ICNAF Summ. Doc. 77/VI/4

List of Fishing Vessels 50 GRT and over, 1975

by

Assistant Executive Secretary

1. Introduction

The ICNAF *List of Fishing Vessels* is published every three years, and the most recent issue of this series is that for 1974, which was published early in 1976.

At the January 1974 Special Meeting, STACRES reiterated the need for continuing the "List of Vessels" series, and recommended that the list be updated annually and issued as a summary document for the succeeding Annual Meeting. Summ. Doc. 76/VI/34 (+ Addendum), presented to the 1976 Annual Meeting, contained information on vessels operating in the ICNAF Area in 1975 for several countries, but the list was rather incomplete at that time. This document presents all available information up to January 1977, as derived from the national submissions of 17 of the 18 member countries of ICNAF. No reports were received from Denmark (Faroes) and Romania for 1975.

2. Number and Tonnage of Vessels by Country, Gear and Tonnage Class

The following table gives the number and tonnage of fishing vessels (50 GRT and over) by country, gear and tonnage class for 1975, with information on the number and tonnage of vessels in 1974 in the last two columns for comparison. The abbreviations for fishing gears and tonnage class used in this table are defined as follows: OT = otter trawl, OT-1 = otter trawl (side), OT-2 = otter trawl (stern), SN = seine nets, PS = purse seine, GN = gillnets, LL = longlines, FPO = covered pots, DRB = boat dredge, NS = not specified, 3 = 50-149 GRT, 4 = 150-499, 5 = 500-999, 6 = 1000-1999 and 7 = 2000 and over.

¹ Excludes Denmark (F) and Romania.

3. Notes on Statistical Items in the Vessel List (Tables 1 to 20)

The listing of vessels by country corresponds with the arrangement adopted for statistical reporting purposes, i.e. separate lists are given for Canada (MQ) and Canada (N); for Denmark (G) and Denmark (M); and for France (M) and France (SP). The vessels are listed by name in alphabetical order, followed by the various parameters in the order listed below.

- Vessel Name - In a few cases the name of the vessel is abbreviated to fit in the available space. For some countries the vessel type (i.e. BMRT, etc.) and vessel number is given.
- Date Built - The year when the vessel was built or completed.
- Gross Tonnage - The gross registered tonnage (GRT) is given here. Tonnage data, originally submitted to one or two decimal places, have been rounded to the nearest ton.
- Total Length - This should be the overall total length of the vessel, but for some countries the length may be registered length. The unit of measure (feet or meters) is indicated in the table headings. Lengths reported to one or more decimal places have been rounded to the nearest unit.
- Engine Horsepower - The brake horsepower, i.e. the manufacturer's nominal rating for continuous operation.
- Engine Type - Such types as Steam, Diesel or Diesel-Electric, etc. are indicated when available.
- Register Number - This is the official register number of each vessel.
- Vessel Call Letters - The call sign assigned to the radio-telephone equipment on the vessel is given here.
- Home Port - The home ports are given as 2-letter codes; the ports corresponding to these are listed in Section 4 below.
- Echo-sounder - The presence of horizontal and/or vertical type sounders is indicated by the letter X.
- Crew - The number of crew members usually carried.
- Gear Type - The type of gear is designated by abbreviations corresponding to those listed in Section 5 below.
- Gear Size - For trawls the footrope length is usually given; however, some countries provide both headrope and footrope length. Gear size is normally given in the same unit of measurement as total length, except for USA, where gear size is in yards.
- Subareas Fished - These are designated by the digits 0 to 6 and mean Subareas 1 to 5 and Statistical Areas 0 and 6.
- Comments - Any available comments are given at the end of each country's list.

5. Fishing Gears and their Abbreviations

Abbreviation	Gear
OTB	Bottom otter trawl (side or stern not specified)
OTB1	Bottom otter trawl (side)
OTB2	Bottom otter trawl (stern)
OTM	Midwater otter trawl (side or stern not specified)
OTM1	Midwater otter trawl (side)
OTM2	Midwater otter trawl (stern)
PTB	Bottom pair trawl (2 boats)
PTM	Midwater pair trawl (2 boats)
SDN	Danish seines
SSC	Scottish seines
SPR	Pair seine (2 boats)
SB	Beach seines
PS	Purse seines
GN	Gillnets (not specified)
GNS	Gillnets (set)
GND	Gillnets (drift)

Abbreviation	Gear
LL	Longlines (set or drift not specified)
LLS	Longlines (set)
LLD	Longlines (drift)
LHP	Handlines and pole-lines
LTl	Troll lines
LDV	Dory vessel gears
FIX	Traps (not specified)
FPN	Uncovered pound nets
FPO	Covered pots
FWR	Barriers, fences, weirs, etc.
DRB	Boat dredges
DRH	Hand dredges (e.g. rakes and tongs)
HAR	Harpoons
MIS	Miscellaneous gears
NK	Gear not known or not specified
