspection platform;

- (b) display, on the inspection vessel and boarding vessel, the pennant depicted in Annex IV.E;
- (c) ensure that during boarding, the inspection vessel remains at a safe distance from fishing vessels;
- (d) do not require the fishing vessel to stop or manoeuvre when towing, shooting or hauling;
- (e) limit each inspection team to a maximum of four inspectors including any inspection trainee who may accompany the inspection team for training purposes only. Where an inspection trainee accompanies the inspectors, inspectors shall, upon boarding, identify the trainee to the master. The inspection trainee shall simply observe the inspection operation conducted by the authorized inspectors and shall in no way interfere with the activities of the fishing vessel;
- (f) upon boarding, present to the master their NAFO documents of identity issued by the Executive Secretary in accordance with Article 32.3(b);
- (g) limit inspections to four hours, or the time required for the net to be hauled in and both the net and the catch to be inspected, whichever is longer, except:
 - (i) in the case of an infringement; or
 - (ii) where the inspector estimates the quantity of catch on board to be different from the quantity of catch recorded in the fishing logbook, in which case the inspector will limit the inspection to one additional hour with a view to verifying calculations and procedures, and re-examining the relevant documentation used to calculate the catch taken in the Regulatory Area and the catch on board the vessel; and
- (h) gather any relevant information used for identifying compliance with the CEM provided by the observer.

Article 35 – Obligations of Master during Inspection

1. Every master of a fishing vessel shall take such measures as may be required to facilitate inspection by:
 - (a) ensuring, where an inspection vessel has signalled that an inspection is about to commence, that any net about to be hauled is not taken on board for at least 30 minutes following the signal from the inspection vessel;
 - (b) upon request by an inspection platform and to the extent compatible with good seamanship, facilitating boarding by the inspectors;
 - (c) providing a boarding ladder in accordance with Annex IV.G;

- (d) ensuring any mechanical pilot hoist is fit for use in a safe manner including safe access between the hoist to the deck;
- (e) providing the inspectors access to all relevant areas, decks and rooms, processed and unprocessed catch, nets or other gear, equipment, and any relevant documents which they consider necessary to verify compliance with the CEM;
- (f) recording and providing to inspectors upon request, coordinates pertaining to the start and end locations of any trial tow conducted in reference to Article 6.6(b)(iii);
- (g) upon request of the inspector, producing registration documents, drawings or descriptions of fish rooms, production logbooks and stowage plans and rendering such assistance as the inspector reasonably requires to ascertain that actual stowage of catch conforms with the stowage plan;
- (h) facilitating the taking of samples of processed fish by inspectors, for the purpose of species identification through DNA analysis;
- (i) refraining from interfering with any contact between the inspectors and the observer;
- (j) taking such action as may be necessary to preserve the integrity of any seal affixed by the inspectors and of any evidence remaining on board, until otherwise directed by the flag State Contracting Party;
- (k) to secure the continuity of evidence, where seals have been affixed and/or evidence has been secured, sign the appropriate section of the inspection report acknowledging the placement of seals;
- (l) ceasing fishing when requested to do so by the inspectors in accordance with Article 38.2(b);
- (m) providing, upon request, the use of the vessel's communication equipment and operator for messages to be sent out and received by the inspectors;
- (n) at the request of the inspectors, removing any part of the fishing gear which appears to be unauthorized under the CEM;
- (o) where the inspectors have made any entries in the logbooks, providing the inspector with a copy of each page where such entry appears, and at the request of the inspectors, signing each page to confirm that it is a true copy, and
- (p) when requested to cease fishing, not resuming fishing until:
 - (i) the inspectors have completed the inspection and secured any evidence; and

- (ii) the master has signed the appropriate section of the inspection report as referred to in paragraph 1(j).

Article 36 – Inspection Report and Follow-up

1. Each Contracting Party shall ensure that its inspectors complete an inspection report in the form set out in Annex IV.B in relation to each inspection and apply the provisions of this Article in relation thereto.
2. For the purpose of the inspection report:
 - (a) a fishing trip is considered current where the inspected vessel has on board catch harvested in the Regulatory Area during the trip;
 - (b) when comparing entries in the production logbook with entries in the fishing logbook the inspectors shall convert production weight into live weight guided by conversion factors used by the master;
 - (c) the inspectors shall:
 - (i) summarize from logbook records the vessel's catch in the Regulatory Area by species and by Division for the current fishing trip;
 - (ii) record summaries as well as differences between the recorded catch and their estimates of the catch onboard in the appropriate sections of the inspection report;
 - (iii) upon completion of the inspection, sign the inspection report and present the inspection report to the master for signature and comment, and to any witness who may wish to submit a statement;
 - (iv) immediately notify their competent authority and transmit to it the information and images within 24 hours, or at the earliest opportunity; and
 - (v) provide a copy of the report to the master, duly noting in the appropriate section of the inspection report any refusal by the master to acknowledge receipt.
3. The inspecting Contracting Party shall:
 - (a) submit the at-sea inspection report to the Executive Secretary, if possible within 30 days of the inspection;
 - (b) where the inspectors issue a notice of an infringement, the procedure referred to in Article 37.2 applies.

Duties of the Executive Secretary

4. The Executive Secretary posts without delay the at-sea inspection reports referred to in paragraph 3(a) to the NAFO MCS Website and ensures they are made available to all Contracting Parties.

Use of Surveillance and Inspection Reports

5. Each Contracting Party shall ensure that inspection and surveillance reports prepared by NAFO inspectors have equivalent evidentiary status for establishing facts as inspection and surveillance reports of its own inspectors. However, nothing in this Article requires a Contracting Party to accord greater evidentiary weight to an inspection report of an inspector of another Contracting Party than would be accorded to it in similar proceedings by the inspector's own Contracting Party.
6. Contracting Parties shall cooperate to facilitate judicial or other proceedings initiated as follow-up to a report submitted by a NAFO inspector in accordance with the Scheme.

Article 37 – Procedures Relating to Infringements

Duties of the Inspecting Contracting Party

1. Each inspecting Contracting Party shall ensure that its inspectors upon detecting an infringement of the CEM:
 - (a) record the infringement in the inspection report;
 - (b) enter and sign a notation in the fishing logbook or other relevant document of the inspected vessel indicating the date, coordinates, and nature of the infringement, make a copy of any relevant entry and request that the master sign each page to verify that it is a true copy of the original;
 - (c) record images of any gear, catch, or other evidence the inspector deems necessary related to the infringement;
 - (d) affix securely the inspection seal depicted in Annex IV.F, as appropriate, and duly note the action taken and the serial number of each seal in the inspection report;
 - (e) request the master:
 - (i) in order to secure the continuity of proof and evidence, to sign the appropriate section of the inspection report acknowledging the placement of seals, and
 - (ii) to give a written statement in the appropriate section of the inspection report;

- (f) request that the master remove any part of the fishing gear which appears to be unauthorized under the CEM; and
 - (g) notify any observer on board of the infringement.
2. The inspecting Contracting Party shall:
- (a) within 24 hours,
 - (i) transmit to the competent authority of the flag State Contracting Party written notification of the infringement reported by its inspectors. The written notification shall:
 - (1) include the information entered in the Infringements section of the inspection report, cite the relevant measures and describe in detail the basis for issuing the notice of infringement, and the evidence in support of the notice; and
 - (2) where possible, be accompanied by images of any gear, catch or other evidence related to the infringement referred to in paragraph 1.
 - (ii) transmit a copy of the written notification to the Executive Secretary.
 - (b) within 10 days of the inspection vessel's return to port, submit to the Executive Secretary the at-sea inspection report consistent with Annex IV.B.

Duties of the flag State Contracting Party

3. The follow-up to infringements by the flag State Contracting Party shall be conducted in accordance with the provisions of Article 39.

Duties of the Executive Secretary

- 4. The Executive Secretary transmits without delay to the other Contracting Parties participating in the Scheme the written notification of the infringement including a copy of the report of inspection consistent with Annex IV.B.
- 5. The Executive Secretary transmits electronic notification that an infringement has been issued to a particular vessel without delay to the competent authority of each Contracting Party identified under Article 32.1(a).
- 6. The Executive Secretary posts without delay the at-sea inspection report to the NAFO MCS Website and ensures it is made available to all Contracting Parties.

Article 38 – Additional Procedures for Serious Infringements

List of Serious Infringements

1. Each of the following violations constitutes a serious infringement:
 - (a) fishing an "Others" quota without prior notification to the Executive Secretary contrary to Article 5;
 - (b) fishing an "Others" quota more than five working days following closure by the Executive Secretary contrary to Article 5;
 - (c) directed fishing for a stock which is subject to a moratorium, or for which fishing is otherwise prohibited, contrary to Article 6;
 - (d) directed fishing for stocks or species after the date of closure by the flag State Contracting Party notified to the Executive Secretary contrary to Article 5;
 - (e) fishing in a closed area, contrary to Article 9.6 and Article 17;
 - (f) fishing with a bottom fishing gear in an area closed to bottom fishing activities, contrary to Chapter II;
 - (g) fishing with an unauthorized mesh size, grid or grate bar spacing, or without the use of grid or grate, contrary to Article 13;
 - (h) fishing without a valid authorization issued by the flag State Contracting Party contrary to Article 25;
 - (i) mis-recording of catches contrary to Article 28;
 - (j) failing to carry or interfering with the operation of the satellite monitoring system contrary to Article 29;
 - (k) failure to communicate messages related to catch contrary to Article 12.1(a) or Article 28;
 - (l) obstructing, intimidating, interfering with, bribing or attempting to bribe, compromising the safety of or otherwise preventing inspectors or observers from performing their duties, including prior, during or after the relevant observed or inspected fishing trip;
 - (m) committing an infringement where there is no observer on board and the vessel is not subject to electronic observation;
 - (n) concealing, tampering with or disposing of evidence related to an investigation, including the breaking or tampering of seals or gaining access to sealed areas;

- (o) presentation of falsified documents or providing false information to an inspector that would prevent a serious infringement from being detected;
- (p) landing, transhipping or making use of other port services:
 - (i) in a port not designated in accordance with the provisions of Article 43.1; or
 - (ii) without authorization of the port State referred to in Article 43.6.
- (q) failure to comply with the provisions of Article 45.1;
- (r) failure to carry an observer if required;
- (s) failing to carry on board an EMS contrary to Article 30.9, if required, or to tamper with the EMS;
- (t) failing to comply with the obligations of the master established in the VMP in a manner that prevents the EMS on board from being fully operational.

Duties and Authority of the Inspectors

- 2. Where citing a vessel for having committed a serious infringement, the inspector shall:
 - (a) take all measures necessary to ensure security and continuity of the evidence, including, as appropriate, sealing the vessel's hold and/or fishing gear for further inspection;
 - (b) request that the master cease all fishing activity that appears to constitute a serious infringement; and
 - (c) immediately notify the inspector's competent authority, and transmit to it the information and, where possible images, within 24 hours, for further notification to the flag State Contracting Party in accordance with Article 37.

Duties of the flag State Contracting Party

- 3. In the case of a serious infringement, the flag State Contracting Party shall:
 - (a) acknowledge receipt of the related information and images without delay;
 - (b) ensure the inspected vessel does not resume fishing until further notification;
 - (c) using all information and material available, review the case and, within 72 hours:
 - (i) require the vessel to proceed immediately to a port for a full inspection under its authority, if any of the following serious infringements are apparent:

- (1) directed fishing for a stock which is subject to a moratorium;
- (2) directed fishing for a stock for which fishing is prohibited under Article 6;
- (3) mis-recording of catch, contrary to Article 28;
- (4) repetition of the same serious infringement during a 6 months period; or
- (5) directed fishing during a closed time contrary to Article 5.5(k) or fishing with an unauthorized mesh size, grid or grate bar spacing, or without the use of grid or grate, contrary to Article 13.2(d) when there is no observer on board and the vessel is directing for cod in Division 3L.

Where the serious infringement is mis-recording of catch, the full inspection shall ensure the physical inspection and enumeration of total catch on board, by species and Division.

In this paragraph, "mis-recording of catches" means a difference of at least 10 tonnes or 20%, whichever is greater, between the inspectors' estimates of processed catch on board, by species or in total, and the figures recorded in the production logbook, calculated as a percentage of the production logbook figures.

Subject to the consent of the flag State Contracting Party and, if the port state Contracting Party is different, inspectors of another Contracting Party may participate in the full inspection and enumeration of the catch.

- (ii) if (i) does not apply, the flag State Contracting Party shall either:
 - (1) allow the vessel to resume fishing. In such a case, the flag State Contracting Party shall provide written justification to the Executive Secretary on why the vessel has not been ordered to port no later than 3 working days following the notice of infringement; or
 - (2) require the vessel to proceed immediately to a port for a full physical inspection, under its authority.
4. Where the flag State Contracting Party orders the inspected vessel to port, the inspectors on board may board or remain onboard the vessel as it proceeds to port, provided that the flag State Contracting Party does not require the inspector to leave the vessel.

Duties of the Executive Secretary

5. The Executive Secretary transmits without delay to the inspecting Contracting Party the written justification referred to in paragraph 3(c)(ii) and makes that justification available to any Contracting Party, on request.

Article 39 – Follow-up to Infringements

Duties of the flag State Contracting Party

1. In the case of an infringement by a vessel flying its flag, the flag State Contracting Party shall:
 - (a) investigate fully, including as appropriate, by physically inspecting the fishing vessel at the earliest opportunity;
 - (b) cooperate with the inspecting Contracting Party to preserve the evidence and the chain of custody in a form that will facilitate proceedings in accordance with its laws;
 - (c) take immediate judicial or administrative action in conformity with its national legislation against the persons responsible for the vessel;
 - (d) ensure that sanctions applicable in respect of infringements are adequate in severity to be effective in securing compliance, deterring further infringements or their repetition and depriving the offenders of the benefits accruing from the infringement; and
 - (e) to the extent possible within domestic legislation, ensure that sanctions applicable in respect of repeated serious infringements, particularly those identified under Article 38.3(c)(i)(3) and (4), are adequate in severity to be effective in securing compliance, deterring further infringements or their repetition and depriving the offenders of the benefits accruing from the infringement.
2. The judicial or administrative action and sanctions referred to in paragraph 1 (c), (d) and (e) may include, but are not limited to, the following, depending on the gravity of the offence and in accordance with domestic law:
 - (a) fines;
 - (b) seizure of the vessel, illegal fishing gear and catches;
 - (c) suspension or withdrawal of authorization to conduct fishing activities;
 - (d) reduction or cancellation of any fishing allocations;
 - (e) increased or additional reporting requirements; inter alia, enhanced reporting frequency or additional data to be reported; and
 - (f) increased or additional monitoring requirements inter alia, deployment of an observer or an inspector on board or remote electronic monitoring.

3. Each Contracting Party shall ensure that it treats all notices of infringement as if the infringement was reported by its own inspectors.
4. The flag State Contracting Party and the port State Contracting Party shall immediately notify the Executive Secretary of:
 - (a) the judicial or administrative action and sanctions referred to in paragraph 1(c) and (d);
 - (b) as soon as practicable but no later than four months following the occurrence of a serious infringement, a report setting out the progress of the investigation, including details of any action it has taken or has initiated in relation to the infringement; and
 - (c) upon completion of its investigation, a report on the final outcome.

Duties of the Executive Secretary

5. The Executive Secretary posts without delay the final outcome report referred to in paragraph 4(c) to the NAFO MCS Website and ensures that it is made available to all Contracting Parties.

Article 40 – Contracting Party Reports on Inspection, Surveillance and Infringements

Duties of Contracting Parties

1. Each Contracting Party shall annually by 1 March report to the Executive Secretary in accordance with the Scheme:
 - (a) the number of inspections of fishing vessels entitled to fly the flag of each Contracting Party it has conducted in the previous calendar year;
 - (b) the name of every fishing vessel in relation to which its inspectors have issued a notice of infringement including the date and position of the inspection and the nature of the infringement;
 - (c) the number of hours flown by its surveillance aircraft on patrol, the number of sightings made by such aircraft surveillance reports it has transmitted and, for each such report, the date, time and position of the sightings;
 - (d) the action it has taken during the previous year, including a description of the specific terms of any judicial or administrative actions or sanctions imposed (e.g. amount of fines, value of forfeited fish and/or gear, written warnings given), concerning:
 - (i) every infringement cited by an inspector related to vessels entitled to fly its flag; and
 - (ii) each Surveillance Report it has received.

2. The reports referred to in subparagraph 1(d) shall indicate the current status of the case (e.g. case pending, under appeal, still under investigation, closed). The Contracting Party shall continue to list such infringement on each subsequent report until it reports the final disposition of the infringement.
3. A Contracting Party shall provide a sufficiently detailed explanation regarding every infringement for which it has taken no action or where no penalties were imposed.

Duties of the Executive Secretary

4. The Executive Secretary makes available to all Contracting Parties at the annual meeting reports that summarize the information contained in paragraph 1.

Article 41 – Dispute Resolution Regarding the Interpretation or Application of this Scheme

1. Where two or more Contracting Parties disagree on the interpretation or application of this Chapter, they shall consult with each other with a view to resolving their disagreement.
2. Where following consultations the disagreement remains unresolved, the Chair of the Standing Committee on International Control (STACTIC) shall at the request of one of them convene a special meeting of STACTIC to consider the dispute and seek to recommend a resolution to the Contracting Parties concerned.
3. No later than 60 days following its special meeting, STACTIC shall transmit a report to all members of the Commission setting out its findings and recommendations.
4. No later than 60 days after receiving the report referred to in paragraph 3, any member of the Commission may, by request addressed to the Chair of the Commission through the Executive Secretary, ask the Commission to convene a special meeting to consider the report and to take appropriate action.
5. Following receipt of the request referred to in paragraph 4, the Commission considers whether to convene a special meeting to consider the report.

