Registration of Fishing Vessels, 1978 and 1979

by

The ICNAF Secretariat

1. At the September 1975 Special Meeting of ICNAF, the following arrangements for national registration of vessels engaged in fishing or in the treatment of sea fish in the Convention Area and Statistical Areas 0 and 6 were adopted and entered into force on 14 April 1976 for all Contracting Parties:

"1. All vessels over 50 gross tons engaged in fishing or in the treatment of sea fish in the Convention Area or Statistical Areas 0 and 6 shall be registered by the Flag State. A report of this registration shall be filed with the ICNAF Secretariat prior to 1 January of each year, when possible, or in a timely manner following departure of the vessel from its home port, or by message within 30 days if the Flag State changes the terms of its registration.

"2. Such report shall include:

- (a) Name of vessel, both native and Latin alphabet spelling,
- (b) Official number of the vessel registered by appropriate authorities of the Flag State,
- (c) Home port and nationality of vessel,
- (d) Owner or charterer of vessel,
- (e) Certification that master has been provided with the regulations in force for the area or areas where the vessel will be engaged in fishing for sea fish,

* Executive Secretary, ICNAF, P. O. Box 638, Dartmouth, Nova Scotia, Canada B2Y 3Y9

- (f) Principal target species of the vessel while engaged in fishing for sea fish while in the Convention Area or Statistical Areas 0 and 6,
(g) Subareas where the vessel will be expected to fish.

"3. A document of registration of the vessel in a form prescribed by the national legislation shall be maintained aboard the vessel and shall be made available to any authorized inspector conducting an inspection under the provisions of the Scheme of Joint International Enforcement.

"4. If the activities or purposes of any properly registered vessel as stated on the registration form are changed, endorsements with the changes noted shall be submitted to the ICNAF Secretariat as soon as possible after the date of the change but in any event no later than 30 days after the date of the change, and message endorsements may be appended to the registration form aboard the vessel to reflect the Flag State's acknowledgement of such changes.

"5. The ICNAF Secretariat will provide to Member Governments requesting such information monthly listings of all vessels registered to fish in the Convention Area or Statistical Areas 0 and 6, including the activities the vessels are authorized to conduct."

2. With the extension of fisheries jurisdiction by the coastal states in ICNAF to 200-miles offshore and coastal state requirement for receiving of all vessels fishing inside coastal state jurisdiction, the present reports concern mainly registrations of vessels fishing outside coastal state jurisdiction in Subarea 3, i.e. parts of Div. 3LNO and all of Div. 3M (Flemish Cap).
3. Fishing vessel registration lists for 1978 were received from Canada (Nfld), Cuba, Denmark (Faroe Islands), France, Japan, Norway, Spain (only 2 vessels listed), and USSR (Appendix I). The following countries reported catches outside national jurisdiction in Subarea 3 in 1978 but did not submit vessel registration lists: Federal Republic of Germany, Poland, Portugal, Spain (did not submit complete list), and UK (see also Com. Doc. 79/VI/17 "Report on Fishing Activity and Enforcement in 1978").
4. Fishing vessel registration lists for 1979 (to 15 May 1979) were received from Bulgaria, Cuba, Denmark (Faroe Islands), and Japan (Appendix II) while Canadian surveillance reports show that, in addition, Canada, Cuba, France, Norway, Poland, Portugal, Spain and the USSR had not submitted registration lists but were fishing outside national jurisdiction in Subarea 3 in 1979.
5. The abbreviations and codes used for the target species in the Appendix tables are as follows:

COD	- Cod	GH	- Greenland halibut
HAD	- Haddock	FLO	- Flounders (not specified)
RED	- Redfish	RNG	- Roundnose grenadier
SH	- Silver hake	HER	- Herring
RH	- Red hake	MAC	- Mackerel
POL	- Pollock	ARG	- Argentine
AP	- American plaice	CAP	- Capelin
WIT	- Witch flounder	SQU	- Squids
YEL	- Yellowtail flounder	SHR	- Shrimps (= prawns)

An X in the columns below one or more of these abbreviations indicates that fishing would be directed towards the designated species. However, some countries indicated that fishing would be directed to certain target species not included in the table heading. Due to space limitations, these are indicated by an alphabetic code as follows:

A	- Tunas	F	- Summer flounder
B	- Swordfish	G	- Groundfish
C	- Scallops	H	- Crabs
D	- Lobster	I	- Butterfish
E	- Scup	J	- Other finfish (not specified)
