NAFO STATISTICAL BULLETIN

Vol. 30 for the Year 1980

(Revised)

Following the publication of Statistical Bulletin Vol. 31 in September 1983, the NAFO Secretariat was informed of numerous errors in the fishing effort data reported by two countries for 1977-81. The revised data affect a significant number of effort records published in Table 5 of Vol. 27 to 31 but the nominal catch records remain unchanged. Since Table 5 constitutes about two-thirds of an entire volume, the Scientific Council of NAFO recommended that the Secretariat issue revised editions of these volumes as time and finances permit. Meanwhile, computer listings of the revised data may be obtained from the NAFO Secretariat upon request.

Volume 30, containing fishery statistics for 1980, is the first of the five volumes to be revised, and recipients should discard the earlier edition. Revised editions of the remaining four volumes will be forthcoming at 3-4 month intervals as time and finances permit.

NAFO Secretariat

15 October 1984

NORTHWEST ATLANTIC FISHERIES ORGANIZATION

Statistical Bulletin
Vol. 30

Fishery Statistics for 1980
(Revised)

Dartmouth, Canada
October 1984

Preface (Revised)

The ICNAF Statistical Bulletin, which has been published annually since 1951, terminated with the issue in 1981 of Volume 28 containing fishery statistics for the calendar year 1978. At its June 1980 Meeting, the Scientific Council of NAFO agreed that publication of fishery statistics for the Northwest Atlantic (Subarea 0 to 6) should be continued in the same general format as the most recent issues of the ICNAF publication. Consequently, the first issue of NAFO Statistical Bulletin was numbered Volume 29.

Subsequent to the publication of this issue of the Bulletin (Vol. 30) in August 1982, the NAFO Secretariat was informed of errors in much of the fishing effort data associated with the catches listed in Table 5 (pages 97-274). Following the recent receipt of these revised effort data, the Scientific Council decided that a revised edition of Vol. 30 should be issued to replace the earlier edition. It should be noted that the seal statistics (page 278) have also been updated.

The fishery statistics presented in the Bulletin represent commercial catches from the marine finfish, invertebrate and seaweed resources of the NAFO Convention Area, as well as the catches of harp and hooded seals. The data are derived from STATLANT 21A and 21B reports by all member countries of NAFO and by several non-members which conducted significant fishing operations in the Northwest Atlantic during 1980. Data on quantities of fish and invertebrates are presented as "nominal catches" (i.e. live weight equivalent of the landings) in metric tons, data for seaweeds are given as wet weight in metric tons, and catches of seals are given as numbers of animals. The statistics are presented on a calendar year basis and by month where applicable.

The tabular presentation of the data follows the formats previously established for use in the ICNAF publication, except that Tables 5 and 6 of Part II have been replaced by a new Table 5 for presenting the detailed catch and effort data, as recommended at the September 1980 Meeting of the Scientific Council.

This issue of the Bulletin is set out in four parts: **Part I** contains summaries of catches of selected finfish and invertebrate species by country and subarea for the 1966-80 period, **Part II** contains statistics of nominal catches and fishing effort for 1980, and **Part III** contains the seal catches and hunting effort for 1980. In tables where various groups of species are used, the groups and group names are in accordance with those given in the List of Northwest Atlantic Species. Further details of the tabular presentation of the data are given in the text at the beginning of each Part and in the section entitled "Definitions and Abbreviations".

The Secretariat is pleased to acknowledge the efforts of countries through their statistical agencies in maintaining records of their fisheries in the Northwest Atlantic and contributing the data for publication in the Bulletin. In addition, the guidance of the Scientific Council and its Standing Committee on Research Coordination, and the Coordinating Working Party on Atlantic Fishery Statistics has been invaluable.

Most of the tabular material in this issue of the Bulletin was prepared directly from computer compilations, utilizing the IBM 370 computer of Maritime Computer Services Ltd., Halifax, Nova Scotia, accessed through the Secretariat's own computer terminal. The preparation and printing of the Bulletin was carried out by the Secretariat staff.

