<sup>1</sup> Any quota listed for squid may be increased by a transfer from any other quota listed for squid or by a transfer from any "coastal state" as defined in Article 1, para. 3 of the NAFO Convention, provided that the TAC for squid is not exceeded. Transfers made to Contracting Parties conducting fisheries for squid in the Regulatory Area shall be reported to the Executive Secretary, and the report shall be made as promptly as possible.

<sup>2</sup> The opening date for the squid (*Illex*) fishery is 1 July 1981.

<sup>3</sup> Reserved for Spain on the understanding that Spain will act in conformity with all NAFO conservation and enforcement regulations, and will participate in the NAFO Scientific Observer Scheme.

<sup>4</sup> Reserved for the Canadian fishery in Div. 3L.

<sup>5</sup> TAC shall not be increased until such time as the Scientific Council reports that age 3+ annual mean biomass has reached 200 000 metric tons.

<sup>6</sup> 465 tons of this allocation represent a supplementary allocation to ensure participation by two Norwegian vessels in this fishery. This supplementary allocation shall not be taken into account in allocations for future years.

## PART IV

## NAFO Resolutions

- (1) Resolution Relating to Administrative and Financial Arrangements for NAFO, adopted by the General Council on 9 March 1979

The General Council,

Noting the need for administrative and financial arrangements for NAFO, and

Having considered the Report of the Working Group on Finance and Administration,

Adopts the following arrangements:

- (1) that the Executive Secretary of ICNAF be appointed with effect from today as the Executive Secretary of NAFO on the understanding that he will continue to act at the same time as Executive Secretary of ICNAF at least until 31 December 1979 and that as Executive Secretary of NAFO he receive no remuneration for 1979;
- (2) that the Executive Secretary be authorized to appoint the staff of the ICNAF Secretariat as staff of NAFO's Secretariat on the understanding that this staff will continue to act at the same time as staff of ICNAF's Secretariat at least until 31 December 1979 and that as NAFO's Secretariat they receive no remuneration for 1979;
- (3) that pending the adoption of financial regulations the Executive Secretary of NAFO be authorized to receive into a NAFO account all contributions in respect of NAFO and to pay any expenses of NAFO including an administrative fee for any services provided to NAFO by the ICNAF Secretariat;
- (4) that all assets and liabilities of ICNAF as of 31 December 1979 shall be assumed by NAFO effective 1 January 1980;
- (5) that the Executive Secretary of NAFO be instructed to prepare and circulate for consideration at the Annual Meeting of NAFO a budget estimate for the financial year 1980;
- (6) that the President of the Organization be requested to approach the Government of Canada for the purpose of appointing the Auditor General of Canada, who is the present auditor for ICNAF, to be the external auditor for NAFO; and
- (7) that the President of the Organization be requested to approach the Government of Canada for the purpose of obtaining the same privileges and immunities as granted to ICNAF for the new Organization (NAFO) in order that NAFO may enjoy the maximum benefits permissible under existing domestic laws and regulations.

- (2) Resolution Relating to Vessels of Non-Member Countries Operating in the Regulatory Area, adopted by the Fisheries Commission of the Northwest Atlantic Fisheries Organization on 7 June 1979

The Fisheries Commission

Noting that, in 1978 and 1979, vessels flying the flags of Panama, Venezuela, and Mexico have fished in the Regulatory Area,

Noting that Panama, Venezuela, and Mexico are not Members of the International Commission for the Northwest Atlantic Fisheries or the Northwest Atlantic Fisheries Organization, and that the vessels in question have operated outside the conservation regime established by the International Commission for the Northwest Atlantic Fisheries and the Northwest Atlantic Fisheries Organization,

Noting that the fish stocks of the Regulatory Area are, at present, being fully utilized by Members of the International Commission for the Northwest Atlantic Fisheries and the Northwest Atlantic Fisheries Organization,

Noting, in consequence, that fishing by states which are not Members of the International Commission for the Northwest Atlantic Fisheries or the Northwest Atlantic Fisheries Organization represents a serious threat to conservation in the Regulatory Area,

