ICNAF Summ. Doc. 77/VI/8

ANNUAL MEETING - JUNE 1977

Historical Catches of Regulated Species by Stock Area and Country for the Period 1966-75

by

Assistant Executive Secretary

The following historical catch tables for the 10-year period 1966-75 are updated from a set of similar tables for 1965-74 in ICNAF Summ. Doc. 76/VI/10. The data are listed by country for each species and stock area. The catches of "Other Finfish" and "Total Finfish + Squids" in SA 5+6 exclude menhaden, tunas, billfishes and large sharks. While the catches of butterfish and river herring in SA 5+6 are listed in separate tables, they are included in the tables for "Other Finfish" and "Total Finfish + Squids".

The primary source of the statistical data is the ICNAF *Statistical Bulletin*, Vol. 16-25. Footnotes to the individual tables cover situations in which the catches were not reported by the degree of precision required. All known revisions to the published statistics have been incorporated into the tables as follows:

- a) Japanese data for 1967-69 are revised statistics from ICNAF Summ. Doc. 76/VI/9.
- b) Bulgarian statistics for 1969-70 and German Democratic Republic statistics for 1969-71 are from Part IV of *Statistical Bulletin*, Vol. 22.
- c) The data given for the flatfish species are from the revised statistics in Part IV of *Statistical Bulletin*, Vol. 23.
- d) Data given for Norway in 1974 take into account the revisions listed in Part IV of *Statistical Bulletin*, Vol. 25.
- e) Data given for Cuba in 1973 and 1974 are from Part IV of *Statistical Bulletin*, Vol. 25.
- f) Data listed under "Others" for 1975 pertain to Ireland and are from ICNAF Summ. Doc. 77/VI/3, which reflect a more accurate breakdown of catches by divisions than those listed in the tables of *Statistical Bulletin*, Vol. 25.
- g) In some years the USSR catches of large sharks and dogfishes were not given separately in the reported statistics, but were listed as "Sharks"; since USSR scientists have indicated that these catches consist mostly of dogfishes (as opposed to large sharks), these catches have been considered to be dogfishes and are thus included in the USSR catches of "Other Finfish".
- h) The squid catches (Tables 66-68) continue to be listed under the categories "Squid-*Illex*", "Squid-*Loligo*", and "Squid(NS)" for Subarea 5 and Statistical Area 6. Information solicited from a number of countries has enabled the estimation of catches for *Illex* and *Loligo* separately, but reports have not yet been received from Poland, USSR and USA regarding the requested breakdown of catches designated as "Squids(NS)" prior to 1975, and several countries did not provide the required breakdown for 1975 statistics (Table 68). The breakdown of Spanish catches for squids in SA 5+6 for 1969-73 is from Working Paper No. 3, Fifth Special Commission Meeting, Miami, USA, November 1974.

\* Executive Secretary, ICNAF, P.O. Box 638, Dartmouth, Nova Scotia, Canada B2Y 3Y9.