2 October 1984

V. M. Hodder
Assistant Executive Secretary

NAFO List of Species Items

This list of common and scientific names of species items for the Northwest Atlantic, together with the standardized 3-alpha identifiers, includes all species for which nominal catches have variously been reported. The order of presentation of the catches by species and by species groups (groundfish, pelagic fish, other finfish, invertebrates, and seaweeds and seals) in the various tables of Parts I, II and III of the Bulletin corresponds with the order in the following list, where applicable.

NAFO Code	Common English name	Scientific name	3-alpha ident.
Groundfish			
101	Atlantic cod	<i>Gadus morhua</i>	COD
102	Haddock	<i>Melanogrammus aeglefinus</i>	HAD
103	North Atlantic redfishes	<i>Sebastes</i> spp.	RED
104	Silver hake	<i>Merluccius bilinearis</i>	HKS
105	Red hake	<i>Urophycis chuss</i>	HKR
106	Pollock (Saithe)	<i>Pollachius virens</i>	POK
108	Golden redfish	<i>Sebastes marinus</i>	REG
109	Beaked redfish	<i>Sebastes mentella</i>	REB
112	American plaice	<i>Hippoglossoides platessoides</i>	PLA
114	Witch flounder	<i>Glyptocephalus cynoglossus</i>	WIT
116	Yellowtail flounder	<i>Limanda ferruginea</i>	YEL
118	Greenland halibut	<i>Reinhardtius hippoglossoides</i>	GHL
120	Atlantic halibut	<i>Hippoglossus hippoglossus</i>	HAL
122	Winter flounder	<i>Pseudopleuronectes americanus</i>	FLW
124	Summer flounder	<i>Paralichthys dentatus</i>	FLS
125	Windowpane flounder	<i>Scophthalmus aquosus</i>	FLD
129	Flatfishes (NS)	<i>Pleuronectiformes</i>	FLX
132	American angler (Goosefish)	<i>Lophius americanus</i>	ANG
136	Atlantic searobins	<i>Prionotus</i> spp.	SRA
138	Atlantic tomcod	<i>Microgadus tomcod</i>	TOM
140	Blue whiting (Poutassou)	<i>Micromesistius poutassou</i>	WHB
142	Cunner	<i>Tautoglabrus adspersus</i>	CUN
144	Cusk (Tusk)	<i>Brosme brosme</i>	USK
148	Greenland cod	<i>Gadus ogac</i>	GRC
151	Blue ling	<i>Molva byrkelange</i>	BLI
152	Ling	<i>Molva molva</i>	LIN
154	Lumpfish (Lumpsucker)	<i>Cyclopterus lumpus</i>	LUM
158	Northern kingfish	<i>Menticirrhus saxatilis</i>	KGF
160	Northern puffer	<i>Sphoeroides maculatus</i>	PUF
164	Ocean pout	<i>Macrozoarces americanus</i>	OPT
166	Polar cod	<i>Boreogadus saida</i>	POC
168	Roundnose grenadier	<i>Coryphaenoides rupestris</i>	RNG
169	Roughhead grenadier	<i>Macrourus berglax</i>	RHG
172	Sandeels (Sand lances)	<i>Ammodytes</i> spp.	SAN
174	Sculpins	<i>Myoxocephalus</i> spp.	SCU
176	Scup	<i>Stenotomus chrysops</i>	SCP
180	Tautog	<i>Tautoga onitis</i>	TAU
182	Tilefish	<i>Lopholatilus chamaeleonticeps</i>	TIL
186	White hake	<i>Urophycis tenuis</i>	HKW
188	Wolffishes (Catfishes)	<i>Anarhichas</i> spp.	CAT
189	Atlantic wolffish	<i>Anarhichas lupus</i>	CAA

