NAFO/FC 79/VI/6

FIRST ANNUAL MEETING - JUNE 1979

Registration of vessels fishing, or intending to fish, in the Regulatory Area, 1979
(as of 10 July 1979)

by

the NAFO Secretariat

1. In accordance with Article XXIII of the Convention, proposal (3) from the September 1975 Special Meeting of ICNAF for national registration of vessels engaged in fishing or in the treatment of sea fish in the Convention Area (Subareas 0 to 6), which entered into force on 14 April 1976, applies to all Contracting Parties of NAFO:

"1. All vessels over 50 gross tons engaged in fishing or in the treatment of sea fish in the Convention Area (Subareas 0 to 6) shall be registered by the Contracting Party. A report of this registration shall be filed with the NAFO Secretariat prior to 1 January of each year, when possible, or in a timely manner following departure of the vessel from its home port, or by message within 30 days if the Contracting Party changes the terms of its registration.

"2. Such report shall include:
 - (a) Name of vessel, both native and Latin alphabet spelling,
 - (b) Official number of the vessel registered by appropriate authorities of the Contracting Party,
 - (c) Home port and nationality of vessel,
 - (d) Owner or charterer of vessel,
 - (e) Certification that master has been provided with the regulations in force for the area or areas where the vessel will be engaged in fishing for sea fish,
 - (f) Principal target species of the vessel while engaged in fishing for sea fish while in the Convention Area,
 - (g) Subareas where the vessel will be expected to fish.
"3. A document of registration of the vessel in a form prescribed by the national legislation shall be maintained aboard the vessel and shall be made available to any authorized inspector conducting an inspection under the provisions of the Scheme of Joint International Enforcement.

"4. If the activities or purposes of any properly registered vessel as stated on the registration form are changed, endorsements with the changes noted shall be submitted to the NAFO Secretariat as soon as possible after the date of the change but in any event no later than 30 days after the date of the change, and message endorsements may be appended to the registration form aboard the vessel to reflect the Contracting Party's acknowledgement of such changes.

"5. The NAFO Secretariat will provide to Contracting Parties requesting such information monthly listings of all vessels registered to fish in the Convention Area, including the activities the vessels are authorized to conduct."
2. With the extension of fisheries jurisdiction by the coastal states in NAFO to 200 miles offshore and coastal state requirement for licensing of all vessels fishing inside coastal state jurisdiction, the present reports concern mainly registrations of vessels fishing outside coastal state jurisdiction in Subarea 3, i.e., parts of Div. 3LNO and all of Div. 3M (Flemish Cap).
3. Fishing vessel registration lists for 1979 (to 10 July 1979) were received from Bulgaria, Cuba, Faroe Islands (Denmark), the European Economic Community (EEC), Japan, and Portugal. However, Canadian surveillance reports show that, in addition, Canada, Norway, and the USSR have not submitted registration lists but are fishing, or have fished, outside national jurisdiction in Subarea 3 in 1979.
4. The abbreviations and codes used for the target species in the Appendix are as follows:

COD - Cod	AP - American plaice	HER - Herring
HAD - Haddock	WIT - Witch flounder	MAC - Mackerel
RED - Redfish	YEL - Yellowtail flounder	ARG - Argentine
SH - Silver hake	GH - Greenland halibut	CAP - Capelin
RH - Red hake	FLO - Flounders (not specified)	SQU - Squids
POL - Pollock	RNG - Roundnose grenadier	SHR - Shrimps (= prawns)

An X in the columns below one or more of these abbreviations indicates that fishing would be directed towards the designated species. However, some countries indicated that fishing would be directed to certain target species not included in the table heading. Due to space limitations, these are indicated by an alphabetic code as follows:

A - Tunas	E - Scup	I - Butterfish
B - Swordfish	F - Summer flounder	J - Other finfish
C - Scallops	G - Groundfish	(not specified)
D - Lobster	H - Crabs	

5. The home ports and their 2-letter codes are as follows:
