ANNUAL MEETING - JUNE 1978

Nominal Catches (1967-76) by Country and Stock Area, with TACs and Allocations (1974-78)
for Species and Stocks Reviewed by the Assessments Subcommittee in April 1978

by

Assistant Executive Secretary

In accordance with procedures followed at recent meetings of the Commission, the Secretariat has prepared a series of tables providing the most up-to-date information available on catches by stock area and country for the 10-year period 1967-76, together with TACs and allocations for 1974-78, as an aid for Commission delegates at the 1978 Annual Meeting.

The catches for 1977, given in the stock area tables are based on more recent statistical reports than those available at the April 1978 Meeting of the Assessments Subcommittee, and, consequently, the stock area catches for 1977 in the appended tables may differ slightly from those mentioned in the Report of the Assessments Subcommittee (Sum. Doc. 78/VI/16), the summary table from which is given below with the nominal catch figures updated, where necessary.
