

ANNUAL MEETING - JUNE 1966Preliminary Selected Bibliography of Fishery Economics

With the development of an increasing interest in the economic aspects of fishery management, Commissioners and their administrative and scientific advisers will find it useful to have ready access to a list of the literature bearing on the subject of fishery economics.

This is a preliminary bibliography drawn mainly from a reference list kindly provided by the Canadian Department of Fisheries.

Additions to this list would be appreciated in order to make it as complete, up-to-date and valuable as possible.