NAFO Code	Common English name	Scientific name	3-alpha ident.
190	Spotted wolffish	<i>Anarhichas minor</i>	CAS
199	Groundfish (NS)	GRO
Pelagic fish			
202	Atlantic herring	<i>Clupea harengus</i>	HER
204	Atlantic mackerel	<i>Scomber scombrus</i>	MAC
212	Atlantic butterfish	<i>Peprius triacanthus</i>	BUT
216	Atlantic menhaden	<i>Brevoortia tyrannus</i>	MHA
220	Atlantic saury	<i>Scomberesox saurus</i>	SAU
224	Bay anchovy	<i>Anchoa mitchilli</i>	ANB
228	Bluefish	<i>Pomatomus saltatrix</i>	BLU
232	Crevalle jack	<i>Caranx hippos</i>	CVJ
236	Frigate tuna	<i>Auxis thazard</i>	FRI
240	King mackerel	<i>Scomberomorus cavalla</i>	KGM
244	Atlantic Spanish mackerel	<i>Scomberomorus maculatus</i>	SSM
252	Sailfish	<i>Istiophorus platypterus</i>	SAI
256	White marlin	<i>Tetrapturus albidus</i>	WHM
260	Blue marlin	<i>Makaira nigricans</i>	BUM
264	Swordfish	<i>Xiphias gladius</i>	SWO
272	Albacore tuna	<i>Thunnus alalunga</i>	ALB
274	Atlantic bonito	<i>Sarda sarda</i>	BON
276	Little tunny	<i>Euthynnus alletteratus</i>	LTA
278	Bigeye tuna	<i>Thunnus obesus</i>	BET
280	Northern bluefin tuna	<i>Thunnus thynnus</i>	BFT
282	Skipjack tuna	<i>Katsuwonus pelamis</i>	SKJ

Fishing Effort Measures for Gear Categories

The Coordinating Working Party on Atlantic Fishery Statistics (CWP) at its Eight Session in September 1974, reviewed the effort units that could be applied to most of the major gear categories in the FAO International Standard Statistical Classification of Fishing Gear. The CWP recognized that there was a need for further research to determine the best effort units for some gears, but, pending the determination of better definitions, nevertheless recommended that regional organizations should select from the FAO list those fishing effort units most appropriate for statistical reporting in their respective regions. Consequently, the following expanded list of definitions of effort measures was adopted at the 1975 Annual Meeting of ICNAF and subsequently endorsed by the Scientific Council of NAFO for use in the national reporting of effort data on STATLANT 21B forms:

Effort level	Fishing gears	Effort measures	Definition
A.	Trawls	No. of hours fished	Number of hours during which the trawl was in the water (mid-trawl), or on the bottom (bottom trawl), and fishing.
	Boat seines (Danish seine, etc)	No. of hours fished	Number of hours during which the seine was on the bottom and fishing.
	Beach seines	No. of sets	Number of times the gear has been set or shot, whether or not a catch was made.
	Boat dredges	No. of hours fished	Number of hours during which the dredge was on the bottom and fishing.
	Surrounding nets (purse seines)	No. of sets	Number of times the gear has been set or shot, whether or not a catch was made.
	Gillnets (set or drift)	No. of effort units	Length of nets expressed in 100-meter units multiplied by the number of sets made (=accumulated total length, in meters, of nets used in a given time period divided by 100).
	Gillnets (fixed)	No. of effort units	Length of net expressed in 100-meter units multiplied by the number of times the net was cleared.
	Traps (uncovered pounds nets)	No. of effort units	Number of days fished times the number of units hauled.
	Covered pots and fyke nets	No. of effort units	Number of lifts times the number of units (= total number of units fished in a given time period).
	Longlines (set or drift)	Thousands of hooks	Number of hooks fished in a given time period divided by 1000.
	Handlines (pole, troll, jig, etc)	No. of line-days	Total number of lines used in the given time period.
	Harpoons	—	(Report effort levels B and C only.)

