ANNUAL MEETING - JUNE 1973

Catch and Effort Statistics for GDR Fisheries  
in the ICNAF Area in 1969 and 1970

by

Assistant Executive Secretary

When ICNAF *Statistical Bulletin*, Vol. 19 for 1969 and Vol. 20 for 1970 were compiled and published, detailed catch and effort statistics for the German Democratic Republic fisheries in the Northwest Atlantic were not available and consequently not included in the Tables of these volumes. However, just prior to the printing of Vol. 20, some information on GDR catches in 1969 and 1970 were obtained and these data were included in Appendices 1 and 2 of that volume under the heading "Non-member A".

Early in 1973 the Secretariat obtained a copy of *Fischerei-Forschung*, Vol. 10, No. 1, 1972, published by the Institute for Marine Fisheries and Fish Processing, Rostock, Marienehe, German Democratic Republic. That issue is devoted almost entirely to catch and effort statistics of GDR fisheries in the North Atlantic, both for the ICNAF and ICES Areas, in 1969 and 1970, and the data are presented in a format very similar to that of the STATLANT Forms. The relevant data for the ICNAF Area have been extracted from that publication and are presented below in four Tables.

Tables 1 and 3 contain the monthly and annual nominal catch statistics for the years 1969 and 1970 respectively, tabulated by species and by ICNAF divisions (or subdivisions, where applicable).

Tables 2 and 4 contain the catch and effort statistics in a format similar to that used for Table 4 of ICNAF *Statistical Bulletins*, i.e. by divisions (or subdivisions), by month, by gear, by main species and by tonnage class.

The data presented in these Tables supercede the summary data for Non-member A given in Appendices 1 and 2 of *Statistical Bulletin*, Vol. 20 for 1970. The abbreviations for species and gear and the code numbers for tonnage class are the same as those used in *Statistical Bulletin*, Vol. 20.

Detailed catch and effort data for GDR fisheries in 1971 have not yet been received, but annual nominal catch data were included in the various Tables of *Statistical Bulletin*, Vol. 21.
