FOURTH ANNUAL MEETING - SEPTEMBER 1982

Canadian Proposal on Mesh Size Regulation

MOTION

To revise the decision taken yesterday by the Commission on the Conservation and Enforcement Measures, to adopt the new Conservation and Enforcement Measures except for the mesh size regulations on pages 5 and 35 of FC Doc 82/VI/1. The mesh size regulations shall continue to be those which applied when the NAFO Convention came into force, i.e. those in ICNAF Doc 78/VI/1. Further, we propose that STACTIC consider the text of the mesh size regulations at the next annual meeting, to propose an appropriate text for inclusion in the new Conservation and Enforcement Measures.
