

**29th ANNUAL MEETING – SEPTEMBER 2007**

(Proposal by European Union)

**Annex XIII  
Port Inspection Report  
(ADOPTED)**

**Scope:**

The present Annex XIII does not show (in part **A.**) where the infringements found by the inspectors during the port inspection can be mentioned and if it is optional or mandatory (in part **B**) to describe and mention them in the comments sections of the report.

The EC, defending the principle of transparency, consider that when infringements that have been found at sea and confirmed later during the port inspection or when new infringements have been found during the unloading operation the Port Inspection Report form shall indicate the final result concerning the violation of the NAFO Conservation and Enforcement Measures that are going to be used when the legal action and appropriated follow-up is going to be taken against the master and / or the owner of the vessel.

**PROPOSAL:**

(see attached annex)

**Annex XIII  
Port Inspection Report**

**A. "PORT INSPECTION REPORT" FORM**

Page n°

**1. INSPECTION REFERENCE**

Inspection authority

Date of the report

Port of inspection
