ICNAF Summ. Doc. 76/VI/41

ANNUAL MEETING - JUNE 1976

Nominal catches (1965-74) by country and stock area,  
with TACs and allocations (1973-76) for species and  
stocks proposed for regulation in 1976

by

Assistant Executive Secretary

In accordance with procedures followed at recent Meetings of the Commission, the Secretariat has prepared the following tables, providing the most up-to-date information available on catches by stock area and country as well as the TACs and allocations, as an aid for Commission delegates at the 1976 Annual Meeting. The catches listed for 1975 are based on more recent statistical reports than those available at the April 1975 Meeting of the Assessments Subcommittee and, consequently, the stock totals for 1975 in the attached tables may differ slightly from those given in Table 1 of Summ. Doc. 76/VI/22 (Report of the Assessments Subcommittee) and in Table 1 of the Report of STACRES to this meeting.