CHAPTER VII PORT STATE CONTROL

Article 42 – Scope

Subject to the right of the port State Contracting Party to impose requirements of its own under domestic laws and regulations for entry or denial to its ports, the provisions in this Chapter apply to landings, transshipments, or use of ports of Contracting Parties by fishing vessels entitled to fly the flag of another Contracting Party, conducting fishing activities in the Regulatory Area. The provisions apply to vessels carrying fish caught in the Regulatory Area, or fish products originating from such fish, that have not been previously landed or transhipped at a port.

This Chapter also sets out the respective duties of the flag State Contracting Party and obligations of the master of fishing vessels requesting entry to a port of a Contracting Party.

This Chapter shall be:

- (a) interpreted in a manner consistent with international law, including the right of port access in case of force majeure; and
- (b) applied in a fair and transparent manner.

All inspection and investigation reports and associated images or evidence, and forms referred to in this Chapter shall be treated as confidential, in accordance with Annex II.B.

Article 43 – Duties of the port State Contracting Party

Designated ports, prior request periods and contact points

1. The port State Contracting Party shall notify the Executive Secretary of a list of designated ports to which fishing vessels may be permitted entry for the purpose of landing, transshipment and/or provision of port services, and shall to the greatest extent possible ensure that each designated port has sufficient capacity to conduct inspections pursuant to this Chapter. Any subsequent changes to the list shall be posted in replacement of the previous one no less than fifteen days before the change comes into effect.
2. The port State Contracting Party shall establish a minimum prior request period. The prior request period should be 3 working days before the estimated time of arrival. However, the port State Contracting Party may make provisions for another prior request period, taking into account, inter alia, catch product type or the distance between fishing grounds and its ports. The port State Contracting Party shall notify the Executive Secretary of its prior request period
3. The port State Contracting Party shall designate the competent authority which shall act as the contact point for the purposes of receiving requests in accordance with Article 45 (1), (2) and/or (4), receiving confirmations in accordance with Article 44.2 and issuing authorizations in accordance with paragraph 6. The port

State Contracting Party shall notify the Executive Secretary of the competent authority name and its contact information.

4. The requirements contained in paragraphs 1, 2 and 3 do not apply to a Contracting Party that does not permit landings, transshipments, or use of ports by vessels entitled to fly the flag of another Contracting Party.

Procedure to allow port entrance

5. The port State Contracting Party shall forward a copy of the form as referred to in Article 45 (1 and 2) without delay to the flag State Contracting Party of the vessel and to the flag State Contracting Party of donor vessels where the vessel has engaged in transshipment operations.
6. Fishing vessels may not enter port without prior authorization by the competent authorities of the port State Contracting Party. Authorization to land, tranship or make use of other port services shall only be given if the confirmation from the flag State Contracting Party as referred to in Article 44.2 has been received.
7. By way of derogation from paragraph 6 the port State Contracting Party may authorize all or part of a landing in the absence of the confirmation referred to in paragraph 6. In such cases the fish concerned shall be kept in storage under the control of the competent authorities. The fish shall only be released to be sold, taken over, produced or transported once the confirmation referred to in paragraph 6 has been received. If the confirmation has not been received within 14 days of the landing the port State Contracting Party may confiscate and dispose of the fish in accordance with national rules.
8. The port State Contracting Party shall without delay notify the master of the fishing vessel of its decision on whether to authorize or deny the port entry, or if the vessel is in port, the landing, transshipment and other use of port. If the vessel entry is authorized the port State returns to the master a copy of the form PSC 1 or 2 with Part C duly completed. This copy shall also be submitted to the Executive Secretary without delay. In case of a denial the port State shall also notify the flag State Contracting Party.
9. In case of cancellation of the prior request referred to in Article 45, paragraph 2, the port State Contracting Party shall without delay submit to the Executive Secretary a copy of the cancelled PSC 1 or 2.

Inspection of vessels in port

10. Unless otherwise required in a recovery plan, the port State Contracting Party shall carry out inspections of at least 15% of all such landings or transshipments during each reporting year.

In determining which vessels to inspect, port State Contracting Parties shall give priority to:

- (a) vessels that have been denied entry or use of a port in accordance with this Chapter or any other provision of the CEM; and

- (b) requests from other Contracting Parties, States or RFMOs that a particular vessel be inspected.
11. Inspections shall be conducted consistent with Annex IV.H by authorized Contracting Party inspectors who shall present documents of identity to the master of the vessel prior to the inspection.
 12. The port State Contracting Party may invite inspectors of other Contracting Parties to accompany their own inspectors and observe the inspection.
 13. An inspection of a landing or transshipment in port shall involve the monitoring of the entire landing or transshipment of fishery resources in that port, as applicable. During any such inspection, the port State Contracting Party shall, at a minimum:
 - (a) cross-check against the quantities of each species landed or transhipped,
 - (i) the quantities by species recorded in the logbook;
 - (ii) catch and activity reports; and
 - (iii) all information on catches provided in the prior notification (PSC 1 or 2);
 - (b) verify and record the quantities by species of catch remaining on board upon completion of landing or transshipment;
 - (c) verify any information from inspections carried out in accordance with Chapter VI;
 - (d) verify all nets on board and record mesh size measurements;
 - (e) verify fish size for compliance with minimum size requirements;
 - (f) where relevant, verify species for compliance with accuracy of catch declaration.
 14. The port State Contracting Party shall make all possible effort to communicate with the master or senior crew members of the vessel, as well as with the observer, including where possible and where needed, that the inspector is accompanied by an interpreter.
 15. The port State Contracting Party shall make all possible efforts to avoid unduly delaying the fishing vessel and ensure that the vessel suffers the minimum interference and inconvenience and that unnecessary degradation of the quality of the fish is avoided.
 16. Each inspection shall be documented by completing form PSC 3 (port State Control inspection form) as set out in Annex IV.C. The process for completion and handling of the PSC 3 report shall include the following:
 - (a) the inspectors shall identify and provide details of any infringement to the CEM detected during the port inspection. Details shall include all relevant

information available, in reference to infringements detected at sea during the current trip of the inspected fishing vessel;

- (b) the inspectors may insert any comments they consider relevant;
- (c) the master shall be given the opportunity to add any comments or objection to the report, and, as appropriate, to contact the relevant authorities of the flag State in particular where the master has serious difficulties in understanding the content of the report;
- (d) the inspectors shall sign the report and request that the master sign the report. The master's signature on the report shall serve only as acknowledgment of the receipt of a copy of the report;
- (e) the master of the vessel shall be provided with a copy of the report containing the result of the inspection, including possible measures that could be taken.

17. The port State Contracting Party shall without delay submit to the Executive Secretary a copy of each port State Control inspection report.

Article 44 – Duties of the flag State Contracting Party

1. The flag State Contracting Party shall ensure that the master of any fishing vessel entitled to fly its flag complies with the obligations relating to masters set out in Article 45.
2. The flag State Contracting Party of a fishing vessel intending to land, tranship or make use of other port services, or where the vessel has engaged in transshipment operations outside a port, the flag State Contracting Party or parties, shall confirm by returning a copy of the form, PSC 1 or 2, transmitted in accordance with Article 43.5 with part B duly completed, stating that:
 - (a) the fishing vessel declared to have caught the fish had sufficient quota for the species declared;
 - (b) the declared quantity of fish on board has been duly reported by species and taken into account for the calculation of any catch or effort limitations that may be applicable;
 - (c) the fishing vessel declared to have caught the fish had authorization to fish in the areas declared; and
 - (d) the presence of the vessel in the area in which it has declared to have taken its catch has been verified by VMS data.
3. The flag State Contracting Party shall notify the Executive Secretary of the contact information of the competent authority, which shall act as the contact point for the purposes of receiving requests in accordance with Article 43.5 and providing confirmation in accordance with Article 43.6.

Article 45 – Obligations of the Master of a Fishing Vessel

1. The master or the agent of any fishing vessel intending to enter port shall forward the request for entry to the competent authorities of the port State Contracting Party within the request period referred to in Article 43.2. Such request shall be accompanied by the form provided for in Annex I.L with Part A duly completed as follows:
 - (a) Form PSC 1, as referred to in Annex I.L.A shall be used where the vessel is carrying, landing or transhipping its own catch; and
 - (b) Form PSC 2, as referred to in Annex I.L.B, shall be used where the vessel has engaged in transshipment operations. A separate form shall be used for each donor vessel.
 - (c) Both forms PSC 1 and PSC 2 shall be completed in cases where a vessel carries, lands or transships its own catch and catch that was received through transshipment.
2. A master or Agent may cancel a prior request by notifying the competent authorities of the port they intended to use. The request shall be accompanied by a copy of the original PSC 1 or 2 with the word “cancelled” written across it.
3. The master of a fishing vessel shall not commence landing or transshipment operations, or make use of other port services, before authorization has been given by the port State Contracting Party or prior to the Estimated Time of Arrival (ETA) as reported in PSC 1 or PSC 2 has expired. However, landing, transshipment operations and make use of other port services may commence prior to ETA with permission from the competent authorities of the port State Contracting Party.
4. The master of a fishing vessel shall:
 - (a) co-operate with and assist in the inspection of the fishing vessel conducted in accordance with these procedures and shall not obstruct, intimidate or interfere with the port State inspectors in the performance of their duties;
 - (b) provide access to any areas, decks, rooms, catch, nets or other gear or equipment, and provide any relevant information which the port State inspectors request including copies of any relevant documents.

Article 46 – Duties of the Executive Secretary

1. The Executive Secretary posts without delay the following information to the NAFO MCS Website and ensures it is made available to all Contracting Parties:
 - (a) the list of designated ports and any changes thereto;
 - (b) the prior request periods established by each port State Contracting Party;
 - (c) the information about the designated competent authorities in each flag State Contracting Party; and

- (d) copies of all PSC 1 and 2 forms transmitted by port State Contracting Parties.
2. The Executive Secretary posts without delay the port inspection reports referred to in Article 43.16 (PSC 3 form) to the NAFO MCS Website and ensures they are made available to all Contracting Parties.
 3. All forms related to a specific landing or transshipment shall be posted together.

Article 47 – Infringements Detected During In-Port Inspections

1. Where an infringement is detected during an inspection of a vessel in port, the relevant provisions of Articles 37 to 40 shall apply.

CHAPTER VIII NON-CONTRACTING PARTY SCHEME

Article 48 – General Provisions

1. The purpose of this Chapter is to promote compliance of non-Contracting Party vessels with recommendations established by NAFO and to prevent, deter and eliminate IUU fishing by non-Contracting Party vessels (hereinafter referred to as “NCP” vessels) that undermine the effectiveness of the Conservation and Enforcement Measures established by the Organization.
2. Nothing in this Chapter shall be construed to:
 - (a) affect the sovereign right of any Contracting Party to take additional measures to prevent, deter and eliminate IUU fishing by NCP vessels or, where evidence so warrants, take such action as may be appropriate, consistent with international law; or
 - (b) prevent a Contracting Party from allowing an NCP vessel entry to its ports for the purpose of conducting an inspection of, or taking appropriate enforcement action, which, if there is sufficient proof of IUU fishing, is at least as effective as denial of port entry in preventing, deterring and eliminating IUU fishing.
3. This Chapter shall be:
 - (a) interpreted in a manner consistent with international law, including the right of port access in case of force majeure or distress; and
 - (b) applied in a fair and transparent manner.
4. Each Contracting Party shall ensure that vessels entitled to fly its flag do not engage in joint fishing activities with NCP vessels referred to in Article 49, including receiving or delivering transshipments of fish to or from an NCP vessel.

Article 49 – Presumption of IUU fishing

1. An NCP vessel is presumed to have undermined the effectiveness of the CEM, and to have engaged in IUU fishing, if it has been:
 - (a) sighted or identified by other means as engaged in fishing activities in the Regulatory Area; and/or
 - (b) involved in transshipment with another NCP vessel sighted or identified as engaged in fishing activities inside or outside the Regulatory Area.
2. A vessel is presumed to have engaged in IUU fishing if it has been included in the IUU list of the following RFMOs: the Commission for the Conservation of Antarctic Marine Living Resources (CCAMLR), the Commission for the Conservation of Southern Bluefin Tuna (CCSBT), the Inter-American Tropical

Tuna Commission (IATTC), the International Commission for the Conservation of Atlantic Tunas (ICCAT), the Indian Ocean Tuna Commission (IOTC), the General Fisheries Commission for the Mediterranean (GFCM), the North East Atlantic Fisheries Commission (NEAFC), the North Pacific Fisheries Commission (NPFCC), the South East Atlantic Fisheries Organisation (SEAFO), the Southern Indian Ocean Fisheries Agreement (SIOFA), the South Pacific Regional Fisheries Management Organisation (SPRFMO) and the Western and Central Pacific Fisheries Commission (WCPFC).

Article 50 – Sighting and Inspection of NCP Vessels in the NRA

1. Each Contracting Party with an inspection and/or surveillance presence in the Regulatory Area authorized under the Joint Inspection and Surveillance Scheme that sights or identifies an NCP vessel engaged in fishing activities in the NRA shall:
 - (a) transmit immediately the information to the Executive Secretary using the format of the surveillance report set out in Annex IV.A;
 - (b) attempt to inform the Master that the vessel is presumed to be engaged in IUU fishing and that this information will be distributed to all Contracting Parties, relevant Regional Fisheries Management Organizations (RFMOs) and the flag State of the vessel;
 - (c) if appropriate, request permission from the Master to board the vessel for inspection; and
 - (d) where the Master agrees to inspection:
 - (i) transmit the inspector’s findings to the Executive Secretary without delay, using the inspection report form set out in Annex IV.B; and
 - (ii) provide a copy of the inspection report to the Master.

Duties of the Executive Secretary

2. The Executive Secretary, within one business day, posts the information received pursuant to this Article to the secure part of the NAFO website and distributes it to all Contracting Parties, other relevant RFMOs, and to the flag State of the vessel as soon as possible.

Article 51 – Port Entry and Inspection of NCP vessels

Duties of the Master of an NCP vessel

1. Each Master of an NCP vessel shall request permission to enter port from the competent authority of the port State Contracting Party in accordance with the provisions of Article 45.

Duties of the port State Contracting Party

2. Each port State Contracting Party shall:
 - (a) forward without delay to the flag State of the vessel and to the Executive Secretary the information it has received pursuant to Article 45;
 - (b) refuse port entry to any NCP vessel where:
 - (i) the Master has not fulfilled the requirements set out in Article 45 paragraph 1; or
 - (ii) the flag State has not confirmed the vessel's fishing activities in accordance with Article 44 paragraph 2;
 - (c) inform the Master or agent, the flag State of that vessel, and the Executive Secretary of its decision to refuse port entry, landing, transshipment or other use of port of any NCP vessel;
 - (d) withdraw denial of port entry only if the port State has determined there is sufficient proof that the grounds on which entry was denied were inadequate or erroneous or that such grounds no longer apply;
 - (e) inform the Master or agent, the flag State of that vessel, and the Executive Secretary of its decision to withdraw denial of port entry, landing, transshipment or other use of port of any NCP vessel;
 - (f) where it permits entry, ensure the vessel is inspected by duly authorized officials knowledgeable in the CEM and that the inspection is carried out in accordance with Article 43 paragraphs 11 – 17; and
 - (g) send a copy of the inspection report and details of any subsequent action it has taken to the Executive Secretary without delay.
3. Each Contracting Party shall ensure that no NCP vessel engages in landing, or transshipment operations or other use of its ports unless the vessel has been inspected by its duly authorized officials knowledgeable in the CEM and the Master establishes that the fish species on board subject to the NAFO Convention were harvested outside the Regulatory Area or in compliance with the CEM.

Duties of the Executive Secretary

4. The Executive Secretary posts without delay the information received pursuant to this Article to the secure part of the NAFO website, and distributes it to all Contracting Parties, relevant RFMOs, the flag State of the vessel and the state of which the vessel's master is a national, if known.

Article 52 – Provisional IUU Vessel List

1. In addition to information submitted from Contracting Parties in accordance with Articles 50 and 51, each Contracting Party may, without delay, transmit to

the Executive Secretary any information that may assist in identification of any NCP vessel that might be carrying out IUU fishing in the Regulatory Area.

Duties of the Executive Secretary

2. The Executive Secretary:

- (a) establishes and maintains a list of vessels presumed to have engaged in IUU fishing, as defined in Article 49. This shall be referred to as the Provisional IUU Vessel List;
- (b) upon receipt, records in the Provisional IUU Vessel List:
 - (i) the information received pursuant to paragraph 1;
 - (ii) for all vessels, including, if available, the name of the vessel, its flag State, call sign, registration number, IMO number, photographs, and any other identifying features, including the identification of the original listing RFMO and any other information provided to support the listing;
- (c) posts the Provisional IUU Vessel List and all updates to the secure part of the NAFO website;
- (d) for vessels included in the Provisional IUU Vessel List pursuant to Article 49.1(a) and (b):
 - (i) advises the flag State of the NCP vessel listing, including:
 - (1) the reasons and supporting evidence;
 - (2) a copy of the CEM and a link to its place on the NAFO website;
 - (ii) requests that the flag State of the NCP vessel:
 - (1) take all measures to ensure that the vessel immediately ceases all fishing activities that undermine the effectiveness of the CEM;
 - (2) report within 30 days from the date of the request on the measures it has taken with respect to the vessel concerned; and
 - (3) state any objections it may have to including the vessel in the IUU Vessel List;
 - (iii) transmits to the flag State of the NCP vessel any additional information received pursuant to Articles 49-51 and 52.1 in respect of vessels entitled to fly its flag that have already been included in the Provisional IUU Vessel List;
 - (iv) distributes any information received from the flag State to all Contracting Parties; and

- (v) advises the flag State of the NCP vessel of the dates STACTIC and the Commission will consider listing the vessel in the IUU Vessel List, and invites the flag State to attend the meeting as an observer where it will be given the opportunity to respond to the report submitted in accordance with paragraph 3(e)(ii).

