ANNUAL MEETING - JUNE 1979

List of Fishing Vessels, 50 GRT and over, for 1977

by

Assistant Executive Secretary

It was noted in Sum. Doc. 79/VI/13 that, up to the end of April 1979, complete lists of fishing vessels for 1977 had not been received from Romania and Spain. Subsequent to the printing of the Summary Document, the following information was received from Romania:

ANNUAL MEETING - JUNE 1979

List of Fishing Vessels, 50 GRT and over, for 1977

by

Assistant Executive Secretary

1. Introduction

The ICNAF List of Fishing Vessels is published every three years, the most recent issue of this series being that for 1974 which was issued in February 1976. At the January 1974 Special Meeting, STACRES reiterated the need for continuing the List of Vessels series and recommended that the list be updated annually and issued as a summary document for the succeeding Annual Meeting. Sum. Doc. 77/VI/4 contained all available information for 1975, except Denmark (Faroes) and Romania. Sum. Doc. 78/VI/5 contained the list of vessels reported for 1976, except Denmark (Faroes), France (Metropolitan), Iceland, Romania, Spain, and United States of America.

2. List of Vessels for 1977

At the 1977 Annual Meeting, STACRES recommended that the list of vessels for 1977 be published, together with relevant summary tables, in the triennial volume for 1977. Early in 1978, member countries were requested to report on vessels fishing in the Northwest Atlantic (Subareas 0 to 6) during 1977, and emphasis was placed on the fact that the lists were required for publication in the latter part of 1978. However, up to the end of April 1979, data for 1977 are still lacking for Romania and only a partial list has been received for Spain. Consequently, the publication of the List of Fishing Vessels for 1977 has been significantly delayed. Pending the receipt of the complete 1977 lists from Romania and Spain, the available information is presented in Tables 1 to 20 of this document.

3. Number and Tonnage of Vessels by Country, Gear and Tonnage Class for 1977

The following table gives the number and total tonnage of fishing vessels (50 GRT and over) by country, gear and tonnage class for 1977, based on the data given in Tables 1 to 20, with information on the number and tonnage of vessels in 1976 for comparison. The abbreviations for fishing gears and tonnage classes used in this table are defined as follows: OT = otter trawl, OT-1 = otter trawl side, OT-2 = otter trawl stern, SN = seine nets, PS = purse seine, GN = gillnets, LL = longlines, FPO = covered pots, DRB = boat dredge, HAR = harpoon, NS = not specified; 3 = 50-149 GRT, 4 = 150-499, 5 = 500-999, 6 = 1000-1999, and 7 = 2000 and over.

4. Notes on Statistical Items in the Vessel List (Tables 1 to 20)

The listing of vessels by country corresponds with the arrangement adopted for statistical reporting purposes, i.e. separate lists are given for Canada (MQ) and Canada (N); for Denmark (F), Denmark (G) and Denmark (M); and for France (M) and France (SP). The vessels are listed by name in alphabetical order, followed by the various parameters in the order listed below.

- Vessel Name - In a few cases the name of the vessel is abbreviated to fit in the available space. For some countries the vessel type (i.e. BMRT, etc.) and vessel number is given.
- Date Built - The year when the vessel was built or completed.
- Gross Tonnage - The gross registered tonnage (GRT) is given here. Tonnage data, originally submitted to one or two decimal places, have been rounded to the nearest ton.
- Total Length - This should be the overall total length of the vessel, but for some countries the length may be registered length. The unit of measure (feet or meters) is indicated in the table headings. Lengths reported to one or more decimal places have been rounded to the nearest unit.
- Engine Horsepower - The brake horsepower, i.e. the manufacturer's nominal rating for continuous operation.
- Register Number - This is the official national register number of each vessel.
- Vessel Call Letters - The call sign assigned to the radio-telephone equipment on the vessel is given here.
- Home Port - The home ports are given as 2-letter codes; the ports corresponding to these are listed in Section 5 below.
- Echo-sounder - The presence of horizontal and/or vertical type sounders is indicated by the letter X.
- Crew - The number of crew members usually carried.
- Gear Type - The type of gear is designated by abbreviations corresponding to those listed in Section 6 below.
- Subareas Fished - These are designated by the digits 0 to 6 and mean Subareas 1 to 5 and Statistical Areas 0 and 6.