Noting that the vessels in question have links with Members of the International Commission for the Northwest Atlantic Fisheries or the Northwest Atlantic Fisheries Organization and, in particular, that at least some of these vessels are owned either wholly or in part by fishing interests in Member Countries, and that at least some of the catch of these vessels is landed in Member Countries,

- Resolves:
- (1) that all Members of the Northwest Atlantic Fisheries Organization be called upon to take all practicable steps to prevent arrangements between their nationals and vessels flying the flags of States which are not Members of the International Commission for the Northwest Atlantic Fisheries or the Northwest Atlantic Fisheries Organization, where such arrangements involve fishing by such vessels in the Regulatory Area, and
  - (2) that the President of the Organization be requested to inform Mexico, Panama, and Venezuela of the difficulties created by fishing vessels flying their flags with regard to the conservation of the stocks of the Regulatory Area.

(3) Resolution Concerning the Establishment of a Scientific Observer Scheme, adopted by the Fisheries Commission of the Northwest Atlantic Fisheries Organization on 7 June 1979

The Fisheries Commission,

Noting the adoption by the Scientific Council of a report supporting the establishment of an international scientific observer program with respect to fisheries in the Convention Area,

Considering that it would be desirable to improve scientific knowledge of the status of fish stocks in the Regulatory Area, through the establishment of an international scientific observer program,

Hereby Resolves that Parties whose vessels have been conducting fisheries in the Regulatory Area, within the framework established by multilateral fisheries conventions applicable to this Area, be called upon to develop an international scientific observer program, commencing in 1979, on a voluntary basis. The following guidelines are recommended for the establishment of such a program through bilateral discussions:

1. Parties interested in participating in this program would develop mutually satisfactory arrangements on a bilateral basis in order to facilitate the implementation of this program.
2. At the request of the authorities of a Party participating in this program, in accordance with logistic arrangements made on a bilateral basis, the participating Party to which the request is addressed would arrange to have vessels under its jurisdiction that have been identified in these arrangements, and are operating in the Regulatory Area, accept on board scientific observers designated by the requesting Party.
3. Transportation of scientific observers to and from fishing vessels will be the responsibility of the observers' authorities, and may be effected by their inspection vessels designated under the International Commission for the Northwest Atlantic Fisheries or the Northwest Atlantic Fisheries Organization Schemes of Joint International Enforcement, or directly between fishing vessels. Arrangements, including those concerning the transportation and boarding of observers, shall be organized so as to minimize interference with fishing operations, and, for example, in no case shall a fishing vessel be obliged to change its course pursuant to this program. Arrangements will be made for messages to be sent and received on behalf of the observer using the vessel's radio equipment and operator. Any expenses involved in such communication will be borne by the observers's authorities.
4. The masters of fishing vessels receiving scientific observers will ensure that such observers are granted full cooperation upon boarding, including accommodation and meals.
5. Scientific observers participating in the program will carry insurance satisfactory to the Parties concerned, either at their own expense, or as provided by their own authorities.
6. The participating Parties will establish, on a bilateral basis, the terms of reference for the scientific observers placed on board vessels pursuant to bilateral arrangements. The scientific observers will provide to the relevant masters, a copy of such records prepared by the observers, that the masters wish to retain.
7. The scientific observers will submit at the first opportunity, through their authorities to the authorities of the relevant fishing vessels, a copy of all scientific data records.

NOTE: The Fisheries Commission requests that the General Council transmit this Resolution to Parties to the International Convention for the Northwest Atlantic Fisheries which are not Parties to the Convention on Future Multilateral Cooperation in the Northwest Atlantic Fisheries.

- (1/81) Resolution Expressing Serious Concern at the Activities of Spanish Vessels and Inviting Spain to Adhere to the Convention, adopted by the Fisheries Commission on 26 June 1981

Whereas the Fisheries Commission has provided special reservations for Spain in 1981 on the understanding that Spanish vessels would act in conformity with all NAFO conservation and enforcement regulations, and would participate in the NAFO Scientific Observer Scheme;

Whereas NAFO inspectors have reported recurrent violations by Spanish vessels of NAFO regulations by, inter alia, maintaining log records which do not correspond with the amounts of fish on board or refusing to allow full inspections of vessels to compare the amount of fish on board with log records of catches;

Whereas Spain has not implemented the NAFO Scientific Observer Scheme;

