Fisheries Organization

Serial No. N5819

NAFO SCS Doc. 10/20

## SCIENTIFIC COUNCIL MEETING – SEPTEMBER 2008

Available Data from the Commercial Fisheries Related to Stock Assessment (2009)

and

Inventory of Biological Surveys Conducted in the NAFO Area in 2009

and

Biological Surveys Planned for 2010 and Early-2011

At its meetings in June 2002 and 2003, the Scientific Council (STACREC) agreed that three Tables which are usually compiled and presented as Tables 3, 4 and 5 in the STACREC report are important and need to be complete with information from all Scientific Council sources. Accordingly, STACREC in June 2002 **recommended** that *in future years the Secretariat compile the reports of research activities as a working document for the June Meeting, and that it then be presented to STACREC as a SCS document at its September Meeting.*

The attached Tables were drafted as Scientific Council Working Papers during the June 2010 Scientific Council Meeting and have been updated/corrected through correspondence.

Available data from the commercial fisheries related to stock assessment (2009). (+ means data available).

Stock	Country <sup>1</sup>	Biological Sampling					
		Catch	CPUE	Sex	Length	Age	Individual Wt.
