In accordance with Rule 4.4 of the Rules of Procedure of the Scientific Council, as amended by Scientific Council in June 2006, the deadline dates for this year's submission of STATLANT 21A data and 21B data for the preceding year are 1 May and 31 August, respectively. Table 1 provides the current status of data submissions received so far by the Secretariat. A list of countries that have submitted catch and effort data to 21A and 21B is given in Table 1. All data submitted to the Secretariat has been entered into the appropriate STATLANT databases.

This paper presents the current catches of assessed fish stocks in Area 21 as derived from the STATLANT 21A database current to 4 June 2009. Catches for specified species are presented for an eleven year period, 1998-2008, and represent those available at the time of the SC June meeting (Tables 2-22).