Whereas the number of Spanish vessels fishing in NAFO Divisions 3M and 3NO and the catches taken by vessels inspected would suggest that the special reservations allocated to Spain have been exhausted:

THE FISHERIES COMMISSION OF THE NORTHWEST ATLANTIC FISHERIES ORGANIZATION:

CALLS UPON the Government of Spain to ensure that Spanish vessels cease fishing for cod in NAFO Divisions 3M and 3NO immediately;

DRAWs THE ATTENTION of the Government of Spain to the fact that any future allocations for Spain will be dependent upon a formal commitment from Spain to conform with all NAFO conservation and enforcement regulations and to implement the NAFO Scientific Observer Scheme;

INVITES the Government of Spain to take steps to become party to the NAFO Convention as soon as possible in order to participate fully in the conservation and in the rational utilization of the stocks in the NAFO Regulatory Area.

- (1/85) Resolution Concerning Reporting on Catches and Scientific Sampling, adopted by the Fisheries Commission on 13 September 1985

THE FISHERIES COMMISSION calls on all its Members to follow the reporting requirements of NAFO Rules and Regulations (as contained in the provisions concerning management in NAFO document FC 82/IX/13 - Conservation and Enforcement Measures - Part I.C) and comply with the sampling requirements which have been established by the Scientific Council.

- (1/88) Resolution of the Fisheries Commission of the Northwest Atlantic Fisheries Organization regarding reporting of provisional monthly catches by species and stock area, adopted by the Fisheries Commission on 10 February 1988

Whereas in 1982 the Fisheries Commission adopted Conservation and Enforcement Measures;

Whereas Part I, Section C, 3(a) of these Measures requires each Contracting Party to report to the Executive Secretary, within 30 days following the calendar month in which catches are made, provisional monthly catches by species and stock area;

Whereas the implementation of this obligation requires the Contracting Parties to have procedures through which they obtain regular catch reports from their fishing vessels during their fishing operations in the Regulatory Area to ensure proper in-season management of the fishery resources;

Recognizing that for Contracting Parties whose vessels fish in the Regulatory Area in January, the 1st report of the year is required within thirty days of the end of January;

The Contracting Parties represented at the meeting of the Fisheries Commission undertake to take the necessary measures to comply with the reporting requirements of the NAFO Conservation and Enforcement Measures.

- (2/88) Resolution determining the Date on which the Proposal establishing the Modified Scheme of Joint International Enforcement to be entitled "Scheme of Joint International Inspection" shall become a Measure Binding on all Contracting Parties, adopted by the Fisheries Commission on 10 February 1988

Whereas in Article XVIII of the International Convention on Future Multilateral Cooperation in the Northwest Atlantic Fisheries the Contracting Parties have agreed to maintain in force and to implement within the Regulatory Area a scheme of joint international enforcement;

Whereas the Fisheries Commission, pursuant to paragraph 5 of Article XI of the Convention, has adopted a proposal for modifications to the Scheme and to Part I of the NAFO Conservation and Enforcement Measures in accordance with the Annex\* to this Resolution;

Whereas the Fisheries Commission has agreed that the modified scheme of joint international enforcement, now to be entitled "Scheme of Joint International Inspection", and the modification to Part I of the NAFO Conservation and Enforcement Measures, shall come into force only if they are binding in their entirety on all Contracting Parties;

Whereas the proposal adopted by the Fisheries Commission shall now be transmitted by the Executive Secretary to all Contracting Parties pursuant to paragraph 6 of Article XI of the Convention;

The Fisheries Commission hereby resolves, pursuant to paragraph 7 of Article XI of the Convention, that the proposal it has adopted shall become a measure binding on all Contracting Parties ninety days after the date of transmittal specified in the notification of the proposal by the Executive Secretary unless a Contracting Party presents to the Executive Secretary an objection to the proposal pursuant to paragraph 1 of Article XII of the Convention, in which case the proposal shall not become a measure binding on any Contracting Party.