Effort level	Fishing gears	Effort measures	Definition
B.	All Gears	No. of days fished	The number of days (24-hour periods, reckoned from midnight to midnight) on which any fishing took place. For those fisheries in which searching is a substantial part of the fishing operation, days in which searching but no fishing took place should be included in "days fished" data.
C.	All Gears	No. of days on grounds	The number of days (24-hour periods, reckoned from midnight to midnight) in which the vessel was on the fishing ground, and includes in addition to the days fishing and searching also all the other days while the vessel was on the ground.

Abbreviations for Gears

The following standard abbreviations for gears, recommended by the CWP for use in regional and international statistical publications, were adopted at the 1975 Annual Meeting of ICNAF and used, where applicable, in all issues of Statistical Bulletin starting with Vol. 24:

Gear categories	Abbreviations
Trawls	
Bottom beam trawl	TBB
" otter trawl (side or stern not specified)	OTB
" otter trawl (side)	OTB1
" otter trawl (stern)	OTB2
" pair trawl (2 vessels)	PTB
Midwater otter trawl (side or stern not specified)	OTM
" otter trawl (side)	OTM1
" otter trawl (stern)	OTM2
" pair trawl (2 vessels)	PTM
Seine Nets	
Beach seine	SB
Danish seine	SDN
Scottish seine	SSC
Pair seine (2 vessels)	SPR
Surrounding Nets	
With purse lines (purse seine)	PS
— operated by one vessel	PS1
— operated by two vessels	PS2
Without purse lines (lampara)	LA
Gillnets and Entangling Nets	
Gillnets (not specified)	GN
Set gillnets (anchored)	GNS
Drift gillnets	GND
Fixed gillnets (on stakes)	GNF
Trammel nets	GTR
Hooks and Lines	
Longlines (not specified)	LL
Set longlines	LLS
Drift longlines	LLD
Handlines and polelines (hand-operated)	LHP
" " " (mechanized)	LHM
Trolling lines	LTL
Hooks and lines (not specified)	LX

Gear categories	Abbreviations
Traps	
Traps (not specified)	FIX
Stationary uncovered poundnets	FPN
Covered pots	FPO
Fyke nets	FYK
Barriers, fences, weirs, etc	FWR
Falling Gear	
Cast nets	FCN
Falling gear (unspecified)	FG
Dredges	
Boat dredge	DRB
Hand dredge	DRH
Grappling and Wounding	
Harpoon	HAR
Miscellaneous Gears	
	MIS
Gear Not Known	
	NK

Abbreviations for Countries

The standard abbreviations for countries used in this issue of the Bulletin are those recommended by the CWP at its Tenth Session in July 1980 and adopted by the Scientific Council at its September 1980 Meeting, except that those for member states of the European Economic Community (EEC) are prefixed with the letter "E".

Bulgaria	BGR
Canada (Maritimes)	CAN-M
Canada (Newfoundland)	CAN-N
Canada (Quebec)	CAN-Q
Cuba	CUB
German Democratic Republic	DDR
EEC — Federal Republic of Germany	E/DEU
— Denmark (Mainland)	E/DNK
— France (Metropolitan)	E/FRA-M
— France (St. Pierre and Miquelon)	E/FRA-SP
— United Kingdom	E/GBR
— Greenland	E/GRL
— Ireland	E/IRL
— Italy	E/ITA
Spain	ESP
Faroe Islands	FRO
Iceland	ISL
Japan	JPN
Norway	NOR
Poland	POL
Portugal	PRT
Romania	ROM
Union of Soviet Socialist Republics	SUN
United States of America	USA
Mexico	MEX

Abbreviations for Main Species

The restricted space available in Table 5 of Part II required the use of abbreviations for designating the "main species sought," labelled MSP in the heading of that table. The abbreviations, based on the 3-alpha identifiers for species items, are listed alphabetically below:

Alewife	ALE	American lobster	LBA
Alfonsinos	ALF	Atlantic mackerel	MAC
Atlantic argentine	ARG	Atlantic menhaden	MHA
Atlantic butterfish	BUT	Mixed species	MIX
Capelin	CAP	Molluscs	MOL
Wolffishes (Catfishes)	CAT	Shrimps	PAN
Atlantic cod	COD	Pelagic fish	PEL
Crabs	GRA	American plaice	PLA
Crustaceans	CRU	Pollock (Saithe)	POK
Dogfishes	DGX	Atlantic redfishes	RED

Nominal Catches

All catches recorded for finfish and invertebrate species items refer to "nominal catches", defined as the live weight equivalent of the landings. Seaweeds are reported on a "wet weight" basis, and seals are reported as numbers.

Under the assumption that all national statistical reports are compiled in accordance with the instructions for completing STATLANT 21A and 21B forms, the nominal catches presented in Parts I and II of the Bulletin include all quantities used for human consumption and quantities utilized for industrial purposes (fishmeal production) but do not include quantities discarded (i.e. fish thrown overboard at sea).

PART I

Tabular Summaries of Nominal Catches, 1965-79

This section of the Bulletin contains summary tables of nominal catches by country and subarea for the years 1966 to 1980, continuing the series of similar tables in previous issues of the ICNAF Statistical Bulletin up to Vol. 28 for the calendar year 1978. All adjustments to nominal catches, resulting from the addition of Subareas 0 and 6 at different times during the ICNAF regime and from the acquisition of fishery statistics for non-members of ICNAF until 1978 and of NAFO for 1979, have been incorporated into the statistical data base, and the summary tables now reflect the nominal catches for the whole of the Northwest Atlantic region, recognized by FAO as Major Fishing Area 21. All quantities in the summary tables are expressed in thousands of metric tons (round fresh weight).

Table A contains the nominal catches of all species items (finfish, invertebrates and seaweeds) for the 1966-80 period by country and subarea and also the nominal catches of principal species and groups of species. Table B contains the nominal catches by country and subarea for the following selected species: Atlantic cod, haddock, Atlantic redfishes, silver hake, red hake, pollock, American plaice, witch flounder, yellowtail flounder, Greenland halibut, roundnose grenadier, wolffishes, Atlantic herring, Atlantic mackerel, Atlantic argentine, capelin, shrimp and squids. The catches for the four principal flatfish species noted above include all adjustments resulting from the more refined breakdown of flounder statistics presented in Part IV of ICNAF Statistical Bulletin Vol. 23 for the years prior to 1972, as the statistics given in earlier issues of the Bulletin contained large quantities of unspecified flounders. When countries recorded very small catches over the entire time series, they have been included in the category "Others".

The symbols used in Tables A and B are defined as follows:

- + Magnitude of catch known to be less than 500 tons.
- Catch known to be zero.
- ... Data not available.

TABLE A. Nominal catches of **All Species** in the Northwest Atlantic, 1966-80.

¹ Catches refer to flounders except the 4 species immediately above.
² Catches refer to groundfish except those listed on the 13 lines immediately above.
³ Catches refer to pelagic fish except herring, mackerel and menhaden.
⁴ Catches refer to other fish except argentine and capelin.
⁵ Catches refer to invertebrates except those on the 7 lines immediately above.

PART II

Fishery Statistics for 1980

Source of Data

Fishery statistics pertinent to the Northwest Atlantic Fisheries Organization Convention Area (FAO Fishing Area 21) for the calendar year 1980 were derived from STATLANT 21B reports received by the Secretariat from the following countries or components: Bulgaria, Canada (Maritimes), Canada (Newfoundland), Canada (Quebec), Cuba, Denmark, Faroe Islands, Federal Republic of Germany, France (Metropolitan), France (St. Pierre and Miquelon), German Democratic Republic, Greenland, Italy, Japan, Norway, Poland, Portugal, Romania, Spain, Union of Soviet Socialist Republics, United Kingdom, and United States of America, and information for Mexico was obtained from information reported by the United States on fishing activity in its 200-mile fishery zone. Iceland reported no fishing activity in the Northwest Atlantic in 1980. Fishery statistics accruing from cooperative arrangements between Canada and several countries in 1980 have been incorporated in the various tables, and treatment of these data are explained in the next section.

