NAFO SCS Doc. 13/03

SCIENTIFIC COUNCIL MEETING - 2013**Denmark (on behalf of Greenland) Request for Scientific Advice on Management in 2014 of Certain Stocks in Subarea 0 and 1**

Emanuel Rosing
Director General
Greenland Institute

1. For Roundnose grenadier in Subarea 0 + 1 advice was in 2011 given for 2012-2014. Denmark (on behalf of Greenland) requests the Scientific Council to continue to monitor the status of Roundnose grenadier in Subareas 0 and 1 annually and, should significant changes in the stock status be observed (e.g. from surveys), the Scientific Council is requested to provide updated advice as appropriate.
2. Advice for golden redfish (*Sebastes marinus*), demersal deep-sea redfish (*Sebastes mentella*) American plaice (*Hippoglossoides platessoides*), Atlantic wolffish (*Anarhichas lupus*), spotted wolffish (*A. minor*) in Subarea 1 was in 2011 given for 2012-2014. Denmark (on behalf of Greenland) requests the Scientific Council to continue to monitor the status of these species annually, and should significant change in stock status be observed, the Scientific Council is requested to provide updated advice as appropriate.
3. Subject to the concurrence of Canada as regards Subareas 0 and 1, the Scientific Council is requested to provide advice on appropriate TAC levels for 2014 separately for Greenland halibut in 1) the offshore area of NAFO Division 0A and Division 1A plus Division 1B and 2) NAFO Division 0B plus Divisions 1C-1F. The Scientific Council is also asked to advice on any other management measures it deems appropriate to ensure the sustainability of these resources.

Scientific Council is also requested to provide an adaptive advice on the impact on the Greenland halibut in NAFO Division 0A and Division 1A plus Division 1B in 2014 and beyond of an increase in TAC above the 2013 TAC.

4. Advice for Greenland halibut in Division 1A inshore was in 2012 given for 2013-2014. Denmark (on behalf of Greenland), requests the Scientific Council to continue to monitor the status of Greenland halibut in Subarea 1A inshore annually, and should significant change in stock status be observed, the Scientific Council is requested to provide updated advice as appropriate.
5. Subject to the concurrence of Canada as regards Subarea 0 and 1, Denmark (on behalf of Greenland) further requests the Scientific Council before December 2013 to provide advice on the scientific basis for management of Northern shrimp (*Pandalus borealis*) in Subarea 0 and 1 in 2014 and for as many years ahead as data allows for.

In its advice, SC is also asked to report on progress made in verifying the effective operation of harvest control rules in meeting criteria for biomass, exploitation rate and risk levels.'

6. Furthermore, the Scientific Council is in cooperation with ICES requested to provide advice on the scientific basis for management of Northern shrimp (*Pandalus borealis*) in Denmark Strait and adjacent waters east of southern Greenland in 2014 and for as many years ahead as data allows for.
