ICNAF Summ. Doc. 76/VI/34
(ADDENDUM)

1975 Supplement to List of Fishing Vessels for 1974

by

Assistant Executive Secretary

Several countries had not reported their revisions for the List of Fishing Vessels up to 28 May 1976, when Summ. Doc. 76/VI/34 was compiled. The appended pages contain the deletions and additions to the Spanish list. Deletions are indicated by lines drawn through the names of the vessels on the 1974 computer list, and additions are listed on pages 11 and 12.

ICNAF Summ.Doc. 76/VI/34

1975 Supplement to List of Fishing Vessels for 1974

by

Assistant Executive Secretary

Introduction

At the January 1974 Special Commission Meeting, STACRES (Standing Committee on Research and Statistics) reiterated the need for continuing the publication of the *ICNAF List of Fishing Vessels* every three years as in the past, and recommended (a) that the complete list be published for the year 1974, and (b) that the list be updated annually, with additions to or deletions from the most recently published list of vessels included in a summary document for presentation to the Annual Meeting (*ICNAF Redbook 1974*, page 15).

The *List of Fishing Vessels* for 1974 was published in February 1976, several months later than planned due to the tardiness on the part of several countries in submitting their lists to the Secretariat despite several reminders to those countries that the data were urgently required. Shortly after the *List of Fishing Vessels* for 1974 was issued, member countries were requested by Circular Letter 76/23 (issued 16 March 1976) to update their 1974 lists to the status of 1975 by

- a) checking an enclosed copy of the 1974 list for possible errors and completing any blank spaces on the 1974 list, where possible,
- b) deleting the names of those vessels which did not fish in the Northwest Atlantic in 1975,
- c) adding the names and all relevant information for vessels which fished in the Northwest Atlantic at any time during 1975 but which do not appear on the 1974 list, and
- d) returning the revised list by AIRMAIL to reach the Secretariat by 30 April 1976.

Update of 1974 List of Vessels

Up to 28 May 1976, updated reports have been received from Canada(MQ), Canada(N), Denmark(G), Denmark(M), France(SP), German Democratic Republic, Italy, Japan, Norway, Portugal and USSR, and a complete 1975 list for Bulgaria which did not submit a list for 1974. This supplement is therefore very incomplete in that data are lacking for several member countries, as indicated in the list of tables given below.

The revisions listed in the appended tables are so arranged as to facilitate their relation to those published in the *List of Vessels* for 1974. Table numbers correspond to those in the published list and the same row numbers are used when reference is made to deletions and other changes. The following list of tables indicates the 1975 data available prior to the 1976 Annual Meeting:

Revisions to Home Port Codes

The 1975 revisions to the lists of vessels resulted in some additions to the "Home Ports" and their 2-letter codes listed on pages 20-21 of the *List of Vessels* for 1974. These are as follows:

BULGARIA

BS Bourgas

CANADA (MQ)

LE Leonardville, N.B.
MI Mingan, Que.
NH North Head, N.B.
PP Pas Peblac, Que.
SB Shelburne, N.S.
SE Seal Cove, N.B.

CANADA (N)

BC Benoit's Cove
BD Blackduck Cove
BL Bauline
FC Flowers Cove
PG Port De Grove

ITALY

CA Cagliari

NORWAY

AV Austevoll

PORTUGAL

AV Aveiro
FF Figueira Da Foz
LX Lisboa (Lisbon)
PT Porto (Oporto)
VC Viana Do Castelo

Other changes

In the revised listings of fishing vessels, most countries indicated some changes relevant to individual vessels. The most significant of these changes are indicated in the tables. Such changes as "number in crew", "gear size", "subareas fished", etc., are not given, as this would for most countries involve the production of complete lists. Computer printouts of complete lists, updated to 1975, may be obtained from the Secretariat upon request.

CHANGES:

40 ODD ERIC (change name to ODD ERIK; register no. = M-96-SØ; home port = MB)
 Other changes relate to the number in crew for some vessels as well as the subareas fished and these are not recorded here; however, for all vessels with "gear type" designated as "LL", change to LLS.

AV (=AUSTEVOLL) should be added to the "home port" list on page 20 of the 1974 List of Vessels.

1 Sealing vessel

2 Also used LLS

3 Also used PS