Fishery Statistics from Cooperative Arrangements

Following the extension of jurisdiction over fishery resources to 200 miles by coastal states in January 1977, the development of cooperative arrangements between Canada and several countries resulted in confusion regarding responsibility for reporting fishery statistics accruing from such arrangements. Problems associated with double-counting and under-counting were anticipated and discussed in August 1977 at the Ninth Session of the CWP (Coordinating Working Party on Atlantic Fishery Statistics), which agreed that in all instances the flag of the vessel should be the determining feature which establishes the country to whose national production the catches and landings should be allocated, regardless of fishing area or point of landing, and that this policy should only be overridden when it is obvious that the wording of chartering and joint operation contracts indicates otherwise or when the inter-relationships are too complicated to settle (*FAO Fish. Rep.*, No. 197, page 10). This policy has been followed in the preparation of fishery statistics for 1980, insofar as it has been possible to obtain information on joint venture operations from the coastal states and to have the data verified or amended, where appropriate, by the countries involved.

Countries whose vessels fished within the 200-mile zone through cooperative arrangements with Canada in 1980 were: Faroe Islands, Japan, Norway, and Portugal. The catch and effort data from these cooperative arrangements have been incorporated in the national statistics of the flag states involved, and are included in Tables 1 to 5 of this section. Individual records are identified by an asterisk following the gear abbreviation (e.g. OTB*) in Table 5. However, for possible use in the management of catch quotas, the joint-venture data for the various countries involved are listed separately in Table 6.

Data Presentation

Tables 1 to 3 in this section are presented in the same formats as those in preceding volumes of the Statistical Bulletin and contain the statistics on nominal catches in varying degrees of detail. Table 4 contains the nominal catches by month of selected species for which conservation measures have been established. Table 5, containing monthly catch and effort statistics, is presented in the new format which was adopted at the September 1980 Meeting of the Scientific Council. This table replaces Tables 5 and 6 of previous ICNAF issues of the Bulletin.

Users of the Bulletin should note the change relating to the use of a revised set of standard abbreviations for countries in Tables 2, 3, 4 and 5. These, together with abbreviations used for fishing gears, main species, months and tonnage classes, are defined in the section entitled "Definitions and Abbreviations" (pages 9-16).

PART III

Sealing Statistics, 1980

This section contains two tables of basic data on harp and hooded seal catches (Table 1) and hunting effort (Table 2) by area, catching method and country for the calendar year 1980. Statistics were reported by four countries, namely Greenland, Canada, Denmark and Norway.

Abbreviations and Definitions

Abbreviations for Countries

Can (M)	- Canada (Maritimes)
Can (N)	- Canada (Newfoundland)
Can (Q)	- Canada (Quebec)
Den (G)	- Denmark (Greenland)

Common and Scientific Names

Harp seal	- <i>Pagophilus groenlandicus</i>
Hooded seal	- <i>Cystophora cristata</i>

Definition of Harp Seal Age Categories

Whitecoat	- Less than 2 weeks old with unmoulted white fur (lanugo)
Beater	- more than 2 weeks old
Bedlamer	- 1 year or older with spotted pelt, roughly equivalent to immature animals
Old harp	- animals with conspicuous saddle mark on back and sides, roughly equivalent to mature animals

Explanation of Effort Terms

Engine HP	- brake horsepower
Landsmen	- shore fishermen, including those using small vessels or aircraft
No. of men	- total number in crew if "vessel" and number of hunters if "landsmen"
Days absent	- number of days absent from port including the day the vessel sails but not the day of landing

Table 1. Harp and hooded seal catches in the Northwest Atlantic, 1980¹
