

International Commission for

the Northwest Atlantic Fisheries

Serial No. 5492

ICNAF Sum. Doc. 79/VI/31

ANNUAL MEETING - JUNE 1979

Nominal Catches (1968-77) by Country and Stock Area, with TACs and Allocations (1974-79)
for Species and Stocks Reviewed by STACRES since the 1978 Annual Meeting

by

Assistant Executive Secretary

In accordance with procedures followed at recent meetings of the Commission, the Secretariat has prepared a series of tables giving the most up-to-date information available on catches by stock area and country for the 10-year period 1968-77, together with TACs and allocations for the most recent years, as an aid for Commission delegates at the 1979 Annual Meeting.

The catches for 1978, given in the stock area tables are based on more recent statistical reports than those available at the April 1979 Meeting of the Assessments Subcommittee, and, consequently, the stock area catches for 1978 in the appended tables may differ slightly from those mentioned in the Report of the Assessments Subcommittee (Sum. Doc. 79/VI/11), the summary table from which is given below with the nominal catch figures updated, where necessary. The nominal catches for 1978 are incomplete for certain stocks, especially those in Division 3M for which no statistics have been received from Spain.

Since advice on management of capelin, squid and shrimp stocks in 1980 has been deferred to a later meeting, information on these are not listed in the following table, but the stock area tables are included in this document.

Species	Stock area	Nominal catches (000 tons)					TACs (000 tons)

(NOT REPORTED TO ICNAF)

- 1 Catches are totals for inshore and offshore grounds, whereas quotas pertain to offshore grounds only in SA 1.
- 2 Specific breakdown of allocations by areas in SA 1 is given on page 55.
- 3 Combination of allocations for Canadian and Greenland fishing zones.
- 4 Unallocated portion for EEC countries.
