Foreword

In accordance with its mandate to disseminate information on fisheries research to the scientific community, the Scientific Council of NAFO publishes the *Journal of Northwest Atlantic Fishery Science*, which contains peer-reviewed primary papers and notes on original research, and *NAFO Scientific Council Studies*, which contains review papers of topical interest and importance. Each year since 1981, the Scientific Council has held a Special Session on a topic of particular interest, and many of the documented contributions to those sessions have been published in either of these NAFO publications. The last three issues of the *NAFO Scientific Council Studies* contained contributions to Special Sessions.

This issue of *NAFO Scientific Council Studies* contains miscellaneous contributions nominated for publication by the Standing Committee on Publications (STACPUB) to the Scientific Council from research documents presented to its meetings. The 18 previous issues of *NAFO Scientific Council Studies* are on the inside back cover of this volume.