Article 53 – IUU Vessel List

Listing a Vessel on the IUU Vessel List

1. STACTIC recommends to the Commission whether each vessel listed in the Provisional IUU Vessel List should be:
 - (a) deleted from the Provisional IUU Vessel List;
 - (b) retained in the Provisional IUU Vessel List, pending receipt of further information from the flag State, or relevant RFMO, or other sources; or
 - (c) transferred to the IUU Vessel List which in the case of vessels included in the Provisional list pursuant to Article 49.1(a) and (b), shall only be possible upon expiration of the period referred to in Article 52.2(d)(ii)(2).
2. STACTIC may recommend that the Commission update the identifying features of vessels included in either the Provisional IUU Vessel List or the IUU Vessel List.

Deleting a Vessel from the IUU Vessel List

3. STACTIC may advise that the Commission delete a vessel from either the Provisional IUU Vessel List or the IUU Vessel List if such vessel has been de-listed by the RFMO that originally listed it, or where it is satisfied that the flag State of a vessel concerned has provided sufficient evidence to establish that:
 - (a) it has taken effective action to address the IUU fishing of such vessel, including prosecution and imposition of sanctions of adequate severity;
 - (b) it has taken measures to prevent such vessel from engaging in further IUU fishing under its flag;
 - (c) such vessel has changed ownership, and
 - (i) the previous owner no longer has any legal, financial or real interest in such vessel, or exercises no control over it; or
 - (ii) the new owner has no legal, financial or real interest in, nor exercises control over, another vessel listed in the IUU Vessel List or any similar IUU list maintained by any of the RFMOs listed in Article 49.2, and has not otherwise been engaged in IUU activities;
 - (d) such vessel did not take part in IUU fishing; or

- (e) such vessel has sunk, been scrapped, or been permanently reassigned for purposes other than fishing activities.
4. The Commission may make any changes to listings in the IUU Vessel List. The Commission determines the final composition of the IUU Vessel List.

Duties of the Executive Secretary

5. The Executive Secretary:
- (a) posts the IUU Vessel List to the NAFO website, including the name and flag State and, if available, the call sign, hull number, IMO number, previous name(s) and flag(s), photographs, and any other identifying features for each vessel, including the RFMO that originally listed the vessel;
 - (b) for vessels included in the Provisional IUU Vessel List pursuant to Article 49.1(a) and (b), notifies the flag State of the Commission's decision to list each vessel entitled to fly its flag on NAFO's IUU Vessel List;
 - (c) transmits the IUU Vessel List and any relevant information, including the reasons for listing or de-listing each vessel, to the RFMOs listed in Article 49.2;
 - (d) immediately removes any vessel included in the IUU Vessel List if such vessel has been de-listed by the RFMO that originally listed it and places it on the Provisional IUU Vessel List, noting the delisting; and
 - (e) advises STACTIC of any action taken pursuant to this Article.

Article 54 – Action Against Vessels Listed in the IUU Vessel List

1. Each Contracting Parties shall take all measures necessary to deter, prevent, and eliminate IUU fishing, in relation to any vessel listed in the IUU Vessel List, including:
- (a) prohibiting any vessel entitled to fly its flag, from, except in the case of force majeure, participating in fishing activities with such vessel, including but not limited to joint fishing operations;
 - (b) prohibiting the supply of provisions, fuel or other services to such vessel;
 - (c) prohibiting entry into its ports of such vessel, and if the vessel is in port, prohibiting use of the port, except in the case of force majeure, distress, for the purposes of inspection, or for taking appropriate enforcement action;
 - (d) prohibiting change of crew, except as required in relation to force majeure;
 - (e) refusing to authorize such vessel to fish in waters under its national jurisdiction;
 - (f) prohibiting chartering of such vessel;

- (g) refusing to entitle such vessels to fly its flag;
- (h) prohibiting landing and importation of fish from onboard or traceable to such vessel;
- (i) encouraging importers, transporters and other sectors concerned, to refrain from negotiating transshipment of fish with such vessels; and
- (j) collecting and exchanging any appropriate information regarding such vessel with the other Contracting Parties, non-Contracting Parties and RFMOs with the aim of detecting, deterring and preventing the use of false import or export certificates in relation to fish or fish product from such vessels.

Article 55 – Action Against flag States

1. Contracting Parties shall jointly and/or individually request the cooperation of the flag State of each NCP vessel listed in the IUU Vessel List with a view to prevent, deter and eliminate future IUU activities by such vessel.
2. The Commission shall review annually the actions taken by the flag States referred to in paragraph 1 with a view to identifying for follow-up action any that has not taken action sufficient to prevent, deter and eliminate IUU activities by any vessel entitled to fly its flag listed in the IUU Vessel List.
3. Each Contracting Party should, to the extent possible and consistent with its international obligations and in accordance with applicable legislation, restrict the export and transfer of any fishing vessel entitled to fly its flag to any State identified pursuant to paragraph 2.

-	Contracting Party does not have a quota allocation
*	Ban on fishing in force
0	Contracting Party has quota, but the TAC is zero
Blank	No quota allocation defined

- 1 Quota to be shared by vessels from Canada, Cuba, France (St. Pierre et Miquelon), Japan, Korea, Ukraine and USA.
- 2 The allocations to these Contracting Parties are as yet undetermined, although their sum shall not exceed the difference between the total of allocations to other Contracting Parties and the TAC (= 29 467 tonnes).
- 3 Should NEAFC modify its level of TAC, these figures shall be adjusted accordingly by NAFO through a mail vote.
- 4 Including allocations to Estonia, Latvia and Lithuania in accordance with the sharing arrangement of the former USSR quota adopted by the Fisheries Commission in 2003 (FC WP 03-7), as applied by NAFO since 2005 following their accession to the European Union.
- 5 Including allocations to Estonia, Latvia and Lithuania in accordance with the sharing arrangement of the former USSR quota adopted by the Fisheries Commission in 2003 (FC WP 03-7), and to Poland, as applied by NAFO since 2005 following their accession to the European Union.
- 6 Including allocations to Estonia, Latvia, Lithuania and Poland, as applied by NAFO since 2005 following their accession to the EU.
- 7 Allocation of 17.85% to Lithuania and 2.15% to Latvia following their accession to the European Union.
- 8 If an increase in the overall TAC as defined in footnote 3 leads to an increase in these shares, the first 500 tonnes of that increase shall be added to the quota share referred to in footnote 1.
- 9 Notwithstanding the provision of Article 5.3(b) and without prejudice to future agreements on allocations, these quotas may be fished in their entirety by these Contracting Parties.
- 10 Should catches exceed 4 500 tonnes, additional measures would be adopted to further restrain catches in 2026.
- 11 The TAC for this stock is established as per Article 7 with a quota year of July 1 to June 30.
- 12 This is the limit established by Canada for Canadian fishers.
- 13 This distribution key shall not serve as a precedent in future years for establishing catch limits or criteria for quota allocations. The Commission shall review these allocations upon request by any of the Contracting Parties.
- 14 The TAC for 2026 applies only in the NAFO Regulatory Area.

Historical statements

- 15 The allocation key of this stock is based on the 1998 Quota Table. In 1999, a moratorium on cod in Division 3M was declared.
- 16 The allocation key of this stock is based on the 1997 Quota Table. In 1998, a moratorium on redfish in Division 3LN was declared.
- 17 The allocation key of this stock is based on the 1994 Quota Table. In 1995, a moratorium on witch flounder in Division 3NO was declared.

Annex I.B
Effort Allocation Scheme for Shrimp Fishery in the
NAFO Regulatory Area Div. 3M, 2026

Contracting Party	Number of Fishing Days ¹
Canada	0
Cuba	0
Denmark	
– Faroe Islands	0
– Greenland	0
European Union	0
France (in respect of St. Pierre et Miquelon)	0
Iceland	N/A
Japan	0
Korea	0
Norway	0
Russia	0
Ukraine	0
United Kingdom	0
USA	0
Total	0

¹ When the scientific advice estimates that the stock shows signs of recovery, the fishery shall be re-opened in accordance with the effort allocation key in place for this fishery at the time of the closure.

Annex I.C¹

List of Species

Common English Name	Scientific Name	3-Alpha Code
Groundfish		
Atlantic Cod	<i>Gadus morhua</i>	COD
Haddock	<i>Melanogrammus aeglefinus</i>	HAD
Atlantic redfishes	<i>Sebastes</i> sp.	RED
Golden redfish	<i>Sebastes marinus</i>	REG
Beaked redfish (deepwater)	<i>Sebastes mentella</i>	REB
Acadian redfish	<i>Sebastes fasciatus</i>	REN
Silver hake	<i>Merluccius bilinearis</i>	HKS
Red hake*	<i>Urophycis chuss</i>	HKR
Pollock (=Saithe)	<i>Pollachius virens</i>	POK
American plaice	<i>Hippoglossoides platessoides</i>	PLA
Witch flounder	<i>Glyptocephalus cynoglossus</i>	WIT
Yellowtail flounder	<i>Limanda ferruginea</i>	YEL
Greenland halibut	<i>Reinhardtius hippoglossoides</i>	GHL
Atlantic halibut	<i>Hippoglossus hippoglossus</i>	HAL
Winter flounder	<i>Pseudopleuronectes americanus</i>	FLW
Summer flounder	<i>Paralichthys dentatus</i>	FLS
Windowpane flounder	<i>Scophthalmus aquosus</i>	FLD
Flatfishes (NS)	<i>Pleuronectiformes</i>	FLX
American angler (=Goosefish)	<i>Lophius americanus</i>	ANG
Atlantic searobins	<i>Prionotus</i> sp.	SRA
Atlantic tomcod	<i>Microgadus tomcod</i>	TOM
Blue antimora	<i>Antimora rostrata</i>	ANT
Blue whiting	<i>Micromesistius poutassou</i>	WHB
Cunner	<i>Tautoglabrus adspersus</i>	CUN
Cusk (=Tusk)	<i>Brosme brosme</i>	USK
Greenland cod	<i>Gadus ogac</i>	GRC
Blue ling	<i>Molva dypterygia</i>	BLI
Ling	<i>Molva molva</i>	LIN
Lumpfish =(Lumpsucker)	<i>Cyclopterus lumpus</i>	LUM
Northern kingfish	<i>Menticirrhus saxatilis</i>	KGF
Northern puffer	<i>Sphoeroides maculatus</i>	PUF
Eelpouts (NS)	<i>Lycodes</i> sp.	ELZ
Ocean pout	<i>Macrozoarces americanus</i>	OPT
Polar cod	<i>Boreogadus saida</i>	POC
Roundnose grenadier	<i>Coryphaenoides rupestris</i>	RNG
Roughhead grenadier	<i>Macrourus berglax</i>	RHG
Sandeels (=Sand Lances)	<i>Ammodytes</i> sp.	SAN
Sculpins	<i>Myoxocephalus</i> sp.	SCU
Scup	<i>Stenotomus chrysops</i>	SCP
Tautog	<i>Tautoga onitis</i>	TAU
Tilefish	<i>Lopholatilus chamaeleonticeps</i>	TIL

Common English Name	Scientific Name	3-Alpha Code
White hake*	<i>Urophycis tenuis</i>	HKW
Longfin hake	<i>Urophycis chesteri</i>	GPE
Threebeard rockling	<i>Gaidropsarus ensis</i>	GDE
Wolffishes (NS)	<i>Anarhichas</i> sp.	CAT
Atlantic wolffish	<i>Anarhichas lupus</i>	CAA
Spotted wolffish	<i>Anarhichas minor</i>	CAS
Northern wolffish	<i>Anarhichas denticulatus</i>	CAB
Groundfish (NS)		GRO
Pelagics		
Atlantic herring	<i>Clupea harengus</i>	HER
Atlantic mackerel	<i>Scomber scombrus</i>	MAC
Atlantic butterfish	<i>Peprilus triacanthus</i>	BUT
Atlantic menhaden	<i>Brevoortia tyrannus</i>	MHA
Atlantic saury	<i>Scorpaenopsis saurus</i>	SAU
Bay anchovy	<i>Anchoa mitchilli</i>	ANB
Bluefish	<i>Pomatomus saltatrix</i>	BLU
Crevalle jack	<i>Caranx hippos</i>	CVJ
Frigate tuna	<i>Auxis thazard</i>	FRI
King mackerel	<i>Scomberomorus cavalla</i>	KGM
Atlantic Spanish mackerel	<i>Scomberomorus maculatus</i>	SSM
Sailfish	<i>Istiophorus albicans</i>	SAI
White marlin	<i>Tetrapturus albidus</i>	WHM
Blue marlin	<i>Makaira nigricans</i>	BUM
Swordfish	<i>Xiphias gladius</i>	SWO
Albacore tuna	<i>Thunnus alalunga</i>	ALB
Atlantic bonito	<i>Sarda sarda</i>	BON
Little tunny	<i>Euthynnus alletteratus</i>	LTA
Bigeye tunny	<i>Thunnus obesus</i>	BET
Northern bluefin tuna	<i>Thunnus thynnus</i>	BFT
Skipjack tuna	<i>Katsuwonus pelamis</i>	SKJ
Yellowfin tuna	<i>Thunnus albacares</i>	YFT
Tunas (NS)	<i>Scombridae</i>	TUN
Pelagic fish (NS)		PEL
Other Fish		
Alewife	<i>Alosa pseudoharengus</i>	ALE
Amberjacks	<i>Seriola</i> sp.	AMX
American conger	<i>Conger oceanicus</i>	COA
American eel	<i>Anguilla rostrata</i>	ELA
Atlantic hagfish	<i>Myxine glutinosa</i>	MYG
American shad	<i>Alosa sapidissima</i>	SHA
Argentines (NS)	<i>Argentina</i> sp.	ARG
Atlantic croaker	<i>Micropogonias undulatus</i>	CKA
Atlantic needlefish	<i>Strongylura marina</i>	NFA
Atlantic salmon	<i>Salmo salar</i>	SAL
Atlantic silverside	<i>Menidia menidia</i>	SSA
Atlantic thread herring	<i>Opisthonema oglinum</i>	THA

Common English Name	Scientific Name	3-Alpha Code
Baird's slickhead	<i>Alepocephalus bairdii</i>	ALC
Black drum	<i>Pogonias cromis</i>	BDM
Black seabass	<i>Centropristis striata</i>	BSB
Blueback herring	<i>Alosa aestivalis</i>	BBH
Capelin	<i>Mallotus villosus</i>	CAP
Chars (NS)	<i>Salvelinus</i> sp.	CHR
Cobia	<i>Rachycentron canadum</i>	CBA
Common (Florida) pompano	<i>Trachinotus carolinus</i>	POM
Gizzard shad	<i>Dorosoma cepedianum</i>	SHG
Grunts (NS)	<i>Pomadasyidae</i>	GRX
Hickory shad	<i>Alosa mediocris</i>	SHH
Lanternfish	<i>Notoscopelus</i> sp.	LAX
Mullets (NS)	<i>Mugilidae</i>	MUL
North atlantic harvestfish	<i>Peprilus alepidotus (=paru)</i>	HVF
Pigfish	<i>Orthopristis chrysoptera</i>	PIG
Rainbow smelt	<i>Osmerus mordax</i>	SMR
Red drum	<i>Sciaenops ocellatus</i>	RDM
Red porgy	<i>Pagrus pagrus</i>	RPG
Rough scad	<i>Trachurus lathami</i>	RSC
Sand perch	<i>Diplectrum formosum</i>	PES
Sheepshead	<i>Archosargus probatocephalus</i>	SPH
Spot croaker	<i>Leiostomus xanthurus</i>	SPT
Spotted weakfish	<i>Cynoscion nebulosus</i>	SWF
Squeteague (Gray Weakfish)	<i>Cynoscion regalis</i>	STG
Striped bass	<i>Morone saxatilis</i>	STB
Sturgeons (NS)	<i>Acipenseridae</i>	STU
Tarpon	<i>Tarpon (=megalops) atlanticus</i>	TAR
Trouts (NS)	<i>Salmo</i> sp.	TRO
White perch	<i>Morone americana</i>	PEW
Alfonsinos (NS)	<i>Beryx</i> sp.	ALF
Spiny (=picked) dogfish	<i>Squalus acantias</i>	DGS
Dogfishes (NS)	<i>Squalidae</i>	DGX
Sand Tiger shark	<i>Odontaspis taurus</i>	CCT
Porbeagle	<i>Lamna nasus</i>	POR
Shortfin mako shark	<i>Isurus oxyrinchus</i>	SMA
Dusky shark	<i>Carcharhinus obscurus</i>	DUS
Great Blue shark	<i>Prionace glauca</i>	BSH
Large sharks (NS)	<i>Squaliformes</i>	SHX
Atlantic Sharpnose shark	<i>Rhizoprionodon terraenova</i>	RHT
Black Dogfish	<i>Centrosyllium fabricii</i>	CFB
Boreal (Greenland) shark	<i>Somniosus microcephalus</i>	GSK
Basking shark	<i>Cetorhinus maximus</i>	BSK
Skates (NS)	<i>Raja</i> sp.	SKA
Little skate	<i>Leucoraja erinacea</i>	RJD
Arctic skate	<i>Amblyraja hyperborea</i>	RJG
Barndoor skate	<i>Dipturus laevis</i>	RJL

Common English Name	Scientific Name	3-Alpha Code
Winter skate	<i>Leucoraja ocellata</i>	RJT
Thorny skate (Starry Ray)	<i>Amblyraja radiata</i>	RJR
Smooth skate	<i>Malacoraja senta</i>	RJS
Spinytail skate (Spinetail Ray)	<i>Bathyraja spinicauda</i>	RJQ
Finfishes (NS)		FIN
Invertebrates		
Long-finned squid (<i>Loligo</i>)	<i>Loligo pealeii</i>	SQL
Short-finned squid (<i>Illex</i>)	<i>Illex illecebrosus</i>	SQI
Squids (NS)	<i>Loliginidae, Ommastrephidae</i>	SQU
Atlantic razor clam	<i>Ensis directus</i>	CLR
Hard clam	<i>Mercenaria mercenaria</i>	CLH
Ocean quahog	<i>Arctica islandica</i>	CLQ
Soft clam	<i>Mya arenaria</i>	CLS
Surf clam	<i>Spisula solidissima</i>	CLB
Stimpson's surf clam	<i>Spisula polynyma</i>	CLT
Clams (NS)	<i>Prionodesmacea, Teleodesmacea</i>	CLX
Bay scallop	<i>Argopecten irradians</i>	SCB
Calico scallop	<i>Argopecten gibbus</i>	SCC
Iceland scallop	<i>Chlamys islandica</i>	ISC
Sea scallop	<i>Placopecten magellanicus</i>	SCA
Scallops (NS)	Pectinidae	SCX
American cupped oyster	<i>Crassostrea virginica</i>	OYA
Blue mussel	<i>Mytilus edulis</i>	MUS
Whelks (NS)	<i>Busycon</i> sp.	WHX
Periwinkles (NS)	<i>Littorina</i> sp.	PER
Marine molluscs (NS)	Mollusca	MOL
Atlantic rock crab	<i>Cancer irroratus</i>	CRK
Blue crab	<i>Callinectes sapidus</i>	CRB
Green crab	<i>Carcinus maenas</i>	CRG
Jonah crab	<i>Cancer borealis</i>	CRJ
Queen crab	<i>Chionoecetes opilio</i>	CRQ
Red crab	<i>Geryon quinqueiensis</i>	CRR
Stone king crab	<i>Lithodes maja</i>	KCT
Marine crabs (NS)	Reptantia	CRA
American lobster	<i>Homarus americanus</i>	LBA
Northern prawn	<i>Pandalus borealis</i>	PRA
Aesop shrimp	<i>Pandalus montagui</i>	AES
Penaeus shrimps (NS)	<i>Penaeus</i> sp.	PEN
Pink (=Pandalid) shrimps	<i>Pandalus</i> sp.	PAN
Marine crustaceans (NS)	Crustacea	CRU
Sea-urchin	<i>Strongylocentrotus</i> sp.	URC
Marine worms (NS)	Polychaeta	WOR
Horseshoe crab	<i>Limulus polyphemus</i>	HSC
Marine invertebrates (NS)	Invertebrata	INV

- * In accordance with a recommendation adopted by STACRES at the 1970 Annual Meeting (ICNAF Redbook 1970, Part I, Page 67), hakes of the Genus *Urophycis* are designated as follows for statistical reporting: (a) hake reported from Subareas 1, 2, and 3, and Divisions 4R, S, T and V be designated as white hake, *Urophycis tenuis*; (b) hake taken by line gears or any hake greater than 55 cm standard length, regardless of how caught, from Divisions 4W and X, Subarea 5 and Statistical Area 6 be designated as white hake, *Urophycis tenuis*; (c) Except as noted in (b), other hake of the Genus *Urophycis* taken in Divisions 4W and X, Subarea 5 and Statistical Area 6 be designated as red hake, *Urophycis chuss*.
- ¹ If a species is caught that is not found in this list (Annex I.C), then the FAO ASFIS list of species codes should be used. The ASFIS list is found at: <http://www.fao.org/fishery/collection/asfis/en>

Annex I.D
Minimum Fish Size *

Species	Gilled and gutted fish whether or not skinned; fresh or chilled, frozen, or salted.			
	Whole	Head Off	Head and Tail Off	Head Off and Split
Atlantic Cod	41 cm***	27 cm	22 cm	27/25 cm**
Greenland halibut	30 cm	N/A	N/A	N/A
American plaice	25 cm	19 cm	15 cm	N/A
Yellowtail flounder	25 cm	19 cm	15 cm	N/A

* Fish size refers to fork length for Atlantic cod; whole length for other species.

** Lower size for green salted fish.

*** 43cm in 3L

Annex I.E
Templates for the Conduct of
Exploratory Bottom Fishing Activities
I. Exploratory Protocol for New Fishing Areas

The Exploratory Protocol shall consist of:

- A harvesting plan which outlines target species, dates and areas. Area and effort restrictions should be considered to ensure fisheries occur on a gradual basis in a limited geographical area.
- A mitigation plan including measures to prevent significant adverse impact to vulnerable marine ecosystems that may be encountered during the fishery.
- A catch monitoring plan that includes recording/reporting of all species caught, 100% satellite tracking and 100% observer coverage. The recording/reporting of catch should be sufficiently detailed to conduct an assessment of activity, if required.
- A data collection plan to facilitate the identification of vulnerable marine ecosystems/species in area fished.

II. Notice of Intent to Undertake Exploratory Fishing

HARVESTING PLAN

- Target species
- Fishing dates
- Description of area to be fished
- Anticipated effort
- Bottom fishing gear-type(s) used
- IMO Number

MITIGATION PLAN

- Measures to prevent significant adverse impacts to VMEs

CATCH MONITORING PLAN

- Identify and record all species brought onboard to the lowest possible taxonomic level
- 100% satellite coverage
- 100% observer coverage

DATA COLLECTION PLAN

- Data will be collected and reported in a standardized format

III. Exploratory Fishing Trip Report

Advanced notice of intent to undertake exploratory fishing¹

Name of vessel:

Flag State of vessel:

Anticipated **location(s)** of exploratory fishing activities (include lat/long):

Anticipated **dates** of exploratory fishing activities:

Has any **previous fishing** been undertaken in adjacent areas (if so, identify information source):

Depths expected to be encountered during exploratory fishing activities:

Do **habitat maps** of the area exist (if so, please identify source(s)):

Are **taxonomic keys** identifying potentially vulnerable species available (if so, identify source(s)):

Known **vulnerable marine ecosystems (VMEs)**² in the location(s) to be fished:

Mitigation measures to prevent significant adverse impact to VMEs, if encountered:

Do **bathymetric maps** of the exploratory area exist (if so, please identify source(s)):

Does any **fisheries scientific information** in the exploratory area exist (if so, identify source(s)):

Target species being sought:

What **gear type(s)** are being proposed to be used (please identify) in what areas (include lat/long):

¹ exploratory fishing is defined as all bottom fishing activities in new areas or with bottom gear not previously used in the area concerned and not identified in Article 16

² refer to FAO *International Guidelines for the Management of Deep-Sea Fisheries in the High Seas*

Contracting party exploratory fishing¹ trip report submitted to the NAFO Scientific Council**Name** of vessel:**Flag State** of vessel:**Location(s)** of areas fished (include lat/long):**Dates** of fishing activities:**Depths** encountered during fishing (list for each haul including lat/long):**Total hours/area fished** (list for each haul including lat/long):**Gear type(s)** used (please identify) in what areas (include lat/long):**Vulnerable marine ecosystems (VMEs)²** encountered (list for each haul include lat/long):**Mitigation measures** taken to prevent significant adverse impact to VMEs if encountered:**List of all organisms** (retained, bycatch) brought onboard (identified to the lowest taxonomic unit):**List of potential vulnerable indicator species³** brought onboard by location (include lat/long):List of organisms retained for **biological sampling** (e.g. length-weight, sex, age), if any:

¹ exploratory fishing is defined as all bottom fishing activities in new areas or with bottom gear not previously used in the area concerned and not identified in Article 16

² refer to FAO *International Guidelines for the Management of Deep-Sea Fisheries in the High Seas*

³ refer to Annex 1 FAO *International Guidelines for the Management of Deep-Sea Fisheries in the High Seas*

Note: data reporting should follow a standardized specification, for example, as adopted by scientific observer program

V. Assessment of Bottom Fishing Activities

Assessments should consider the best available scientific and technical information on the current state of fishery resources.

Assessments should address, *inter alia*:

1. Type(s) of fishing conducted or contemplated, including vessels and gear types, fishing areas, target and potential bycatch species, fishing effort levels and duration of fishing (harvesting plan);
2. Existing baseline information on the ecosystems, habitats and communities in the fishing area, against which future changes are to be compared;
3. Identification, description and mapping of VMEs known or likely to occur in the fishing area;
4. Identification, description and evaluation of the occurrence, scale and duration of likely impacts, including cumulative impacts of activities covered by the assessment on VMEs;
5. Consideration of VME elements known to occur in the fishing area;
6. Data and methods used to identify, describe and assess the impacts of the activity, the identification of gaps in knowledge, and an evaluation of uncertainties in the information presented in the assessment;
7. Risk assessment of likely impacts by the fishing operations to determine which impacts on VMEs are likely to be significant adverse impacts; and
8. The proposed mitigation and management measures to be used to prevent significant adverse impacts on VMEs, and the measures to be used to monitor effects of the fishing operations.

VI. List of VME Indicator Species

Common Name and FAO ASFIS 3- ALPHA CODE	Taxon	Family	FAO ASFIS 3-ALPHA CODE
Large-Sized Sponges (PFR - Porifera)	<i>Asconema foliatum</i>	Rossellidae	ZBA
	<i>Aphrocallistes beatrix</i>	Aphrocallistidae	
	<i>Asbestopluma (Asbestopluma) ruetzleri</i>	Cladorhizidae	ZAB (Asbestopluma)
	<i>Axinella</i> sp.	Axinellidae	
	<i>Chondrocladia grandis</i>	Cladorhizidae	ZHD (Chondrocladia)
	<i>Cladorhiza abyssicola</i>	Cladorhizidae	ZCH (Cladorhiza)
	<i>Cladorhiza kenchingtonae</i>	Cladorhizidae	ZCH (Cladorhiza)
	<i>Craniella</i> spp.	Tetillidae	ZCS (Craniella spp.)
	<i>Dictyaulus romani</i>	Euplectellidae	ZDY (Dictyaulus)
	<i>Esperiopsis villosa</i>	Esperiopsidae	ZEW
	<i>Forcepia</i> spp.	Coelosphaeridae	ZFR
	<i>Geodia barretti</i>	Geodiidae	
	<i>Geodia macandrewii</i>	Geodiidae	
	<i>Geodia parva</i>	Geodiidae	
	<i>Geodia phlegraei</i>	Geodiidae	
	<i>Haliclona</i> sp.	Chalinidae	ZHL
	<i>Iophon piceum</i>	Acarinidae	WJP
	<i>Isodictya palmata</i>	Isodictyidae	
	<i>Lissodendoryx (Lissodendoryx) complicata</i>	Coelosphaeridae	ZDD
	<i>Mycale (Mycale) lingua</i>	Mycalidae	YHL (Mycale lingua)
	<i>Mycale (Mycale) loveni</i>	Mycalidae	
	<i>Phakellia</i> sp.	Axinellidae	
<i>Polymastia</i> spp.	Polymastiidae	ZPY	
<i>Stelletta normani</i>	Ancorinidae	WSX (Stelletta)	
<i>Stelletta tuberosa</i>	Ancorinidae	WSX (Stelletta)	

Common Name and FAO ASFIS 3- ALPHA CODE	Taxon	Family	FAO ASFIS 3-ALPHA CODE
	<i>Stryphnus fortis</i>	Ancorinidae	WPH
	<i>Thenea muricata</i>	Pachastrellidae	ZTH (Thenea)
	<i>Thenea valdiviae</i>	Pachastrellidae	ZTH (Thenea)
	<i>Weberella bursa</i>	Polymastiidae	ZWB (Weberella spp.)
Stony Corals (CSS - Scleractinia)	<i>Enallopsammia rostrata</i>	Dendrophylliidae	FEY
	<i>Lophelia pertusa</i>	Caryophylliidae	LWS
	<i>Madrepora oculata</i>	Oculinidae	MVI
	<i>Solenosmilia variabilis</i>	Caryophylliidae	RZT
Black corals (AQZ- Antipatharia)	<i>Stichopathes</i> sp.	Antipathidae	QYX
	<i>Leiopathes</i> cf. <i>expansa</i>	Leiopathidae	
	<i>Leiopathes</i> sp.	Leiopathidae	
	<i>Plumapathes</i> sp.	Myriopathidae	
	<i>Bathypathes</i> cf. <i>patula</i>	Schizopathidae	
	<i>Parantipathes</i> sp.	Schizopathidae	
	<i>Stauropathes arctica</i>	Schizopathidae	SQW
	<i>Stauropathes</i> cf. <i>punctata</i> <i>Telopathes magnus</i>	Schizopathidae	
Small Gorgonians (GGW)	<i>Acanella arbuscula</i>	Isididae	KQL (Acanella)
	<i>Anthothela grandiflora</i>	Anthothelidae	WAG
	<i>Chrysogorgia</i> sp.	Chrysogorgiidae	FHX
	<i>Metallogorgia melanotrichos</i>	Chrysogorgiidae	QFY (Chrysogorgiidae)
	<i>Narella laxa</i>	Primnoidae	QON (Primnoidae)
	<i>Radicipes gracilis</i>	Chrysogorgiidae	CZN
	<i>Swiftia</i> sp.	Plexauridae	

Common Name and FAO ASFIS 3- ALPHA CODE	Taxon	Family	FAO ASFIS 3-ALPHA CODE	
Large Gorgonians (GGW)	<i>Acanthogorgia armata</i>	Acanthogorgiidae	AZC	
	<i>Calyptrophora</i> sp.	Primnoidae	QON (Primnoidae)	
	<i>Hemicorallium bathyrubrum</i>	Coralliidae	COR (Corallium)	
	<i>Hemicorallium bayer</i>	Coralliidae	COR (Corallium)	
	<i>Iridogorgia</i> sp.	Chrysogorgiidae	QFY (Chrysogorgiidae)	
	<i>Keratoisis cf. siemensii</i>	Isididae	IQO (Isididae)	
	<i>Keratoisis grayi</i>	Isididae	IQO (Isididae)	
	<i>Lepidisis</i> sp.	Isididae	QFX (Lepidisis)	
	<i>Paragorgia arborea</i>	Paragorgiidae	BFU	
	<i>Paragorgia johnsoni</i>	Paragorgiidae	BFV	
	<i>Paramuricea grandis</i>	Plexauridae	PZL (Paramuricea)	
	<i>Paramuricea placomus</i>	Plexauridae	PZL (Paramuricea)	
	<i>Paramuricea</i> spp.	Plexauridae	PZL (Paramuricea)	
	<i>Parastenella atlantica</i>	Primnoidae	QON (Primnoidae)	
	<i>Placogorgia</i> sp.	Plexauridae		
	<i>Placogorgia terceira</i>	Plexauridae		
	<i>Primnoa resedaeformis</i>	Primnoidae	QOE	
	<i>Thouarella (Euthouarella) grasshoffi</i>	Primnoidae	QON (Primnoidae)	
	Sea Pens (NTW –Pennatulacea)	<i>Anthoptilum grandiflorum</i>	Anthoptilidae	AJG (Anthoptilum)
		<i>Distichoptilum gracile</i>	Protoptilidae	WDG
<i>Funiculina quadrangularis</i>		Funiculinidae	FQJ	
<i>Halipterus cf. christii</i>		Halipteridae	ZHX (Halipterus)	
<i>Halipterus finmarchica</i>		Halipteridae	HFM	
<i>Halipterus</i> sp.		Halipteridae	ZHX (Halipterus)	
<i>Kophobelemnion stelliferum</i>		Kophobelemnidae	KVF	
<i>Pennatula aculeata</i>		Pennatulidae	QAC	

Common Name and FAO ASFIS 3- ALPHA CODE	Taxon	Family	FAO ASFIS 3-ALPHA CODE
	<i>Ptilella</i> spp.	Pennatulidae	
	<i>Pennatula</i> sp.	Pennatulidae	
	<i>Protoptilum carpenteri</i>	Protoptilidae	
	<i>Umbellula lindahli</i>	Umbellulidae	OJZ (Umbellula spp)
	<i>Virgularia mirabilis</i>	Virgulariidae	
Tube-Dwelling Anemones	<i>Pachycerianthus borealis</i>	Cerianthidae	WQB
Erect Bryozoans (BZN – Bryozoa)	<i>Eucratea loricata</i>	Eucrateidae	WEL
	<i>Conocrinus lofotensis</i>	Bourgueticrinidae	WCF
Sea Lilies (CWD – Crinoidea)	<i>Gephyrocrinus grimaldii</i>	Hyocrinidae	
	<i>Trichometra cubensis</i>	Antedonidae	
Sea Squirts (SSX – Ascidiacea)	<i>Boltenia ovifera</i>	Pyuridae	WBO
	<i>Halocynthia aurantium</i>	Pyuridae	

Unlikely to be observed in trawls; *in situ* observations only:

Large xenophyophores	<i>Syringamina</i> sp.	Syringaminidae
----------------------	------------------------	----------------

VII. List of Physical VME Indicator Elements

Physical VME indicator elements	
Seamounts	Fogo Seamounts (Div. 3O, 4Vs) Newfoundland Seamounts (Div. 3MN) Corner Rise Seamounts (Div. 6GH) New England Seamounts (Div. 6EF)
Canyons	Shelf-indenting canyon; Tail of the Grand Bank (Div. 3N) Canyons with head > 400 m depth; South of Flemish Cap and Tail of the Grand Bank (Div. 3MN) Canyons with heads > 200 m depth; Tail of the Grand Bank (Div. 3O)
Knolls	Orphan Knoll (Div. 3K) Beothuk Knoll (Div. 3LMN)
Southeast Shoal	Tail of the Grand Bank Spawning grounds (Div. 3N)
Steep flanks > 6.4°	South and Southeast of Flemish Cap. (Div. 3LM)

Annex I.F

Greenland Halibut Management Procedure

The MP combines a “target based” and “slope based” rule, which was tuned to reach B_{msy} by 2044 under OM1 using the SCAA framework. The full set of control parameters are shown in Table 1.