\*See NAFO/FC Doc. 88/1

- (3/88) Resolution of the Fisheries Commission of the Northwest Atlantic Fisheries Organization urging the Contracting Parties to continue and improve the Annual Scientific Program, requesting the same Contracting Parties and the Executive Secretary to urge non-members of NAFO to cooperate with the Program and requesting the Scientific Council to evaluate at the 1989 Annual Meeting the progress of the Program

The Fisheries Commission,

Recalling its decision at the Ninth Annual Meeting to establish an Annual Scientific Observer Program in order to improve scientific knowledge on the status of the fish stocks in the Regulatory Area, and its request that the Scientific Council prepare a report for the 1988 Annual Meeting, and,

Noting the response of the Scientific Council, contained in particular in FC Doc. 88/05 but also in SCS Doc. 88/19 and SCS Doc. 88/20,

Accepts the Scientific Council recommendation that existing scientific surveys be continued and that any new research efforts be addressed towards completing scientific objectives currently in place;

Urges those Contracting Parties which have not recently conducted research surveys to resume such work;

Calls upon Contracting Parties to ensure the provision to NAFO of complete and accurate statistical reports regarding catches, discards and directed fishing efforts, so as to rectify the information deficiencies outlined in FC Doc. 88/05;

Calls also upon Contracting Parties to improve and extend biological sampling of stocks in the Regulatory Area by specialized personnel, either unilaterally or through bilateral cooperative program where appropriate, in order to rectify the information deficiencies outlined in FC Doc. 88/05;

Requests the Executive Secretary and Contracting Parties individually to contact non-members of NAFO, whose nationals fish in the Regulatory Area, to request them to provide NAFO with complete and accurate statistical reports and to cooperate fully with the NAFO Scientific Program; and,

Requests the Scientific Council to evaluate the progress of this program in a report at the 1989 Annual Meeting.

- (4/88) Resolution of the General Council of the Northwest Atlantic Fisheries Organization calling on all Contracting Parties to avoid excessive or inappropriate use of the objection procedure, adopted by the General Council on 16 September 1988

The General Council,

Recalling the obligations inscribed in the Law of the Sea Convention of 1982, as regards international cooperation to provide for the conservation, and optimum utilization of the living resources of the sea;

Bearing in mind that the Convention on Future Multilateral Cooperation in the Northwest Atlantic Fisheries (NAFO) was born out of a desire to promote the conservation and optimum utilization of the living resources of the Northwest Atlantic area;

Recalling that the Convention provides that the object of the Northwest Atlantic Fisheries Organization shall be to contribute through consultation and cooperation to the optimum utilization, rational management and conservation of the living resources of the NAFO Convention Area;

Noting that the Convention provides that the Fisheries Commission shall be responsible for the management and conservation of the fishery resources of the Regulatory Area, and that the Commission exercises this responsibility *inter alia*, by adopting proposals for the establishment of total allowable catch limits and the allocation to Contracting Parties of quotas in the Regulatory Area;

Noting the annual adoption by the Fisheries Commission of fisheries regulations specifically requiring that the Contracting Parties conduct their fisheries in the Regulatory Area in such a manner that catches shall not exceed the total allowable catch for each stock and the quotas for each stock set out in the annual Fisheries Commission regulations;

Considering that the objection procedure set out in Article XII of the NAFO Convention if applied on a continuing basis by any NAFO member against the regulatory fisheries measures adopted by the Commission, may lead to damage of the living marine resources of the Northwest Atlantic;

Calls on all Contracting Parties to avoid excessive or inappropriate use of the objection procedure against the regulatory measures adopted by the Fisheries Commission.

- (1/89) Resolution of the General Council of the Northwest Atlantic Fisheries Organization calling on all Contracting Parties for compliance with the NAFO management framework in place since 1979, and compliance with NAFO decisions in order to provide for conservation and maintain the traditional spirit of cooperation and mutual understanding in the Organization, adopted by the General Council on 15 September 1989

The General Council,

Recalling the obligations inscribed in the Law of the Sea Convention of 1982 as regards international cooperation to provide for the conservation and optimum utilization of the living resources of the sea;

Recalling that the NAFO Convention provides that the object of the Organization shall be to contribute through consultation and cooperation to the optimum utilization, rational management and conservation of the fishery resources of the NAFO Convention Area;

Noting that implementation of the NAFO Convention from the outset has been based on the principles of conformity with scientific advice and relative stability in the proportionate shares of the total catches of NAFO-managed stocks, subject to changes through decisions taken by NAFO;

Noting the commitment of all NAFO Contracting Parties to the principles of conservation and rational management of living marine resources;

Calls for compliance with the NAFO management framework in place since 1979, and compliance with NAFO decisions in order to provide for conservation and maintain the traditional spirit of cooperation and mutual understanding in the Organization.

