PART II

NAFO Resolutions (2000 – August 2007)

Resolution (1/06) Resolution adopted by the Fisheries Commission of NAFO relating to the reduction of sea turtle mortality in NAFO fishing operations
(NAFO/FC Doc. 06/7)

Adopted: 22 September 2006
In force: 04 December 2006

(1/06) Resolution to reduce sea turtle mortality in NAFO fishing operations adopted by the Fisheries Commission on 22 September 2006

Recognizing the cultural and ecological significance of sea turtles in the Northwest Atlantic Ocean;

Recognizing that the FAO Committee on Fisheries (COFI) endorsed “Guidelines to Reduce Sea Turtle Mortality in Fishing Operations” at its Twenty-sixth Session, held in March 2005, and that these guidelines are directed towards members and non-members of FAO, fishing entities, subregional, regional and global organizations, whether governmental or non-governmental concerned with fisheries management and sustainable use of aquatic ecosystems;

Further recognizing that implementation of these guidelines should be consistent with the Code of Conduct for Responsible Fisheries as well as with the Reykjavik Declaration on Responsible Fisheries in the Marine Ecosystem with regard to ecosystem considerations and based on the use of the best available science;

Taking into account the importance placed by the guidelines on research, monitoring, the sharing of information, and public education on sea turtles;

The Contracting Parties of NAFO resolve as follows:

1. NAFO Contracting Parties (CPs) should, as appropriate, individually and collectively implement the FAO “Guidelines to Reduce Sea Turtle Mortality in Fishing Operations” (the Guidelines) to reduce the incidental catch of sea turtles and ensure the safe handling of all turtles that are captured.
2. NAFO CPs should continue to enhance the implementation of their existing turtle mitigation measures using best available scientific information on mitigation techniques.
3. NAFO should encourage CPs to collect, and provide to the NAFO Secretariat, all available information on interactions with sea turtles in fisheries managed by NAFO in the NAFO Convention Area and urges them to foster collaboration with other CPs in the exchange of information in this area.
4. NAFO should cooperate with other regional, subregional and global organizations to share data on sea turtle bycatch and to develop and apply compatible bycatch reduction measures as appropriate.
5. Beginning in 2007, CPs should provide to the NAFO Secretariat a detailing of sea turtle fishery interaction data (e.g., species identification, fate and condition at release, relevant biological information and gear configuration), including data collected by their respective national observer programs, in fisheries managed by NAFO in the NAFO Convention Area and any sea turtle-specific training provided to these observers. This information will be compiled by the NAFO Secretariat and reported to the Scientific Council and to the Fisheries Commission.
6. The Fisheries Commission should monitor the progress of CPs in applying this resolution and develop relevant strategies for the further consideration of the Commission in 2008. Information produced as a result of this resolution will be provided by the NAFO Secretariat to the FAO.

In deciding the relevant contributions of Contracting Parties to the 1300 t Others quota, the Fisheries Commission will take into account the fact that some Contracting Parties received a benefit from the 935 t quota which was reassigned in 2005.
8. Applicable to 2005 and 2006.
9. Each Contracting Party shall notify the Executive Secretary every second week of catches taken by its vessels from this stock until accumulated reported catch reaches 50%, after which time weekly notification shall apply. Not more than 2500 tons may be fished before July 1, 2005. The Executive Secretary shall notify without delay all Contracting Parties of the date on which, for this stock, accumulated reported catch taken by vessels of the Contracting Parties is estimated to equal 50% and then 100% of the TAC.
10. The provisions of Article 9, paragraph 3 of the Conservation and Enforcement Measures shall apply.
11. In the case of the NEAFC decision which modify the level of TAC for this stock in 2005 as compared to 2004, these figures shall be accordingly adjusted.
12. Including fishing entitlements of Estonia, Latvia, and Lithuania following their accession to the European Union and in accordance with sharing arrangements of the former USSR quota adopted by the Fisheries Commission at its Annual Meeting in 2003 (FC Working Paper 03/7).
13. Including allocations of 1571 tonnes each for Estonia, Latvia and Lithuania out of a sharing of 20,000 tonnes, following their accession to the European Union.
14. Allocations of 128 tonnes each for Estonia, Latvia and Lithuania as well as 227 tonnes for Poland out of a TAC of 34,000 tonnes, following their accession to the European Union.
15. Including allocations of 144 tonnes each for Estonia, Latvia, Lithuania and Poland out of a TAC of 13000 tonnes, following their accession to the European Union
16. Allocation of 5800 tonnes for Lithuania and 700 tonnes to Latvia following their accession to the European Union.
17. Applicable to 2005, 2006, and 2007.
18. The quota shares in footnotes 4 and 16 can only be fished in the NAFO Regulatory Area. If an increase in the overall TAC as defined in footnote 11 leads to an increase in these shares, the first 500 tonnes of that increase shall be added to the quota share referred to in footnote 4.
19. Including an allocation of 461 tonnes for Estonia, Latvia, and Lithuania following their accession to the European Union.
