

International Commission for

the Northwest Atlantic Fisheries

Serial No. 4093

(A.e.4)

ICNAF Comm.Doc. 76/XII/82

NINTH SPECIAL COMMISSION MEETING - DECEMBER 1976

Draft Proposal for International Quota Regulation of the Fishery
for Squid (Loligo and Illex) in Division 5Z of Subarea 5
of the Convention Area and Adjacent Waters to the West
and South Within Statistical Area 6

by US Delegation

Taking into Account that the coastal states may not be able to take their 1977 national quota allocations for squid (Loligo and Illex) in the Convention Area and in Statistical Area 6 adopted at the Annual Meeting in June 1976; and

Noting that indicative revised allocations were provided by the United States as guidance to nations which might benefit from a reallocation and were reflected in second tier allocations recommended by the Commission at the Ninth Special Meeting;

"That Competent Authorities from each Contracting Government shall limit in 1977 the catch of squid (Loligo and Illex) taken by persons under their jurisdiction from the above mentioned stock to the amount decided for each Contracting Government at the 1977 Annual Meeting by unanimous vote of the Contracting Governments present and voting, and if a decision to revise the catch taken by persons under their jurisdiction is taken, such amounts would become effective for each Contracting Government upon receipt of notification from the Depositary Government of the amounts decided by the Commission."
