

47th ANNUAL MEETING – SEPTEMBER 2025

**Review of NAFO Resolutions
(Prepared by the NAFO Secretariat)**

At the 2023 Annual Meeting of NAFO, two resolutions were adopted, which prompted a broader discussion on how NAFO Resolutions are presented on the NAFO public website.

In the past, resolutions were reviewed at Annual Meetings but this has not been done since the 2015 Annual Meeting. To explore best practices, the NAFO Secretariat reviewed how other Regional Fisheries Management Organizations (RFMOs) present resolutions to remain informative and relevant to the general public.

The Secretariat identified two practical amendments to improve the clarity and relevance of the NAFO Resolutions page. First, reinstating a periodic review would help determine whether any resolutions should be removed from the website to ensure the content remains current. Second, linking to original meeting reports, in addition to providing the full text of each resolution, would offer valuable context and clarify intent, particularly as resolutions may become outdated or replaced over time. These changes are straightforward to implement and are expected to enhance context for the general public without requiring significant resources.

The Secretariat proposes the following practical updates to improve the clarity and accessibility of the NAFO Resolutions page:

- **Periodic Review:** The Secretariat will present a working paper to the Commission every five (5) years so Contracting Parties would have the opportunity to assess whether any NAFO Resolutions could be removed and/or considered outdated, obsolete, or superseded by subsequent developments.
- **Enhanced Documentation:** In addition to the full text of the NAFO Resolution, the Secretariat will add links to original meeting documents for each adopted resolution, providing additional context for public understanding.

If in agreement, the NAFO Secretariat seeks endorsement from STACFAD for the implementation of the two above-mentioned (2) practical updates.

Annex 1. An illustrative example of how the revised format for NAFO Resolutions will appear on the public website. The updated layout includes links to original meeting documentation to enhance clarity and context, alongside the full text of Resolutions from 1979 to 2024.

It will be available online on the public website at: <https://www.nafo.int/Portals/0/PDFs/gc/NAFO-Resolutions.pdf>.
