SCIENTIFIC COUNCIL MEETING - JUNE 2001

**Historical Nominal Catches for
Selected Stocks**

by

NAFO Secretariat

The Secretariat had for many years routinely published tabulations of the catches of selected species considered to be relatively important commercially, by stock area and country (following the ICNAF guidelines). After a Summary Document (SCS Doc. 86/2) which presented data for the 22 year series from 1963 to 1984, annual publications have presented 11-year tabulation updates for 1975 to 1985, 1976 to 1986, etc. in SCS Doc. 87/3, 88/1, 89/7, 90/1, 91/1, 92/5, 93/5, 94/1 and 95/5. The data presented in the SCS Doc. Publications may at times have been subsequently revised, as corrections and clarifications were received at the NAFO Secretariat. Revised data for the period 1960-90 was published in April 1995 as *NAFO Statistical Bulletin, Supplementary Issue, Fishery Statistics for 1960-90*.

In the years following, statistical information has not been received on a timely basis at the NAFO Secretariat and consequently this series was not maintained. Collection of data is progressing and the data presented in this publication are the current updated figures available at the NAFO Secretariat, and constitute catch records for the 11-year period 1989-99 for only the species and stocks for which the Fisheries Commission seeks advice.