- (1/90) Resolution of the General Council of the Northwest Atlantic Fisheries Organization on Non-NAFO Fishing Activities, adopted by the General Council on 14 September 1990

Recalling Article 116 of the United Nations Convention on the Law of the Sea stating that the right of all States for their nationals to engage in fishing on the high seas is subject to certain conditions:

Recalling Article 117 of that Convention requiring States to take or cooperate with other States in taking such measures for their respective nationals as may be necessary for the conservation of the living resources of the high seas, and Article 118 which provides that States shall cooperate with each other in the conservation and management of living resources in the areas of high seas;

Recalling Article 63.2 of that Convention providing that where the same stock or stocks of associated species occur both within the exclusive economic zone and in an area beyond and adjacent to the zone, the coastal State and the States fishing for such stocks in the adjacent area shall seek, either directly or through appropriate subregional or regional organizations, to agree upon the measures necessary for the conservation of these stocks in the adjacent area;

Recalling that according to Article 119.2 of that Convention available scientific information, catch and fishing effort statistics, and other data relevant to the conservation of fish stocks shall be contributed and exchanged on a regular basis through competent international organizations, whether subregional, regional or global, where appropriate and with participation by all States concerned;

Considering that the Northwest Atlantic Fisheries Organization is the competent regional fisheries organization for the conservation and rational management of fish resources in the NAFO Regulatory Area;

Recalling Article XIX of the NAFO Convention in which the Contracting Parties agree to invite the attention of any State not a Party to the Convention to matters relating to fishing activities in the Regulatory Area of the nationals or vessels of that State which appear to affect adversely the attainment of the objectives of the Convention;

Recalling the resolution adopted by the Fisheries Commission of NAFO on June 7, 1979 calling on all Contracting Parties to take all practicable steps to prevent arrangements between their nationals and vessels flying the flags of States which are not members of NAFO, where such arrangements involve fishing in the Regulatory Area;

Noting that an increasing number of vessels of States not party to the Convention have been fishing in the Regulatory Area, representing a serious threat to the conservation and rational management of stocks;

Noting further that at least some of the catch of these vessels is landed or sold in States being Contracting Parties;

Declares that all members of the international community whose nationals carry out fishing activities in the NAFO Regulatory Area should ensure that such activities do not have an adverse impact on the stocks or NAFO's ability to ensure conservation; and

resolves that:

- (1) All Contracting Parties should communicate through diplomatic channels with non-Contracting Parties whose vessels fish in the NAFO Regulatory Area to request that they take all necessary measures to prevent any fishing contrary to NAFO conservation measures;
- (2) The Executive Secretary of NAFO draw to the attention of the non-Contracting Parties involved the activities of their vessels in the Regulatory Area, and the negative impact of such fishing on the conservation of fish stocks in the Regulatory Area;
- (3) The Executive Secretary and Contracting Parties individually contact non-Contracting Parties, whose vessels fish in the Regulatory Area, to request them to provide NAFO with complete and accurate statistical reports on their catches in the NAFO Regulatory Area to the end of 1990;
- (4) All Contracting Parties should take effective measures to reduce the benefits of any fishing activities undertaken by vessels from non-Contracting Parties in the NAFO Regulatory Area where such fisheries take place contrary to NAFO conservation measures, with the aim of causing them to withdraw from such activities;
- (5) In full respect of the international obligations of Contracting Parties, further measures should be developed for consideration by the General Council at its 1991 annual meeting, including the possibility of introducing a system under which all Contracting Parties would require that all fish and fish products of a species managed by NAFO, imported from non-Contracting Parties whose vessels fish in the NAFO Regulatory Area, be accompanied by a certificate indicating harvest origin outside that Area.