Target based (t)

The target rule is:

$$TAC_{y+1}^{target} = TAC_y (1 + \gamma(J_y - 1)) \quad (1)$$

where TAC_y is the TAC recommended for year y , γ is the “response strength” tuning parameter, J_y is a composite measure of the immediate past level in the mean weight per tow from surveys (I_y^i) that are available to use for calculations for year y ; five survey series are used, with $i = 1, 2, 3, 4,$ and 5 corresponding respectively to Canada Autumn 2J3K, Canada Autumn 3LNO, EU-Spain 3L, EU-Spain 3NO and EU 3M 0-1400m:

$$J_y = \sum_{i=1}^5 \frac{1}{(\sigma^i)^2} \frac{J_{current,y}^i}{J_{target}^i} / \sum_{i=1}^5 \frac{1}{(\sigma^i)^2} \quad (2)$$

with $(\sigma^i)^2$ being the estimated variance for index i (estimated in the SCAA model fitting procedure),

$$J_{current,y}^i = \frac{1}{q^i} \sum_{y' \in Q^i}^{y-1} I_{y'}^i \quad (3)$$

$$J_{target}^i = \alpha \frac{1}{5} \sum_{y'=2011}^{2015} I_{y'}^i \quad (\text{where } \alpha \text{ is a control/tuning parameter for the MP}) \quad (4)$$

where q^i indicates the number of years in Q^i , and Q^i the years in the period $y' = y - 5$ to $y' = y - 1$ used to determine current status for survey series i (i.e. missing survey values are treated as missing in the calculation using the rule, as was done in the MSE testing). Note the assumption that when a TAC is set in year y for year $y+1$, indices will not at that time yet be available for the current year y .

Slope based (s)

The slope rule is:

$$TAC_{y+1}^{slope} = TAC_y [1 + \lambda_{up/down} (s_y - X)] \quad (5)$$

where $\lambda_{up/down}$ and X are tuning parameters, s_y^i is a measure of the immediate past trend in the survey-based mean weight per tow indices, computed by linearly regressing $\ln I_{y'}^i$, vs year y' for $y' \in Q^i$ (as defined above) for each survey series i considered, with:

$$s_y = \sum_{i=1}^5 \frac{1}{(\sigma^i)^2} s_y^i / \sum_{i=1}^5 \frac{1}{(\sigma^i)^2} \quad (6)$$

with the standard error of the residuals of the observed compared to model-predicted logarithm of survey index i (σ^i) as estimated in the SCAA base case operating model. Missing survey values are treated as missing in the calculation using the rule, as was done in the MSE. In such cases, the slope for each index, s_y^i , in equation (6) is calculated from the available values within the last five years.

Combination Target and Slope based ($s+t$)

For the target and slope based combination:

- 1) TAC_{y+1}^{target} is computed from equation (1),
- 2) TAC_{y+1}^{slope} is computed from equation (5), and
- 3) $TAC_{y+1} = \mu(TAC_{y+1}^{target} + TAC_{y+1}^{slope})/2$, where μ is a tuning parameter.

Finally, constraints on the maximum allowable annual change in TAC are applied, viz.:

$$\text{if } TAC_{y+1} > TAC_y(1 + \Delta_{up}) \quad \text{then} \quad TAC_{y+1} = TAC_y(1 + \Delta_{up}) \quad (7)$$

and

$$\text{if } TAC_{y+1} < TAC_y(1 - \Delta_{down}) \quad \text{then} \quad TAC_{y+1} = TAC_y(1 - \Delta_{down}) \quad (8)$$

During the MSE process, this inter-annual constraint was set at 10%, for both TAC increases and decreases, and these constraints were adopted as part of the adopted MP.

Table 1. Control parameter values for the adopted MP. The parameters μ , α , and X were adjusted to achieve a median biomass equal to B_{msy} for the exploitable component of the resource biomass in 2044 for the Base Case SCAA Operating Model.

μ	0.963
γ	0.15
q	3
α	0.972
λ_{up}	1
λ_{down}	2
X	-0.0056
Δ_{up}	0.1
Δ_{down}	0.1

Annex I.G

Exceptional Circumstances Protocol

The following criteria constitute Exceptional Circumstances:

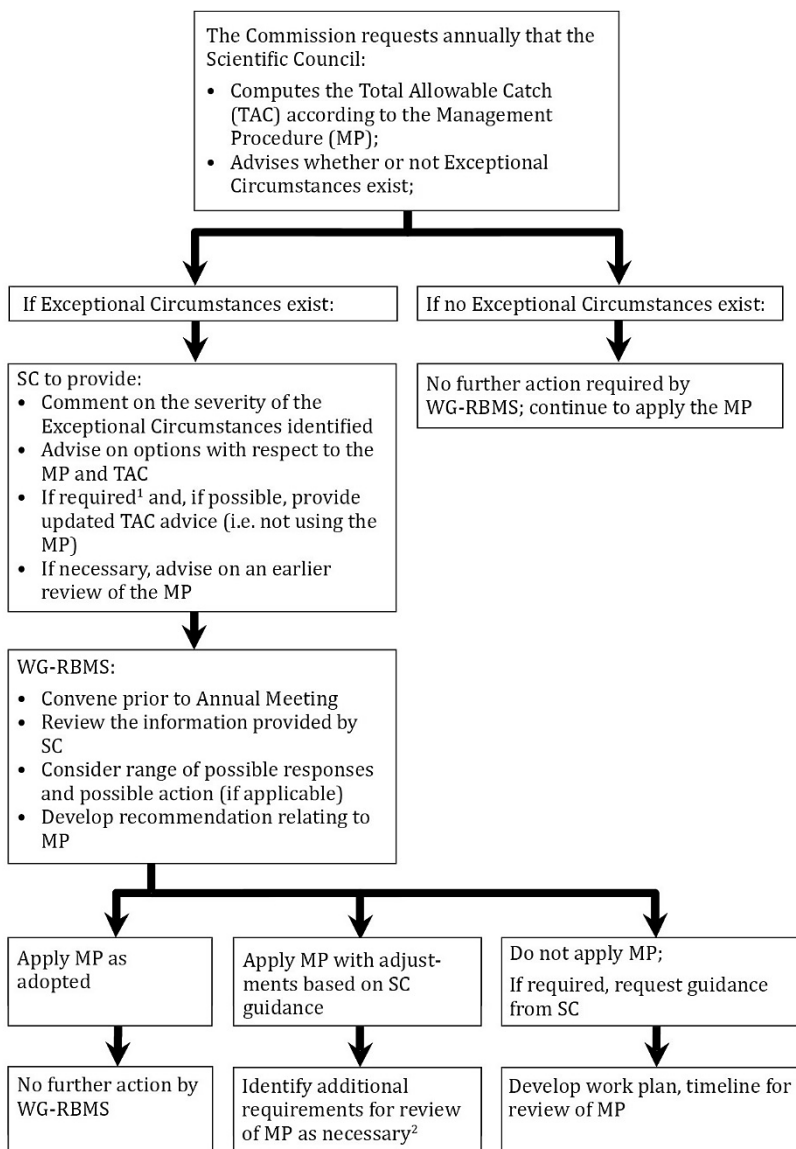

1. Missing survey data:
 - More than two values missing, in a five-year period, from a survey used in the MP;
 - Missing more than two of the five survey indices from the terminal year.
2. The composite survey index used in the MP, in a given year, is above or below the 90 percent probability envelopes projected by the base case operating models from SSM and SCAA under the MS;
3. TACs established that are not generated from the MP.

The following elements will require application of expert judgment to determine whether Exceptional Circumstances are occurring:

1. the five survey indices relative to the 80, 90, and 95 percent probability envelopes projected by the base case operating models (SSM and SCAA) for each survey;
2. survey data at age four (age before recruitment to the fishery) compared to its series mean to monitor the status of recruitment;
3. discrepancies between catches and the TAC calculated using the MP.¹

Figure 1 illustrates the actions to be taken in Exceptional circumstances.

¹ Noting that 10% exceedance of TAC was tested during MSE.

¹ For example, where the SC determines that, in the light of identified exceptional circumstances, the application of the TAC generated by the MP may not be appropriate.

² This review may include updated assessment, sensitivity analysis, etc.

Figure 1. Decision tree illustrating actions to be taken in the event of Exceptional Circumstances.

ANNEX II – REPORTING

Annex II.A Recording of Catch (Logbook Entries)

FISHING LOGBOOK ENTRIES

Item of Information

1. Vessel name
2. Vessel nationality
3. Vessel registration number
4. IMO number
5. Registration port
6. Type of gear used (*1) (*2)
7. Date of fishing activity (day/month/year: dd-mm-yyyy)
8. Start time of tow/set (UTC)
9. Start position of each tow/set:
 - (a) Latitude
 - (b) Longitude
 - (c) Division
 - (d) Water depth
10. End position of each tow/set:
 - (a) Latitude
 - (b) Longitude
 - (c) Division
 - (d) Water depth
11. End time of each tow/set (UTC)
12. Species names caught in each tow/set (Annex I.C)
13. Disposition of each tow/set: (*3) (*4)
 - (a) Total catch of each species (kilograms live weight)
 - (b) Discards of each species (kilograms live weight)
14. Were bycatch limits specified in Article 6.6 exceeded? (Y/N)
15. Was a trial tow conducted in accordance with Article 6.6 (iii) or Article 6.12? (Y/N)
16. Landings or Transhipments of catch from the Regulatory Area
 - (a) Quantity landed or transhipped of each species
 - (b) Place(s) of landing or transhipment
 - (c) Date(s) of landing or transhipment (day/month/year): dd-mm-yyyy)
17. Master's signature

Instructions:

- (*1) When two or more types of gear are used in the same 24-hours period, records should be separate for the different types
- (*2) Gears and attachments shall be identified by codes in Annex II.J
- (*3) Quantities shall be in kg live weight
- (*4) Species shall be identified by the codes in Annex I.C

Annex II.B Rules on Confidentiality

PROVISIONS ON SECURE AND CONFIDENTIAL TREATMENT OF ELECTRONIC REPORTS AND MESSAGES TRANSMITTED IN ACCORDANCE WITH ARTICLES 28-29 OF THE CONSERVATION AND ENFORCEMENT MEASURES

1. Field of application

The provisions set out below shall apply to all electronic reports and messages transmitted and received in accordance with Articles 28-29 of the Conservation and Enforcement Measures, hereinafter referred to as “reports and messages”.

2. General Provisions

- 2.1 The Executive Secretary and the appropriate authorities of Contracting Parties transmitting and receiving reports and messages shall take all necessary measures to comply with the security and confidentiality provisions set out in sections 3 and 4.
- 2.2 The Executive Secretary informs all Contracting Parties of the measures taken in the Secretariat to comply with these security and confidentiality provisions.
- 2.3 The Executive Secretary takes all the necessary steps to ensure that the requirements pertaining to the deletion of reports and messages handled by the Secretariat are complied with.
- 2.4 Each Contracting Party shall guarantee the Executive Secretary the right to obtain as appropriate, the rectification of reports and messages or the erasure of reports and messages the processing of which does not comply with the provisions of the Conservation and Enforcement Measures.
- 2.5 Notwithstanding the provisions in Article 29.10(b)-(d), the Commission may instruct the Executive Secretary not to make available the reports and messages received under Article 28 and 29 to a Contracting Party, where it is established that the Contracting Party in question has not complied with these security and confidentiality provisions.

3. Provisions on Confidentiality

- 3.1 Reports and messages shall be used only for the purposes stipulated in the Conservation and Enforcement Measures. No report or message referred to in section 1 shall be kept in a computer database at the Secretariat unless explicitly provided for in the Conservation and Enforcement Measures.
- 3.2 Each inspecting Contracting Party shall make available reports and messages only to their means of inspection and their inspectors assigned to the Scheme of Joint International Inspection and Surveillance. Reports and messages shall be transmitted to the

inspection platforms and inspectors not more than 48 hours prior to entry into the Regulatory Area.

- 3.3 The Executive Secretary deletes all the original reports and messages referred to in section 1 from the database at the Secretariat by the end of the first calendar month following the year in which the reports and messages have originated. Thereafter the information related to the catch and movement of the fishing vessels shall only be retained by the Executive Secretary, after measures have been taken to ensure that the identity of the individual vessels can no longer be established.
- 3.4 The Executive Secretary does not make available reports and messages to other parties than those specified explicitly in Article 29.10(b)-(d) of the Conservation and Enforcement Measures.
- 3.5 Inspecting Contracting Parties may retain and store reports and messages transmitted by the Secretary until 24 hours after the vessels to which the reports and messages pertain have departed from the Regulatory Area without re-entry. Departure is deemed to have been effected six hours after the transmission of the intention to exit from the Regulatory Area.

4. Provisions on security

4.1 Overview

Inspecting Contracting Parties and the Secretariat shall ensure the secure treatment of reports and messages in their respective electronic data processing facilities, in particular where the processing involves transmission over a network. Contracting Parties and the Secretariat must implement appropriate technical and organizational measures to protect reports and messages against accidental or unlawful destruction or accidental loss, alteration, unauthorized disclosure or access, and against all inappropriate forms of processing.

The following security issues must be addressed from the outset:

- System access control:
The system has to withstand a break-in attempt from unauthorized persons.
- Authenticity and data access control:
The system has to be able to limit the access of authorized parties to a predefined set of data only.
- Communication security:
It shall be guaranteed that reports and messages are securely communicated.
- Data security:
It has to be guaranteed that all reports and messages that enter the system are securely stored for the required time and that they will not be tampered with.

- Security procedures:
Security procedures shall be designed addressing access to the system (both hardware and software), system administration and maintenance, backup and general usage of the system.

Having regard to the state of the art and the cost of their implementation, such measures shall ensure a level of security appropriate to the risks represented by the processing of the reports and the messages.

Security measures are described in more detail in the following paragraphs.

4.2 **System Access Control**

For their main computer systems the Contracting Parties and the Secretariat shall aim to meet the criteria of a C2-level trusted system, (as described in Section 2.2 of the U.S. Department of Defence Trusted Computer System Evaluation Criteria (TCSEC), DOD 5200.28-STD, December 1985).

The following features are some of the ones provided by a C2-level trusted system:

- A stringent password and authentication system. Each user of the system is assigned a unique user identification and associated password. Each time the user logs on to the system he/she has to provide the correct password. Even when successfully logged on the user only has access to those and only those functions and data that he/she is configured to have access to. Only a privileged user has access to all the data.
- Physical access to the computer system is controlled.
- Auditing; selective recording of events for analysis and detection of security breaches.
- Time-based access control; access to the system can be specified in terms of times-of-day and days-of-week that each user is allowed to login to the system.
- Terminal access control; specifying for each workstation which users are allowed to access.

4.3 **Authenticity and Data Access Security**

Data exchange protocols for electronic transmission of reports and messages between Contracting Parties and the Secretariat shall be duly tested by the Secretariat and approved by the Commission. Electronic transmission is subject to security procedures laid down in this Annex.

4.4 **Communication Security**

Appropriate encryption protocols duly tested by the Secretariat and approved by the Commission shall be applied to ensure confidentiality and authenticity. Key management policy shall be in place to support the use of cryptographic techniques. In particular, the integrity of the PKI

(public key infrastructure) will be guaranteed by ensuring that digital certificates correctly identify and validate the party submitting the information.

4.5 **Data Security**

Access limitation to the data shall be secured via a flexible user identification and password mechanism. Each user shall be given access only to the data necessary for his task.

4.6 **Security Procedures**

Each Contracting Party and the Executive Secretary shall nominate a security system administrator. The security system administrator shall review the log files generated by the software, properly maintain the system security, restrict access to the system as deemed needed and act as a liaison with the Secretariat in order to solve security matters.

Annex II.C Vessel Notification and Authorization

1) Format for register of vessels

Data Element	Code	Mandatory/ Optional	Remarks
Start record	SR	M	System detail; indicates start of record
Address	AD	M	Message detail; destination, "XNW" for NAFO Secretariat
From	FR	M	Message detail; ISO-3 code of the transmitting Contracting Party
Record Number	RN	M	Message detail; message serial number in current year
Record Date	RD	M	Message detail; date of transmission
Record Time	RT	M	Message detail; time of transmission
Type of Message	TM	M	Message detail; message type, " NOT " as Notification of vessels that may conduct fishing activities in NAFO RA
Vessel Name	NA	M	Name of the vessel
Radio Call Sign	RC	M	International radio call sign of the vessel
Flag State	FS	M	State where the vessel is registered
Internal Reference Number	IR	O ¹	Unique Contracting Party vessel number as ISO-3 flag State code followed by number
External Registration Number	XR	M	The side number of the vessel
Vessel IMO Number	IM	M	IMO number
Port Name	PO	M	Port of registration or home port
Vessel Owner	VO	M ²	Registered owner and address
Vessel Charterer	VC	M ²	Responsible for using the vessel
Vessel Type	TP	M	FAO vessel code (Annex II.I)
Vessel Gear	GE	O	FAO statistical classification of fishing gear (Annex II.J)
Vessel Tonnage measurement method tonnage	VT	M	Vessel tonnage capacity in pairs as needed "OC" = "OSLO" Convention 1947, "LC" "London" Convention ICTM-69 Total capacity in tonnes
Vessel length measurement method length	VL	M	Length in meters in pairs as needed "OA" = overall; length in meters
Vessel Power measurement method power	VP	M	Engine power in pairs as needed in "KW" PE = propulsion engine AE= Auxiliary summary engines Total installed engine power in vessel measured in "KW"
End of record	ER	M	System detail; indicates end of the record

¹ Mandatory when used as a single identification in other messages.

² Whichever one is appropriate.

