

Serial No. 771
(G.b.9)

Document No. 46
(Revised)

ANNUAL MEETING - MAY/JUNE 1960

Summary of the 1959 Statistics on the Groundfish
Landings from the Convention Area

by R.S. Keir

The statistics reported here are taken from the official final statistical submissions to ICNAF, except as noted below.

Canada (Nfld.) - subject to minor correction
Cuba - estimates only

All weights are landings in metric tons round fresh, i.e. the nominal catch. Owing to rounding to the nearest 1,000 tons, totals may not balance exactly.

Summary of 1959 Groundfish Landings

	Subarea					Thousand Tons	
	1	2	3	4	5	Total	1958