(1/93) Resolution of the General Council of NAFO (on the report of the Standing Committee on Fishing Activities of Non-Contracting Parties in the Regulatory Area, STACFAC), adopted by the General Council on 10 September 1994

The General Council,

Recalling the Resolution on Non-NAFO Fishing activities adopted by the General Council at the 12th Annual Meeting of the Northwest Atlantic Fisheries Organization, resolving i.a. that

in full respect of the international obligations of Contracting Parties, further measures should be developed for consideration by the General Council at its 1991 annual meeting;

Recalling the Terms of Reference for the Standing Committee, established by the General Council, resolving i.a. that the Committee will

obtain and compile all available information on the fishing activities of non-Contracting Parties in the Regulatory Area, including details on the type, flag and name of vessels and reported or estimated catches by species and area;

obtain and compile all available information on landings, and transshipments of fish caught in the Regulatory Area by non-Contracting Parties, including details on the name and flag of the vessels; the quantities by species landed, transshipped; and the countries and ports through which the product was shipped;

examine and assess all such options open to NAFO Contracting Parties including measures to monitor landings of fish caught by non-Contracting Party vessels in the Regulatory Area;

- Recalling that with respect to the relevant provision of the United Nations Convention on the Law of the Sea, available catch and fishing effort statistics, and other data relevant to the conservation of fish stocks shall be contributed by flag states and exchanged on a regular basis through competent international organizations, whether subregional, regional or global, where appropriate and with participation of all States concerned;
- Considering that the Northwest Atlantic Fisheries Organization is the competent regional fisheries organization for the conservation and rational management of fish resources in the NAFO Regulatory Area,
- Considering the need for all states exploiting these living marine resources to cooperate fully in conservation and management,
- Recalling that in conformity with Article XIX of the Convention States party to the NAFO Convention have drawn the attention of states not party to the NAFO Convention of their fishing activities undermining the effectiveness of NAFO conservation and management measures and that some of these states have withdrawn their vessels from the NAFO Regulatory Area, while vessels from other such States remain,
- Bearing in mind the statistical reports on catches of fish stocks in the NAFO Regulatory Area which are currently provided to NAFO by the Contracting Parties,
- Considering that certain states not party to the NAFO Convention have not provided statistical reports on catches by their vessels in the Regulatory Area,
- Having regard also to the adverse implications of high levels of unreported catches by non-Contracting Parties for the assessment of management advice and the critical state of many of the NAFO-regulated stocks, especially bearing in mind the substantial proportion of the total catches taken by vessels of states not party to the NAFO Convention,
- Considering the desirability of providing administrative arrangements to facilitate in an interim period the gathering of statistical information on landings by vessels flying the flag of these states and therefore Contracting Parties undertake to collect landing declarations,
- Recalling the GATT principles of non-discrimination, transparency and proportionality,

herewith, therefore, the General Council adopts, in principle, the proposed landing declaration scheme and notes the proposed means of implementation (Addendum) which will also take into account specific national legislation of the Contracting Parties to NAFO and the precise assistance required by the non-Contracting Parties.

The General Council requests that STACFAC review and monitor the implementation of this programme and if appropriate consider further means to achieve the withdrawal of all Non-Contracting Party vessels from the NAFO Regulatory Area at the earliest possible date.

The General Council decided to make further diplomatic demarches to Non-Contracting Parties urging them to withdraw their vessels from the NAFO Regulatory Area and to this end the General Council authorizes Canada, the EC, Japan and Russia to represent NAFO in a coordinated delegation, which where possible should include senior fisheries officials, to visit the capitals of the non-Contracting Parties concerned. This joint demarche should take place as soon as possible in order to effect the withdrawal of these vessels before the beginning of the 1994 fishing season.