2) Format for withdrawal of vessels from the register

Data Element	Code	Mandatory/ Optional	Remarks
Start record	SR	M	System detail; indicates start of record
Address	AD	M	Message detail; destination, "XNW" for NAFO Secretariat
From	FR	M	Message detail; ISO-3 code of the transmitting Contracting Party
Record Number	RN	M	Message detail; message serial number in current year
Record Date	RD	M	Message detail; date of transmission
Record Time	RT	M	Message detail; time of transmission
Type of Message	TM	M	Message detail; message type, "WIT" as Withdrawal of notified vessels
Vessel Name	NA	M	Name of the vessel
Radio Call Sign	RC	M	International radio call sign of the vessel
Internal Reference Number	IR	O	Unique Contracting Party vessel number as ISO-3 flag State code followed by number, if exists
External Registration Number	XR	M	The side number of the vessel
Vessel IMO Number	IM	M	IMO number
Start Date	SD	M	The first date as from which the withdrawal takes affect
End of record	ER	M	System detail; indicates end of the record

3) Format for authorization to conduct fishing activities

Data Element	Code	Mandatory/ Optional	Remarks
Start record	SR	M	System detail; indicates start of record
Address	AD	M	Message detail; destination, "XNW" for NAFO Secretariat
From	FR	M	Message detail; ISO-3 code of the transmitting Contracting Party
Record Number	RN	M	Message detail; message serial number in current year
Record Date	RD	M	Message detail; date of transmission
Record Time	RT	M	Message detail; time of transmission
Type of Message	TM	M	Message detail; message type, "AUT" as Authorization of vessels to conduct fishing activities in the NAFO RA
Vessel Name	NA	M	Name of the vessel
Radio Call Sign	RC	M	International radio call sign of the vessel
Internal reference Number	IR	O	Unique Contracting Party vessel number as ISO-3 flag State code followed by number, if exists
External registration Number	XR	M	The side number of the vessel
Vessel IMO Number	IM	M	IMO number
Start Date	SD	M	License detail; date as from which the Authorization takes effect
End date	ED	O	License detail: Date on which the authorization go to the end. Maximum time validity is 12 months.
Targeted species and Area	TA	M ³	License detail; species and area allowed for directed fishery. Regulated species of Annex I.A or I.B must refer to the stock specification. For unregulated species use Sub Area or division or "ANY". Allow for several pairs of fields. e.g. //TA/GHL 3LMNO COD 3M RED 3LN RED 3M HER ANY//
End of record	ER	M	System detail; indicates end of the record

³ For transport vessels the TA field is optional.

4) Format to suspend the authorization to conduct fishing activities

Data Element	Code	Mandatory/ Optional	Remarks
Start record	SR	M	System detail; indicates start of record
Address	AD	M	Message detail; destination, "XNW" for NAFO Secretariat
From	FR	M	Message detail; ISO-3 code of the transmitting Contracting Party
Record Number	RN	M	Message detail; message serial number in current year
Record Date	RD	M	Message detail; date of transmission
Record Time	RT	M	Message detail; time of transmission
Type of Message	TM	M	Message detail; message type, "SUS" as Suspension of authorized vessels
Vessel Name	NA	M	Name of the vessel
Radio Call Sign	RC	M	International radio call sign of the vessel
Internal Reference Number	IR	O	Unique Contracting Party vessel number as ISO-3 flag State code followed by number, if exists
External Registration Number	XR	M	The side number of the vessel
Vessel IMO Number	IM	M	IMO number
Start Date	SD	M	License detail; date as from which the Suspension takes effect
End of record	ER	M	System detail; indicates end of the record

Annex II.D

Data Exchange Format and Protocols

A. Data transmission format

Each data transmission is structured as follows:

1. Data characters in accordance with ISO 8859.1
2. Each data transmission is structured as follows:
 - double slash ("/") and the characters "SR" indicate the start of a message;
 - a double slash ("/") and field code indicate the start of a data element;
 - a single slash ("/") separates the field code and the data;
 - pairs of data are separated by space;
 - the characters "ER" and a double slash ("/") at the end indicates the end of a record.

B. Data exchange protocols

Authorized data exchange protocols for electronic transmission of reports and messages between Contracting Parties and the Secretary shall be in accordance with Annex II.B, Rules on Confidentiality.

C. Format for electronic exchange of fisheries monitoring information (The North Atlantic Format)

Category	Data Element	Field code	Type	Contents	Definitions
System	Start Record	SR			Indicates start of the record
Details	End Record	ER			Indicates end of the record
	Return Status	RS	Char*3	Codes	ACK/NAK = Acknowledged/Not Acknowledged
	Return Error Number	RE	Num*3	001 – 999	Codes indicating errors as received at operation centre, see Annex II.D.D(2)
Message	Address destination	AD	Char*3	ISO-3166 Address	Address of the party receiving the message, "XNW" for NAFO
Details	From	FR	Char*3	ISO-3166 Address	Address of the transmitting party, (Contracting Party)
	Type of Message	TM	Char*3	Code	Code for the message type
	Sequence Number	SQ	Num*6	NNNNNN	Serial number of messages sent from a vessel to the final destination (XNW). It is unique for each vessel for a calendar year. At the beginning of the current year this value will be reset to 1 for each vessel and will increment at the sending of each message.
	Record Number	RN	Num*6	NNNNNN	Serial number of records sent from the FMC to XNW. It is unique for each FMC for a calendar year. At the beginning of the current year this value will be reset to 1 and will increment at the sending of each record.
	Record Date	RD	Num*8	YYYYMMDD	Year, month and day in UTC from the FMC
	Record Time	RT	Num*4	HHMM	Hours and minutes in UTC from the FMC
	Date	DA	Num*8	YYYYMMDD	Year, month and day in UTC of first transmission. In cases of RET messages first transmission is from the FMC, in all other cases first transmission is from the vessel.
	Time	TI	Num*4	HHMM	Hours and minutes in UTC of first transmission. In cases of RET messages first transmission is from the FMC, in all other cases first transmission is from the vessel.
	Cancelled report	CR	Num*6	NNNNNN	Record Number of the record to be cancelled
	Year of the report cancelled	YR	Num*4	NNNN	Year in UTC of the report to be cancelled

Category	Data Element	Field code	Type	Contents	Definitions
Vessel	Radio Call Sign	RC	Char*7	IRCS Code	International Radio Call Sign of the vessel
Registration	Vessel name	NA	Char*45		Name of the vessel
Details	Ext. registration	XR	Char*14		Side Number of the vessel
	Flag State	FS	Char*3	ISO-3166	State of registration
	Contracting Party internal ref. number	IR	Char*3 Num*9	ISO-3166 +max. 9N	Unique vessel number attributed by the flag State in accordance with registration
	Port Name	PO	Char*45		Port of registration of the vessel/homeport
	Vessel Owner	VO	Char*250		Name and address of the vessel owner
	Vessel Charterer	VC	Char*250		Name and address of the vessel charterer
Vessel IMO Number	IMO Number	IM	Num*7	NNNNNNN	IMO ship identification number
Vessel Character Details	Vessel Tonnage Unit	VT	Char*2 Num*5	"OC" /"LC" Tonnage	According to: "OC" OSLO 1947 Convention /"LC" LONDON ICTM-69
	Vessel Power Unit	VP	Char*2 Num*5	0-99999	Total main engine power in "KW"
	Vessel Length	VL	Char*2 Num*3	"OA" Length in meters	Unit "OA" length overall. Total length of the vessel in meters, rounded to the nearest whole meter
	Vessel Type	TP	Char*3	Code	As listed in Annex II.I
	Fishing Gear	GE	Char*3	FAO Code	International Standard Statistical Classification of the Fishing Gear as Annex II.J
Authorization details	Start Date	SD	Num*8	YYYYMMDD	Licence detail; date on which the authorization starts
	End Date	ED	Num*8	YYYYMMDD	Licence detail; date on which the authorization ends
	Targeted species and Area	TA	Char*3 Char*10	Stock specifications FAO Species code and NAFO defined area code or "ANY"	Species and area allowed for directed fishery. Regulated species of Annex I.A or I.B must refer to the stock specification. For unregulated species use Sub Area or division or "ANY". Allow for several pairs of fields. e.g. //TA/GHL 3LMNO COD 3M RED 3LN RED 3M HER ANY//
Activity Details	Latitude	LA	Char*5	NDDMM (WGS-84)	e.g. //LA/N6235 = 62°35' North
	Longitude	LO	Char*6	E/WDDMM (WGS-84)	e.g. //LO/W02134 = 21°34' West
	Latitude (decimal)	LT	Char*7	+/-DD.ddd	Value negative if latitude is in the southern hemisphere ¹ (WGS84)
	Longitude (decimal)	LG	Char*8	+/-DDD.ddd	Value negative if longitude is in the western hemisphere ¹ (WGS84)

Category	Data Element	Field code	Type	Contents	Definitions
	Trip Number	TN	Num*3	001-999	Number of the fishing trip in current year
	Catch Species Quantity	CA	Char*3 Num*7	FAO species code 0-9999999	Daily catch by species and by Division, retained on board, in kilograms live weight
	Quantity onboard Species Quantity	OB	Char*3 Num*7	FAO species code 0-9999999	Total quantity by species on board the vessel at the moment of sending the hail message concerned in kilograms live weight
	Discard Species Quantity	RJ	Char*3 Num*7	FAO species code 0 - 9999999	Catch discarded by species and by Division in kilograms live weight
	Undersize Species Quantity	US	Char*3 Num*7	FAO species code 0 - 9999999	Undersize catch by species and by Division in kilograms live weight
	Transferred species Species Quantity	KG	Char*3 Num*7	FAO species code 0-9999999	Information concerning the quantities transferred between vessels by species in kilograms live weight rounded to the nearest 100 Kg. whilst operating in the R.A.
	Relevant Area	RA	Char*6	ICES/NAFO Codes	Code for the relevant fishing area
	Directed Species	DS	Char*3	FAO species codes	Code for the species for which the vessel directed as per Article 5.2. Allow for several species, separated by a space. e.g. //DS/species species species//
	Observer on board	OO	Char*1	Y or N	Presence of a compliance observer on board
	Transhipped From	TF	Char*7	IRCS Code	International Radio Call Sign of the donor vessel
	Transhipped To	TT	Char*7	IRCS Code	International Radio Call Sign of the receiving vessel
	Master Name	MA	Char*30		Name of the vessels master
	Coastal State	CS	Char*3	ISO-3166 3 Alpha Code	Coastal State of Port of Landing
	Predicted Date	PD	Num*8	YYYYMMDD	Estimated date UTC when the master intends to be in port
	Predicted Time	PT	Num*4	HHMM	Estimated time UTC when the master intends to be in port
	Port Name	PO	Char*45		Name of the actual port of landing
	Speed	SP	Num*3	Knots*10	e.g. //SP/105 = 10.5 knots
	Course	CO	Num*3	360° degree scale	e.g. //CO/270 = 270
	Chartering Flag Catches	CH	Char*3	ISO-3166	Flag of Chartering Contracting Party
	Area of Entry	AE	Char*6	ICES/NAFO Codes	NAFO Division entering into

Category	Data Element	Field code	Type	Contents	Definitions
	Days fished	DF	Num*3	1-365	Number of days the vessel spent in the fishing zone during the trip.
	Potential non-Compliance with CEM	AF	Char*1	Y or N	For onboard observer to report their observations
	Mesh Size	ME	Num*3	0 - 999	Average mesh size in millimetres
	Logbook	LB	Char*1	Y or N	For onboard observer to confirm the entries in the vessels logbook
	Hails	HA	Char*1	Y or N	For onboard observer to confirm the hails sent from the vessel
	Observer Name	ON	Char*30	Text	Name of the onboard observer
	Free Text	MS	Char*255	Text	Activity detail; for further comments by observer

¹ The plus sign (+) does not need to be transmitted; leading zeros can be omitted.

D. 1) Structure of reports and messages as laid down in Annex II.E and Annex II.F when forwarded by Contracting Parties to the Secretary.

Where appropriate, each Contracting Party shall retransmit to the Secretary reports and messages received from its vessels in accordance with Articles 28 and 29; subject to the following amendments:

- the address (AD) shall be replaced by the address of the Secretary (XNW)
- the data elements “record date” (RD), “record time” (RT), “record number” (RN) and “from” (FR) shall be inserted.

D. 2) Return messages.

If a Contracting Party so requests, the Secretary shall send a return message every time an electronic transmission of a report or message is received.

A) Return message format:

Data Element	Field Code	Mandatory/ Optional	Remarks
Start Record	SR	M	System detail; indicates start of record
Address	AD	M	Message detail; destination, Contracting Party sending the report
From	FR	M	Message detail; XNW is NAFO (who is sending the return message)
Type of message	TM	M	Message detail; message type RET for return message
Radio call sign	RC	O	Reporting detail; international radio call sign of the vessel, copied from the report which is received.
Sequence number	SQ	O	Reporting detail; serial number of the report from the vessel in the relevant year, copied from the report which is received.
Return Status	RS	M	Reporting detail; code showing whether the message is acknowledged or not (ACK or NAK)
Return error number	RE	O	Reporting detail; number showing the type of error. See table B) for return error numbers.
Record number	RN	M	Reporting detail; record number of the message which is received
Date	DA	M	Message detail; date of transmission
Time	TI	M	Message detail; time of transmission
End of Record	ER	M	System detail; indicates end of the record

B) Return error numbers

Subject/ Article	Errors Numbers			Error Cause
	Rejected (NAK) Follow up action required	Accepted and Stored (ACK) Follow up action required	Accepted and Stored (ACK) with warning	
Communication	101			Message is unreadable
	102			Data value or size out of range
	104			Mandatory data missing
	105			This report is a duplicate; attempt to re-send a report previously rejected
	106			Unauthorized data source
			150	Sequence error
			151	Date/Time in the future
			155	This report is a duplicate; attempt to re-send a report previously accepted
Article 25			250	Attempt to re-Notify a vessel
		251		Vessel is not Notified
		252		Species not AUT or SUS
Article 28		301		Catch prior to Catch on Entry
		302		Transhipment prior to Catch on Entry
		303		Catch on Exit prior to Catch on Entry
		304		No position received (CAT, TRA, COX)
			350	Position without Catch on Entry

E. Types of reports and messages

Annex	Provisions	Code	Message / Report	Remarks
II.C	Article 25.1(a)	NOT	Notification	Notification of fishing vessels
II.C	Article 25.1(b)	WIT	Withdrawal	Notification of the withdrawal of a registered vessel
II.C	Article 25.5(a)	AUT	Authorization	Notification of vessels authorized to conduct fishing activities in the R.A.
II.C	Article 25.5(b)	SUS	Suspension	Notification of the suspension of an authorization to conduct fishing activities in the Regulatory Area, within its initial period of validity
II.E	Article 29.2 Article 29.8	ENT POS EXI MAN	Entry Position Exit Manual position	VMS messages Reports transmitted by fishing vessels with a defective satellite tracking device to the Contracting Party
II.F	Article 28.6(a) Article 28.6(c) Article 28.6(d) Article 28.6(e) Article 28.6(f) Article 28.6(b) Article 28.6	COE CAT COB TRA POR COX CAN	Catch on Entry Catch Cross boundary Transshipme nt Port of Landing Catch on Exit Cancel	Report transmitted by fishing vessels, prior to entering the R.A. Catch report daily, for all species by Division Catch report prior to crossing boundary to 3L Report on quantities on-loaded or off-loaded in the R.A. Report on catch onboard and weight to be landed Report transmitted by fishing vessels, prior to leaving the R.A. Report for cancellation of a report set out in the Article 28.6
II.D.D	Article 29.10(a) Article 28.9(c)	RET	Return	Automatic electronic message in accordance with reception of records
II.G.	Article 30.7(a)	OBR	Observer	Daily Observer report

Annex II.E VMS Data Format

1) “Entry”, “Position” and “Exit” messages

Format specifications when sending reports from FMC to NAFO (XNW) see also Annex II.D.A, II.D.B, II.D.C and II.D.D.1

Data Element	Field Code	Mandatory/Optional	Remarks
Start record	SR	M	System detail; indicates start of record
Address	AD	M	Message detail; destination; “XNW” for NAFO
From	FR	M	Message detail; Name of transmitting Party (ISO-3)
Record Number	RN	M	Message detail; Unique serial number starting at 1 each year for records sent from the FMC to (XNW) (See also Annex II.D.C)
Record Date	RD	M	Message detail; Year, month and day in UTC of the record transmission from the FMC
Record Time	RT	M	Message detail; Hours and minutes in UTC of the record transmission from the FMC
Type of Message	TM	M	Message detail; message types, ENT, POS or EXI “ENT”, for first VMS position transmitted by each vessel upon entering the Regulatory Area as detected by the FMC of the Contracting Party; “POS”, for every subsequent VMS position transmitted by each vessel from within the Regulatory Area; “EXI”, for first VMS position transmitted by each vessel upon exiting the Regulatory Area as detected by the FMC of the Contracting Party;
Radio call sign	RC	M	Vessel registration detail; international radio call sign of the vessel
Sequence Number	SQ	O	Message detail; Unique serial number starting at 1 each year for messages sent from a vessel to final destination (XNW) (See also Annex II.D.C)
Trip Number	TN	O	Activity detail; fishing trip serial number in current year
Vessel Name	NA	O	Vessel registration detail; name of the vessel
Contracting Party Internal Reference Number	IR	O	Vessel registration detail. Unique Contracting Party vessel number as ISO-3 flag State code followed by number
External Registration Number	XR	O	Vessel registration detail; the side number of the vessel
Latitude (decimal)	LT	M ¹	Activity detail; Latitude at the fixing of the position transmitted from the vessel
Longitude (decimal)	LG	M ¹	Activity detail; Longitude at the fixing of the position transmitted from the vessel
Speed	SP	M	Activity detail; Speed at the fixing of the position transmitted from the vessel
Course	CO	M	Activity detail; Course at the fixing of the position transmitted from the vessel
Date	DA	M	Message detail; UTC date of the fixing of the position transmitted from the vessel
Time	TI	M	Message detail; UTC time of the fixing of the position transmitted from the vessel
End of record	ER	M	System detail; indicates end of the record

¹ Optional for “EXI” messages

2) “Manual” Position Report

Format specifications when sending reports from FMC to NAFO (XNW) see also Annex II.D.A, II.D.B, II.D.C and II.D.D.1

Data Element	Field Code	Mandatory / Optional	Remarks
Start record	SR	M	System detail; indicates start of record
Address	AD	M	Message detail; destination; “XNW” for NAFO
From	FR	M	Message detail; Name of transmitting Party (ISO-3)
Record Number	RN	M	Message detail; Unique serial number starting at 1 each year for records sent from the FMC to (XNW) (See also Annex II.D.C)
Record Date	RD	M	Message detail; Year, month and day in UTC of the record transmission from the FMC
Record Time	RT	M	Message detail; Hours and minutes in UTC of the record transmission from the FMC
Type of Message	TM	M	Message detail; message type; “MAN” for reports communicated by vessels with a defective satellite tracking device in accordance with Article 29.8.
Radio call sign	RC	M	Vessel registration detail; international radio call sign of the vessel
Sequence Number	SQ	O	Message detail; Unique serial number starting at 1 each year for messages sent from a vessel to final destination (XNW) (See also Annex II.D.C)
Trip Number	TN	O	Activity detail; fishing trip serial number in current year
Vessel Name	NA	O	Vessel registration detail; name of the vessel
Contracting Party Internal Reference Number	IR	O	Vessel registration detail. Unique Contracting Party vessel number as ISO-3 flag State code followed by number
External Registration Number	XR	O	Vessel registration detail; the side number of the vessel
Latitude	LA	M	Activity detail; Latitude at the fixing of the position transmitted from the vessel
Longitude	LO	M	Activity detail; Longitude at the fixing of the position transmitted from the vessel
Speed	SP	M	Activity detail; Speed at the fixing of the position transmitted from the vessel
Course	CO	M	Activity detail; Course at the fixing of the position transmitted from the vessel
Date	DA	M	Message detail; UTC date of the fixing of the position transmitted from the vessel
Time	TI	M	Message detail; UTC time of the fixing of the position transmitted from the vessel
End of record	ER	M	System detail; indicates end of the record

Annex II.F
Format for the Communication of Catches and Reports by
Fishing Vessels, and when forwarded by Contracting Parties to
the Executive Secretary

1) The sequence of messages that fishing vessels shall communicate electronically via the FMC to the Secretariat shall be as follows:

Report	Code	Requirements for the field
Catch on Entry	COE	6 hours in advance of the vessels entry into the RA.
Entry	ENT	The first position report from a vessel detected to be inside the RA.
Position	POS	Position report every hour
Catch	CAT	Reporting of catches; on a daily basis, for all species by Division.
Cross Boundary	COB	Reporting of catches; prior to crossing the boundary to 3L as appropriate.
Transshipment	TRA	Report on quantities to be on-loaded (receiving vessel) or off-loaded (donor vessel), for each transshipment.
Catch on Exit	COX	6 hours in advance of the vessels departure from the RA.
Exit	EXI	The first position report from a vessel detected to be outside the RA.
Port of Landing	POR	Report (receiving vessel) on catch onboard to be landed, for each landing after transshipment.

