ICNAF Summ. Doc. 76/VI/10

ANNUAL MEETING - JUNE 1976

Historical catches of TAC species by stock area
and country for the period 1965-74.

by

ICNAF Secretariat

The following historical catch tables are updated from a set of similar tables for 1963-72 in ICNAF Summ. Doc. 74/25 (revised) and for 1964-73 in Working Paper No. 1 from the April 1975 Meeting of the Assessments Subcommittee. The primary source of the statistical data is the ICNAF *Statistical Bulletin*, Vol. 15-24, but all known revisions have been incorporated. Appropriate footnotes to the individual tables cover situations in which catches were not reported to the required degree of precision. Japanese data for 1967-69 are revised statistics from Summ. Doc. 76/VI/9. Spanish squid catches (by species) for 1969-73 were taken from Working Paper No. 3 from the Fifth Special Commission Meeting in November 1974, as these are considered to reflect the Spanish squid catches more accurately than data reported in the *Statistical Bulletin*. The information for the flatfish species incorporates the revised statistics published in Part IV of *Statistical Bulletin*, Vol. 23. In some years the USSR catches of large sharks and dogfishes were not given separately in the reported statistics but listed as "Sharks"; since USSR scientists have indicated that these catches consist mostly of dogfishes (as opposed to large sharks), these catches have been considered to be dogfishes and are thus included in the USSR catches of "Other Finfish".

The squid catches (pages 63-66) continue to be listed in the categories "Squid-*Illex*", "Squid-*Loligo*" and "Squid(NS)". An attempt is being made to obtain from member countries a breakdown of "Squid(NS)" catches by species. It is hoped that all countries will report their catches by species in time for revisions of the tables on pages 63-66 to be issued during the April 1976 Meeting of the Assessments Subcommittee.