## Implementation of the Landing Declaration Scheme

1. The Landing Declaration is an interim measure pending withdrawal of non-Contracting Party vessels, designed to help non-Contracting Parties collect statistics of catches by their vessels in the NAFO Regulatory Area.
2. The Landing Declaration records catches of NAFO-regulated groundfish in the NAFO Regulatory Area and, when a non-Contracting Party vessel lands such species into a Contracting Party port, records whether and what quantity was caught in the NAFO Regulatory Area. The Landing Declarations are collected by the Contracting Party authorities on behalf of the non-Contracting Party in accordance with international obligations on the collection of statistics. In the event of non-delivery of a Landing Declaration, the non-Contracting Party is informed of such non-delivery and of the quantities of groundfish products landed by the vessel.
3. The Landing Declaration records the weight of each product landed as in the example attached. One copy is forwarded to the non-Contracting Party and one to the NAFO Secretariat. The main additional information provided by the Declaration is the area of harvest (NAFO Regulatory Area or not).
4. The non-Contracting Party is periodically informed of the results of NAFO surveillance of its vessels. If it appears that a vessel has been fishing in the Regulatory Area but has recorded its landings into a Contracting Party as not having originated in the Regulatory Area, the non-Contracting Party is informed of the apparent discrepancy with a view to investigation by the non-Contracting Party.
5. Landing Declaration forms are in principle made available to vessels by the non-Contracting Party but are freely available at Contracting Party ports.

- (94/1) Resolution of the General Council of NAFO (on Report by the Standing Committee on Fishing Activities of Non-Contracting Parties in the Regulatory Area, STACFAC) adopted by the General Council on 23 September 1994.

To the Parties whose vessels have been observed fishing in the NAFO Regulatory Area over the past year.

NAFO calls upon all its Contracting Parties and upon all those Non-Contracting Parties whose vessels have been observed fishing in the NAFO Regulatory Area over the past year to deposit as soon as possible their instruments of acceptance to the United Nations Food and Agriculture Organization's "Agreement to Promote Compliance with International Conservation and Management Measures by Fishing Vessels on the High Seas" and pending the entry into force of that Agreement, to apply its provisions to the area of High Seas known as the NAFO Regulatory Area with immediate effect.

- (95/1) Resolution of the Fisheries Commission of NAFO adopted on 9 June 1995

#### THE FISHERIES COMMISSION

Having considered the joint proposal by Canada and the European Community to NAFO for 1995 that:

- (a) The 27,000t TAC for 2+3 Greenland halibut be divided as follows:

- 2+3K (Canadian 200 mile zone)	7,000 tonnes
- 3LMNO	20,000 tonnes

- (b) The 7,000t allocation for 2+3K (within Canadian 200 mile zone) for Greenland halibut be allocated to Canada;

Recalling Scientific Council reports which have cautioned about concentrating fishing effort on one part of the stock;

Noting that the catches of Greenland halibut in the NAFO Regulatory Area will take place entirely in 3LMNO;

Noting that Canada will limit its catch in 2+3K to 7,000t and in 3LMNO to 3,000t;

HAS AGREED to implement its decisions for 1995 with respect to 2+3 Greenland halibut by specifying that:

- (a) Sub-area 2+3 shall, as regards the management of Greenland halibut, be geographically divided as follows:

- 2+3K
- 3LMNO

- (b) The TAC for 3LMNO shall be 20,000t.

(97/1) Resolution of the General Council of NAFO adopted on 19 September 1997 relating to the non-participation of Bulgaria and Romania in NAFO

**The General Council**

Recalling that the NAFO Convention provides that the object of the Organization shall be to contribute through consultation and co-operation to the optimum utilization, rational management and conservation of the fishery resources of the NAFO Convention Area;

Noting its concern about the long-standing non-participation of Bulgaria and Romania in NAFO, particularly the non-payment of their respective contributions;

Considering that such long-standing non-participation in NAFO and non-payment of their respective contributions disrupt the normal functioning of the Organization; and

Recalling that the Chairman of the General Council and the Executive Secretary have, on numerous occasions, written to Bulgaria and Romania expressing the Organization's concerns and asking for indications as to their intent concerning future participation in NAFO, with no response,

**resolves that:**

- 1) Each Contracting Party, and in particular the NAFO Convention depositary state, shall communicate through the appropriate diplomatic channels with Bulgaria and Romania;
  - (a) to convey the concerns over their non-participation in NAFO and the non-payment of their contributions to NAFO; and
  - (b) to urge them either to meet their obligations under the Convention or to exercise their rights under Article XXIV thereof, the latter in effect resulting in the suspension of the debt accumulated from the non-payment of contributions.
- 2) Each Contracting Party shall report to the General Council, at its next annual meeting, on the results of its diplomatic communications effected pursuant to paragraph 1 above.