2) “Catch on ENTRY” report

Format specifications when sending reports from FMC to NAFO (XNW) see also Annex II.D.A, II.D.B, II.D.C and II.D.D.1

Data Element	Field Code	Mandatory/Optional	Requirements for the field
Start record	SR	M	System detail; indicates start of record
From	FR	M	Message detail; Address of the transmitting party (ISO-3)
Address	AD	M	Message detail; destination, “XNW” for NAFO
Record Number	RN	M	Message detail; Unique serial number starting at 1 each year for records sent from the FMC to (XNW) (See also Annex II.D.C)
Record Date	RD	M	Message detail; Year, month and day in UTC of the record transmission from the FMC
Record Time	RT	M	Message detail; Hours and minutes in UTC of the record transmission from the FMC
Type of Message	TM	M	Message detail; message type, “COE” as Catch on Entry report
Sequence Number	SQ	M	Message detail; Unique serial number starting at 1 each year for messages sent from a vessel to final destination (XNW) (See also Annex II.D.C)
Radio call sign	RC	M	Vessel registration detail; international radio call sign of the vessel
Trip Number	TN	O	Activity detail; fishing trip serial number in current year
Vessel Name	NA	O	Vessel registration detail; name of the vessel
Master Name	MA	M	Name of the master of vessel
External Registration Number	XR	O	Vessel registration detail; the side number of the vessel
Latitude	LA	M	Activity detail; Latitude at time of transmission
Longitude	LO	M	Activity detail; Longitude at time of transmission
Relevant Area	RA	M	NAFO Division into which the vessel is about to enter
Date	DA	M	Message detail; UTC date of transmission of this report from vessel
Time	TI	M	Message detail; UTC time of transmission of this report from vessel
On Board	OB	M	Activity detail; Total quantity by species on board rounded to the nearest 100 kg, upon entry in the RA. Allow for several pairs of fields, consisting of species (FAO 3 alpha codes) + live weight in kilograms (until 9 digits), with each field separated by a space, e.g. //OB/speciesspaceweightspacespeciesspaceweightspacespeciesspaceweight//
Observer on board	OO	M	Activity detail; “Yes” or “No”
End of record	ER	M	System detail; indicates end of the record

3) “Catch” report

Format specifications when sending reports from FMC to NAFO (XNW) see also Annex II.D.A, II.D.B, II.D.C and II.D.D.1

Data Element	Field Code	Mandatory/Optional	Requirements for the field
Start record	SR	M	System detail; indicates start of record
Address	AD	M	Message detail; destination, “XNW” for NAFO
From	FR	M	Message detail; Address of the transmitting party (ISO-3)
Record Number	RN	M	Message detail; Unique serial number starting at 1 each year for records sent from the FMC to (XNW) (See also Annex II.D.C)
Record Date	RD	M	Message detail; Year, month and day in UTC of the record transmission from the FMC
Record Time	RT	M	Message detail; Hours and minutes in UTC of the record transmission from the FMC
Type of Message	TM	M	Message detail; message type, “CAT” as Daily Catch report
Radio call sign	RC	M	Vessel registration detail; international radio call sign of the vessel
Sequence Number	SQ	M	Message detail; Unique serial number starting at 1 each year for messages sent from a vessel to final destination (XNW) (See also Annex II.D.C)
Trip Number	TN	O	Activity detail; fishing trip serial number in current year
Vessel Name	NA	O	Vessel registration detail; name of the vessel
Contracting Party Internal Reference Number	IR	O	Vessel registration detail; unique Contracting Party vessel number as ISO-3 flag State code followed by number
External Registration Number	XR	O	Vessel registration detail; the side number of the vessel
Relevant Area	RA	M	Activity detail; NAFO Division
Latitude	LA	M ¹	Activity detail; Latitude at time of transmission from the vessel
Longitude	LO	M ¹	Activity detail; Longitude at time of transmission from the vessel
Catch species live weight	CA	M	Activity detail; Catch retained onboard by species and by Division since last CAT report in kilograms rounded to the nearest 100 kilograms. Allow for several pairs of fields, consisting of species (FAO 3 alpha codes)+live weight in kilograms (until 9 digits), with each field separated by a space, e.g.//CA/speciesspaceweightspacespeciesspace weightspacespeciesspaceweightspace//

Data Element	Field Code	Mandatory/Optional	Requirements for the field
Discarding species live weight	RJ	M	Activity detail; Catch discarded by species and by Division since last CAT report, in kg rounded to the nearest 100 kg. Allow for several pairs of fields, consisting of species (FAO 3 alpha codes) + live weight in kilograms (until 9 digits), with each field separated by a space, e.g. //RJ/speciesspaceweightspacespeciesspaceweightspacespecies spaceweight//
Chartering Flag	CH	M ²	Flag of Chartering Contracting Party to which the catch must be allocated
Days Fished	DF	M ³	Activity detail; number of fishing days in the Regulatory Area since last CAT report, as appropriate
Date	DA	M	Message detail; UTC date of transmission of this report from the vessel
Time	TI	M	Message detail; UTC time of transmission of this report from the vessel
End of record	ER	M	System detail; indicates end of the record

¹ Optional if the vessel is subject to satellite tracking in accordance with Article 29.1.

² Mandatory if fishing activity under chartering agreement.

³ By default, the normal reporting period should be 1 day.

4) “Catch on crossing Boundary” 3L report (for PRA)

Format specifications when sending reports from FMC to NAFO (XNW) see also Annex II.D.A, II.D.B, II.D.C and II.D.D.1

Data Element	Field Code	Mandatory/Optional	Requirements for the field
Start record	SR	M	System detail; indicates start of record
Address	AD	M	Message detail; destination, “XNW” for NAFO
From	FR	M	Message detail; Address of the transmitting party (ISO-3)
Record Number	RN	M	Message detail; Unique serial number starting at 1 each year for records sent from the FMC to (XNW) (See also Annex II.D.C)
Record Date	RD	M	Message detail; Year, month and day in UTC of the record transmission from the FMC
Record Time	RT	M	Message detail; Hours and minutes in UTC of the record transmission from the FMC
Type of Message	TM	M	Message detail; message type, “COB” for Cross Boundary Catch report
Radio call sign	RC	M	Vessel registration detail; international radio call sign of the vessel
Sequence Number	SQ	M	Message detail; Unique serial number starting at 1 each year for messages sent from a vessel to final destination (XNW) (See also Annex II.D.C)
Trip Number	TN	O	Activity detail; fishing trip serial number in current year
Vessel Name	NA	O	Vessel registration detail; name of the vessel
Contracting Party Internal Reference Number	IR	O	Vessel registration detail; unique Contracting Party vessel number as ISO-3 flag State code followed by number
External Registration Number	XR	O	Vessel registration detail; the side number of the vessel
Relevant Area	RA	M	Activity detail; NAFO Division entering from
Latitude	LA	M ¹	Activity detail; Latitude at time of transmission from the vessel
Longitude	LO	M ¹	Activity detail; Longitude at time of transmission from the vessel
Catch species live weight	CA	M	Activity detail; Catch retained onboard by species and by Division since last CAT report in kilograms rounded to the nearest 100 kilograms. Allow for several pairs of fields, consisting of species (FAO 3 alpha codes)+live weight in kilograms (until 9 digits), with each field separated by a space, e.g.

5) “TRANSHIPMENT” report

Format specifications when sending reports from FMC to NAFO (XNW) see also Annex II.D.A, II.D.B, II.D.C and II.D.D.1

Data Element	Field Code	Mandatory/ Optional	Requirements for the field
Start record	SR	M	System detail; indicates start of record
From	FR	M	Message detail; Address of the transmitting party (ISO-3)
Address	AD	M	Message detail; destination, “XNW” for NAFO
Record Number	RN	M	Message detail; Unique serial number starting at 1 each year for records sent from the FMC to (XNW) (See also Annex II.D.C)
Record Date	RD	M	Message detail; Year, month and day in UTC of the record transmission from the FMC
Record Time	RT	M	Message detail; Hours and minutes in UTC of the record transmission from the FMC
Type of Message	TM	M	Message detail; message type, “TRA” as Transhipment report
Sequence Number	SQ	M	Message detail; Unique serial number starting at 1 each year for messages sent from a vessel to final destination (XNW) (See also Annex II.D.C)
Radio call sign	RC	M	Vessel registration detail; international radio call sign of the vessel
Trip Number	TN	O	Activity detail; fishing trip serial number in current year
Vessel Name	NA	O	Vessel registration detail; name of the vessel
Name of Master	MA	O	Name of master of vessel
External Registration Number	XR	O	Vessel registration detail; the side number of the vessel
Quantity on-loaded or off-loaded species live weight	KG	M	Quantity by species in the Regulatory Area on-loaded or off-loaded in kilograms rounded to the nearest 100 kilograms. Allow for several pairs of fields, consisting of species (FAO 3 alpha codes)+live weight in kilograms (until 9 digits), with each field separated by a space, e.g./KG/speciesspaceweightspacspeciespaceweightspacspeciespaceweightspac//
Transhipped To	TT	M ¹	Vessel registration detail; International radio call sign of the receiving vessel
Transhipped From	TF	M ¹	Vessel registration detail; International radio call sign of the donor vessel

Data Element	Field Code	Mandatory/ Optional	Requirements for the field
Latitude	LA	M ²	Activity detail; estimated latitude where the master intends to do the transhipment
Longitude	LO	M ²	Activity detail; estimated longitude where the master intends to do the transhipment
Predicted Date	PD	M ²	Activity detail; estimated date UTC when the master intends to do the transhipment (YYYYMMDD)
Predicted Time	PT	M ²	Activity detail; estimated time UTC when the master intends to do the transhipment (HHMM)
Date	DA	M	Message detail; UTC date of transmission of this report from the vessel
Time	TI	M	Message detail; UTC time of transmission of this report from the vessel
End of record	ER	M	System detail; indicates end of the record

¹ Whichever one is appropriate

² Optional for reports sent by the receiving vessel after the transhipment.

6) "Catch on EXIT" report

Format specifications when sending reports from FMC to NAFO (XNW) see also Annex II.D.A, II.D.B, II.D.C and II.D.D.1

Data Element	Field Code	Mandatory/Optional	Requirements for the field
Start record	SR	M	System detail; indicates start of record
Address	AD	M	Message detail; destination, "XNW" for NAFO
From	FR	M	Message detail; Address of the transmitting party (ISO-3)
Record Number	RN	M	Message detail; Unique serial number starting at 1 each year for records sent from the FMC to (XNW) (See also Annex II.D.C)
Record Date	RD	M	Message detail; Year, month and day in UTC of the record transmission from the FMC
Record Time	RT	M	Message detail; Hours and minutes in UTC of the record transmission from the FMC
Type of Message	TM	M	Message detail; "COX" as Catch on Exit report
Sequence Number	SQ	M	Message detail; Unique serial number starting at 1 each year for messages sent from a vessel to final destination (XNW) (See also Annex II.D.C)
Radio call sign	RC	M	Vessel registration detail; international radio call sign of the vessel
Trip Number	TN	O	Activity detail; fishing trip serial number in current year
Vessel Name	NA	O	Vessel registration detail; name of the vessel
Master Name	MA	O	Name of master of vessel
External Registration Number	XR	O	Vessel registration detail; the side number of the vessel
Latitude	LA	O ¹	Activity detail; Latitude at time of transmission from the vessel
Longitude	LO	O ¹	Activity detail; Longitude at time of transmission from the vessel
Relevant Area	RA	M	NAFO area from which the vessel is about to exit
Quantity on board in live weight	OB	M	Activity detail; Total quantity by species on board rounded to the nearest 100 kg, upon exit from the RA. Allow for several pairs of fields, consisting of species (FAO 3 alpha codes) + live weight in kilograms (until 9 digits), with each field separated by a space, e.g. //OB/speciesspaceweightspacspeciespaceweight//
Days Fished	DF	O	Activity detail; number of fishing days in the Regulatory Area
Date	DA	M	Message detail; UTC date of transmission of this report from the vessel

Data Element	Field Code	Mandatory/ Optional	Requirements for the field
Time	TI	M	Message detail; UTC time of transmission of this report from the vessel
End of record	ER	M	System detail; indicates end of the record

¹ Optional if the vessel is subject to satellite tracking in accordance with Article 29.1.

7) "PORT OF LANDING" report

Format specifications when sending reports from FMC to NAFO (XNW) see also Annex II.D.A, II.D.B, II.D.C and II.D.D.1

Data Element	Field Code	Mandatory/ Optional	Requirements for the field
Start record	SR	M	System detail; indicates start of record
From	FR	M	Message detail; Address of the transmitting party (ISO-3)
Address	AD	M	Message detail; destination, "XNW" for NAFO
Record Number	RN	M	Message detail; Unique serial number starting at 1 each year for records sent from the FMC to (XNW) (See also Annex II.D.C)
Record Date	RD	M	Message detail; Year, month and day in UTC of the record transmission from the FMC
Record Time	RT	M	Message detail; Hours and minutes in UTC of the record transmission from the FMC
Type of Message	TM	M	Message detail; message type, "POR"
Sequence Number	SQ	M	Message detail; Unique serial number starting at 1 each year for messages sent from a vessel to final destination (XNW) (See also Annex II.D.C)
Radio call sign	RC	M	Vessel registration detail; international radio call sign of the vessel
Trip Number	TN	O	Activity detail; fishing trip serial number in current year
Vessel Name	NA	O	Vessel registration detail; name of the vessel
Name of Master	MA	O	Name of master of vessel
External Registration Number	XR	O	Vessel registration detail; the side number of the vessel
Latitude	LA	M ¹	Activity detail; Latitude at time of transmission
Longitude	LO	M ¹	Activity detail; Longitude at time of transmission
Coastal State	CS	M	Activity detail; Coastal State of Port of Landing
Name of Port	PO	M	Activity detail; name of Port for landing
Predicted Date	PD	M	Activity detail; estimated date UTC when the master intends to be in port (YYYYMMDD)
Predicted Time	PT	M	Activity detail; estimated time UTC when the master intends to be in port (HHMM)

Data Element	Field Code	Mandatory/ Optional	Requirements for the field
Quantity to be landed species live weight	KG	M	Activity detail; Quantity by species in kilograms rounded to the nearest 100 kilograms, to be landed in a port. Allow for several pairs of fields, consisting of species (FAO 3 alpha codes)+live weight in kilograms (until 9 digits), with each field separated by a space, e.g.//KG/speciesspaceweightspacspeciespaceweightspacspeciespaceweightspac//
Quantity on board species live weight	OB	M	Activity detail; Total quantity by species on board rounded to the nearest 100 kg, in advance of landing of the transhipped quantities. Allow for several pairs of fields, consisting of species (FAO 3 alpha codes) + live weight in kilograms (until 9 digits), with each field separated by a space, e.g. //OB/speciesspaceweightspacspeciespacweightspacspeciespacweight//
Date	DA	M	Message detail; UTC date of transmission of this report from the vessel
Time	TI	M	Message detail; UTC time of transmission of this report from the vessel
End of record	ER	M	System detail; indicates end of the record

¹ Optional if a vessel is subject to satellite tracking.

8) “CANCEL” report

Format specifications when sending reports from FMC to NAFO (XNW) see also Annex II.D.A, II.D.B, II.D.C and II.D.D.1

Data Element	Field Code	Mandatory/Optional	Requirements for the field
Start record	SR	M	System detail; indicates start of record
From	FR	M	Message detail; Address of the transmitting party (ISO-3)
Address	AD	M	Message detail; destination, “XNW” for NAFO
Record Number	RN	M	Message detail; Unique serial number starting at 1 each year for records sent from the FMC to (XNW) (See also Annex II.D.C)
Record Date	RD	M	Message detail; Year, month and day in UTC of the record transmission from the FMC
Record Time	RT	M	Message detail; Hours and minutes in UTC of the record transmission from the FMC
Type of Message	TM	M	Message detail; message type, “CAN ¹ ” as Cancel report
Radio call sign	RC	M	Vessel registration detail; international radio call sign of the vessel
Cancelled report	CR	M	Message detail; the record number of the report to be cancelled
Year of the report cancelled	YR	M	Message detail; year of the report to be cancelled
Date	DA	M	Message detail; UTC date of transmission of this report from the vessel ²
Time	TI	M	Message detail; UTC time of transmission of this report from the vessel ²
End of record	ER	M	System detail; indicates end of the record

¹ Cancel report should not be used to cancel other Cancel report.

