¹ The TAC will not be increased beyond 12 405 mt until the Scientific Council advises that age 3+ mean biomass has reached a level approximately equal to one-half the mean age 3+ equilibrium biomass associated with fishing at F_{max} and assuming long term average recruitment levels.

² TAC shall not be increased until such time as the Scientific Council reports that age 3+ annual mean biomass has reached 200 000 metric tons.

³ Reserved for the Canadian fishery in Div. 3L.

⁴ Any quota listed for squid may be increased by a transfer from any "coastal state" as defined in Article 1, para. 3 of the NAFO Convention, provided that the TAC for squid is not exceeded. Transfers made to Contracting Parties conducting fisheries for squid in the Regulatory Area shall be reported to the Executive Secretary, and the report shall be made as promptly as possible.

⁵ The opening date for the squid (*illex*) fishery is 1 July 1982.

⁶ The dashes which appear in the place of allocations to Canada and the EEC do not signify zero allocations. Allocations to these Contracting Parties, as yet undetermined, shall not exceed the difference between the total of allocations to other Contracting Parties and the TAC.

⁷ 465 tons of this allocation represent a supplementary allocation, and they shall not be taken into account in allocations for future years.
