<sup>1</sup> Quotas are in metric tons.

<sup>2</sup> There are no Special Reservations for 1987.

<sup>3</sup> The opening date for the squid (*ill*ex) fishery is 1 July.

<sup>4</sup> Any quota listed for squid may be increased by a transfer from any "coastal state" as defined in Article 1, para. 3 of the NAFO Convention, provided that the TAC for squid is not exceeded. Transfers made to Contracting Parties conducting fisheries for squid in the Regulatory Area shall be reported to the Executive Secretary, and the report shall be made as promptly as possible.

<sup>5</sup> The TAC for Cod in Div. 3M will not be increased beyond 12 965 mt until the Scientific Council advises that age 3+ mean biomass has reached a level approximately equal to one-half the mean age 3+ equilibrium biomass associated with fishing at  $F_{max}$  and assuming long term average recruitment levels.

<sup>6</sup> Not Specified because the allocations to these Contracting Parties are as yet undetermined, although their sum shall not exceed the difference between the total of allocations to other Contracting Parties and the TAC.

<sup>7</sup> The TAC would remain at 150 000 tons subject to adjustment where warranted by scientific advice.