² If the report is not sent from a vessel the time will be from the FMC and be the same as RD, RT.

Annex II.G Observer Report

Data Element	Code	Mandatory / Optional	Requirements for the field
Start record	SR	M	System detail; indicates start of record
Address	AD	M	Message detail; destination, "XNW" for NAFO
Sequence Number	SQ	M	Message detail; message serial number in current year
Type of Message	TM	M	Message detail; message type, "OBR" as Observer report
Radio call sign	RC	M	Vessel registration detail; international radio call sign of the vessel
Fishing Gear	GE	M ¹	Activity detail; FAO code for fishing gear
Directed Species	DS	M ¹	Activity detail; FAO species code for each directed species since the last OBR report
Mesh Size	ME	M ¹	Activity detail; average mesh size in millimetres
Relevant Area	RA	M	Activity detail; NAFO Division
Daily Catches species live weight	CA	M M	Activity detail; catch retained on board by species and by Division since last OBR report in kilograms rounded to the nearest 100 kilograms. Allow for several pairs of fields, consisting of species (FAO 3 alpha codes) + live weight in kilograms (until 9 digits), with each field separated by a space, e.g. //CA/speciesspaceweightspacepeciesspaceweightseightspacepeieesspaceweight//
Discarding species live weight	RJ	M ¹	Activity detail; Catch discarded by species and by Division since last OBR report, in kg rounded to the nearest 100 kg. Allow for several pairs of fields, consisting of species (FAO 3 alpha codes) + live weight in kilograms (until 9 digits), with each field separated by a space, e.g. //RJ/speciesspaceweightspacepeciesspaceweightseightspacepeciesspaceweight//
Undersize ⁶ species live weight	US	M ¹	Activity detail; Undersize catch by species and by Division since last OBR report, in kg rounded to the nearest 100 kg. Allow for several pairs of fields, consisting of species (FAO 3 alpha codes) + live weight in kilograms (until 9 digits), with each field separated by a space, e.g. //US/speciesspaceweightspacepeciesspaceweightseightspacepeciesspaceweight//
Logbook	LB	M	Activity detail; "Yes" or "No" ²
Hails	HA	M	Activity detail; "Yes" or "No" ³
Potential non-compliance with the NAFO CEM	AF	M	Activity detail; "Yes" or "No" ⁴

Data Element	Code	Mandatory / Optional	Requirements for the field
Observer Name	ON	M	Message detail; name of the observer signing the report
Date	DA	M	Message detail; date of transmission of this report
Free Text	MS	O ⁵	Activity detail; for further comments by the observer
Time	TI	M	Message detail; time of transmission of this report
End of record	ER	M	System detail; indicates end of the record

¹ Only to be transmitted if relevant.

² "Yes" if the observer confirms the Logbook entries have been made in accordance with the CEMs.

³ "Yes" if the observer confirms the reports required under Article 13.12, 13.13, and 28.6 have been transmitted in accordance with the CEMs.

⁴ "Yes" if the observer detects any potential non-compliance with the CEMs.

⁵ Mandatory if "LB" = "No", or "HA" = "No", or "AF" = "Yes".

⁶ Discarded undersized catch reported in the US field should also be included in the quantities expressed in the Discarding (R) field.

Annex II.H

Procedure for granting access to individuals within Contracting Parties to the MCS Website

1. The address for the MCS Website is <https://mcs.nafo.int/>
2. The NAFO Secretariat is responsible for the administration of the NAFO MCS Website, including the uploading of all information to it, and the delivery of the necessary credentials to accede the MCS Website.
3. The purpose of the website is to serve as a tool for sharing information which is often of a confidential and sensitive nature, to facilitate control activities and promote compliance with the NAFO CEM.
4. Within a Contracting Party the individuals to whom access shall be granted to the MCS Website shall be determined as appropriate, bearing the purpose of the website in mind, by the official designated by the Contracting Party on an annual basis.
5. The Contracting Party shall submit a list of those individuals (which includes names, administration for which they work, professional title and email address) to the NAFO Secretariat on an annual basis by the 31st December, or as soon as possible if any changes are to be made, to enable access to be granted for the following year.
6. The NAFO Secretariat shall ensure those individuals are granted access to the MCS Website, and shall provide login credentials. All those who are granted access shall have equal ability to read information contained in the MCS Website.
7. Individual login credentials will expire automatically on the 31st December of the year for which access was granted.

Annex II.I Fishing Vessel Codes

A. Main Vessel Types

FAO Code	Type of vessel	FAO Code	Type of vessel
BO	Protection vessel	NOX	Lift netter NEI
CO	Fish training vessel	PO	Vessel using pumps
DB	Dredger non continuous	SN	Seine netter
DM	Dredger continuous	SO	Seiner
DO	Beamer	SOX	Seiner NEI
DOX	Dredger NEI	SP	Purse seiner
FO	Fish carrier	SPE	Purse seiner european
FX	Fishing vessel NEI	SPT	Tuna purse seiner
GO	Gill netter	TO	Trawler
HOX	Mother ship NEI	TOX	Trawlers NEI
HSF	Factory mother ship	TS	Side trawler
KO	Hospital ship	TSF	Side trawler freezer
LH	Hand liner	TSW	Side trawler wetfish
LL	Long liner	TT	Stern trawler
LO	Liner	TTF	Stern trawler freezer
LP	Pole and line vessel	TTP	Stern trawler factory
LT	Troller	TU	Outrigger trawlers
MO	Multipurpose vessels	WO	Trap setter
MSN	Seiner hand liner	WOP	Pot vessels
MTG	Trawler drifter	WOX	Trap setters NEI
MTS	Trawler purse seiner	ZO	Fish research vessel
ZOT	Temporary Fish Research Vessel	NB	Lift netter tender
DRN	Driftnetter	NO	Lift netter
VOS	Support vessel	VOB	Bunker
VOX	Other non-fishing vessels		

NEI = Not Elsewhere Identified

B. Main vessel activities

Alpha Code	Category
ANC	Anchoring

ANNEX III – GEAR

Annex III.A

Mesh Measurements and Gauges

1. Description of mesh gauges

- (a) A mesh gauge to be used for determining mesh sizes shall be 2 mm thick, flat, of durable material and non-deformable. It shall be designed either as a number of parallel-edged sides connected by tapering edges with a taper of 1:8 on each side or only tapering edges with the taper defined above. The mesh gauge shall have a hole at the narrowest extremity.
- (b) The face of the mesh gauge shall be inscribed with the width in millimetres both on the parallel-sided section, if this design is used and on the tapering section. In the case of the latter, the width shall be inscribed for every interval of 1mm and the width shall be indicated at regular intervals.

2. Use of the mesh gauge

- (a) The net shall be kept stretched so that the meshes are stretched in the direction of the long diagonal.
- (b) The tapered end of the mesh gauge described in point 1 shall be inserted into the mesh opening in a direction perpendicular to the netting along the long axis of the net.
- (c) The gauge shall be inserted into the mesh opening either manually or using a weight until the mesh gauge is stopped by the resistance of the mesh at the tapering edges.

3. Selection of meshes for measuring

- (a) The meshes to be measured shall form a series of 20 consecutive meshes selected in the direction of the long axis of the net.
- (b) Meshes positioned less than 50 cm from lacings, ropes and codlines shall not be measured. This distance shall be measured perpendicular to the lacings, the ropes or the codline with the net stretched in the direction of measuring. Any mesh that has been mended or torn or to which attachments to the net are fixed shall not be measured.
- (c) By way of derogation from 3(a), the meshes to be measured need not be consecutive if this is prevented by the application of 3(b).
- (d) Nets shall be measured only when wet and non-frozen.

4. Sizes of individual meshes

- (a) The size of a mesh shall be equal to the width of the gauge inscribed at the point where the gauge is stopped when used in accordance with point 2.

- (b) The sides of a mesh shall be accepted as being of the same length if, when measured, the two knots that keep the mesh together in the lateral direction appear to be off the centre of the mesh gauging device.

5. Determination of the mesh size of a net

- (a) The mesh size of a net shall be expressed in mm as the average of the sizes of the total number of meshes selected and measured according to points 3 and 4. The average value shall be rounded up to the next full number of millimetres.
- (b) The total number of meshes to be measured is specified in point 6.

6. Mesh gauging procedure

- (a) Only meshes which have 4 sides, equally long, of the same material, and 4 permanent joints or knots are permitted.
- (b) Mesh size shall be calculated by averaging:
- in respect of the codend of a net, including any lengthener(s), the measurements, in millimetres, of any 20 consecutive meshes running parallel to the long axis of the codend, beginning at the after end of the codend, and at least 10 meshes from the lacings; and
 - in respect of any part of a net, the measurements, in millimetres, of any 20 consecutive meshes that are at least 10 meshes from the lacings.

Example of Large Size Gauge

Example of Skate Gauges

160-236 mm

226-302 mm

Annex III.B

Authorized Topside Chafers/Shrimp Toggle Chains

1. ICNAF-type topside chafer

The ICNAF-type topside chafer is a rectangular piece of netting to be attached to the upper side of the codend of the trawl net to reduce and prevent damage so long as such netting conforms to the following conditions:

- (a) this netting shall have a mesh size not less than that specified for the codend in Article 13;
- (b) this netting may be fastened to the codend only along the forward and lateral edges of the netting and at no other place in it, and shall be fastened in such a manner that it extends forward of the splitting strap no more than four meshes and ends not less than four meshes in front of the cod line mesh; where a splitting strap is not used, the netting shall not extend to more than one-third of the codend measured from not less than four meshes in front of the cod line mesh;
- (c) the width of this netting shall be at least one and a half times the width of the area of the codend which is covered, such widths to be measured at right angles to the long axis of the codend.

2. Multiple flap-type topside chafer

The multiple flap-type topside chafer is defined as pieces of netting having in all their parts meshes the size of which is not less than that of the codend, provided that:

- (i) each piece of netting
 - (a) is fastened a minimum of one meter apart by its leading edge across the codend at right angles to its long axis;
 - (b) does not overlap the leading edge of the next piece of netting (see illustration following this provision);
 - (c) is of a width of at least the width of the codend (such width being measured at right angles to the long axis of the codend at the point of attachment); and
 - (d) is constructed of a positively buoyant single twine material; and
- (ii) the aggregate length of all the pieces of netting so attached does not exceed two-thirds of the length of the codend.

3. Shrimp Trawl – Codend Strengthening Bag, for vessels directing for shrimp in the NRA

A strengthening bag is defined as an outer covering of netting that can be used on a shrimp trawl to protect and provide strength to the codend of the shrimp trawl.

- (a) Vessels shall not use a strengthening bag of which the mesh size is less than 130 millimetres.
- (b) The strengthening bag shall not extend forward of the sorting grids or grates or obstruct the sorting grids or grates in any way.
- (c) A strengthening bag shall not be attached in any way that restricts the authorized mesh or obstructs the mesh opening.
- (d) Vessels shall not use a strengthening bag with any other top-side chafers simultaneously.

Shrimp Toggle Chains

Toggle chains are chains, ropes, or a combination of both, which attach the footrope to the fishing line or bolchline at varying intervals.

The terms “fishing line “and “bolchline” are interchangeable. Some vessels use one line only; others use both a fishing line and a bolchline as shown in the sketch.

The toggle chain length should be measured from the centre of the chain or wire running through the footrope (centre of footrope) to the underside of the fishing line.

The attached sketch shows how to measure the toggle and chain length.

Pennants to be displayed by a NAFO inspection vessel. A boarding vessel shall display one pennant, which may be half-size.

Annex IV.F NAFO Inspection Seal

The NAFO Inspection Seal shall be as follows:

- Name NAFO INSPECTION SEAL
- Mark "NAFO Inspection No. of six digits"
- Material..... polyethylene recyclable
- Colourorange
- Melt index..... 6.70 + .60 (by international standard)
- Density953 + .003 (by international standard)
- Breaking point (load).....min. 45 kg (t° 20°C)

Annex IV.G

Construction and Use of Boarding Ladders

1. A boarding ladder shall be provided which shall be efficient for the purpose of enabling inspectors to embark and disembark safely at-sea. The boarding ladder shall be kept clean and in good order.
2. The ladder shall be positioned and secured so that:
 - (a) it is clear of any possible discharges from the vessel;
 - (b) it is clear of the finer lines and as far as practicable in the midlength of the vessel;
 - (c) each step rests firmly against the vessel's side.
3. The steps of the boarding ladder shall:
 - (a) be of hardwood or other material of equivalent properties, made in one piece free of knots; the four lowest steps may be made of rubber of sufficient strength and stiffness, or of other suitable material of equivalent characteristics;
 - (b) have an efficient non-slip surface;
 - (c) be not less than 480 mm long, 115 mm wide, and 23 mm in thickness, excluding any non-slip device or grooving;
 - (d) be equally spaced not less than 300 mm or more than 380 mm apart;
 - (e) be secured in such a manner that they will remain horizontal.
4. No boarding ladder shall have more than two replacement steps which are secured in position by a method different from that used in the original construction of the ladder and any steps so secured shall be replaced, as soon as reasonably practicable, by steps secured in position by the method used in the original construction of the ladder. When any replacement step is secured to the side ropes of the boarding ladder by means of grooves in the side of the step, such grooves shall be in the longer sides of the steps.
5. The side ropes of the ladder shall consist of two uncovered manila or equivalent ropes not less than 60 mm in circumference on each side; each rope shall be left uncovered by any other material and be continuous with no joints below the top step; two main ropes, properly secured to the vessel and not less than 65 mm in circumference, and a safety line shall be kept at hand ready for use if required.
6. Battens made of hardwood, or other material of equivalent properties, in one piece, free of knots and between 1,8 and 2 m long, shall be provided at such intervals as will prevent the boarding ladder from twisting. The lowest batten shall be on the fifth step from the bottom of the ladder and the interval between any batten and the next shall not exceed nine steps.
7. Means shall be provided to ensure safe and convenient passage for inspectors embarking on or disembarking from the vessel between the head of the

- boarding ladder or of any accommodation ladder or other appliance provided. Where such passage is by means of a gateway in the rails or bulwark, adequate handholds shall be provided. Where such passage is by means of a bulwark ladder, such ladder shall be securely attached to the bulwark rail or platform and two handhold stanchions shall be fitted at the point of boarding or leaving the vessel not less than 0,70 m or more than 0,80 m apart. Each stanchion shall be rigidly secured to the vessel's structure at or near its base and also at a higher point, shall be not less than 40 mm in diameter, and shall extend not less than 1,20 m above the top of the bulwark.
8. Lighting shall be provided at night so that both the boarding ladder overside and also the position where the inspector boards the vessel shall be adequately lit. A lifebuoy equipped with a self-igniting light shall be kept at hand ready for use. A heaving line shall be kept at hand ready for use if required.
 9. Means shall be provided to enable the boarding ladder to be used on either side of the vessel. The inspector in charge may indicate which side he would like the boarding ladder to be positioned.
 10. The rigging of the ladder and the embarkation and disembarkation of an inspector shall be supervised by a responsible officer of the vessel. The responsible officer shall be in radio contact with the bridge.
 11. Where on any vessel constructional features such as rubbing bands would prevent the implementation of any of these provisions, special arrangements shall be made to ensure that inspectors are able to embark and disembark safely.

Annex IV.H

Principles for Inspections

Inspectors shall:

- (a) verify, to the extent possible, that the vessel identification documentation on board and information relating to the owner of the vessel is true, complete and correct, including through appropriate contacts with the flag State or international records of vessels if necessary;
- (b) verify that the vessel's flag and markings (e.g., name, external registration number, International Maritime Organization (IMO) ship identification number, international radio call sign and other markings, main dimensions) are consistent with information contained in the documentation;
- (c) review all other relevant documentation and records held onboard, including, to the extent possible, those in electronic format and vessel monitoring system (VMS) data from the flag State or RFMOs. Relevant documentation may include logbooks, catch, transshipment and trade documents, data collected by the observer on board, crew lists, stowage plans and drawings, descriptions of fish holds, and documents required pursuant to the Convention on International Trade in Endangered Species of Wild Fauna and Flora;
- (d) verify, to the extent possible, that the authorizations for fishing activities are true, complete, correct and consistent with the information provided in accordance with the CEM provisions including, but not limited to, Articles 25, 44, 45 and 51;
- (e) determine, to the extent possible, whether any fishery resources on board were harvested in accordance with applicable authorizations for the vessel;
- (f) examine any fishery resources on board the vessel, including by sampling, to determine its quantity and composition. In doing so, inspectors may open containers where the fishery resources have been pre-packed and move the catch or containers to ascertain the integrity of fish holds. Such examination may include inspections of product type and determination of nominal weight;
- (g) examine, to the extent possible, all relevant fishing gear onboard, including any gear stowed out of sight as well as related devices, and to the extent possible, verify that they are in conformity with the conditions of the authorizations. The fishing gear shall, to the extent possible, also be checked to ensure that features such as the mesh and twine size, devices and attachments, dimensions and configuration of nets, pots, dredges, hook sizes and numbers are in conformity with applicable regulations and that the markings correspond to those authorized for the vessel;
- (h) evaluate whether there is clear evidence for believing that a non-Contracting Party vessel has engaged in IUU fishing activities; and

- (i) arrange, where necessary and possible, for translation of relevant documentation.

Additionally inspections shall be conducted in a fair, transparent and non-discriminatory manner and shall not constitute harassment of any vessel. Inspectors shall not interfere with the Master's ability to communicate with the authorities of the flag State Contracting Party.
